

Weekly lessons that are open to all students interested in learning more about finance and investing. Taught by some of Laurier's brightest students, the teach-ins will guide students through understanding the drivers of business quality, valuation fundamentals, and a guide to the finance industry.

## Program Pillars

### Lectures

Weekly hour long lectures covering a diverse range of finance topics

Prepared and presented by the VP of Investments

### Participation

Students are encouraged to participate in lectures and ask questions to further the learning process

### Practical Work

Optional assignments that students can complete and submit for feedback

## Curriculum Overview
