"Urban Garden's aim to bring more efficiency into their existing processes and partnering with Fieldproxy"

Company Overview

Urban Garden is an established India-based corporation best known for to promote flowering bulbs and seeds across.They have a history of making some of the finest quality services, made simple, inventive and reliable - for everyone, everywhere. Naturally, they have a massive field force and sales team across India, and need some assistance in managing them.

Fieldproxy helped urban garden accelerate their field teams and make it easier for these teams to coordiante, automate, and deploy operations faster than ever before.

What urban garden Needed

- A completely online data collection and management tool for Point of Sales related details.
- A more robust task scheduling solution for processing their sales orders.
- Updates in sales and numbers reported to managers in real-time. An expense, delivery, and payments management tool all clubbed together in one complete employee management software.

Migrate Operations Online

Transfered all of urban garden' operations online on the Fieldproxy app, providing their sales teams to just login and access past data with zero to little effort.

Merchandising and Order Management

Enabled field sales teams to perform merchandising and taking down sales orders from the app, reducing friction between the suppliers and buyers and closing deals faster.

Conclusion

Fieldproxy's field service automation and field team management solution changes the way business operate. It helped urban garden grow their business drastically, enabling them to save time, but generate more revenue at the same time. And it can do the same for your business as well.
