

How We Know God Better, Sacrament of Communion

Who has seen communion before?

That's one reason we want y'all in the service!!

What happens at communion?

People eat bread and wine.

So what do you have to have to have a baptism?

- 1) A church
- 2) Bread.
- 3) Wine!!! Or grape juice because it's like wine

Can you have communion with chocolate milk, or coke, or water, or with a hot dog?

No! Jesus tells us we got to use bread and wine/grape juice for communion!

Why does the church eat bread and drink wine?

It symbolizes something.

So like a red light means stop and green light means go, bread and wine is a symbol of what?

A meal! That's why we also call it the Lord's Supper.

The cross? Is Jesus being sacrificed again when we take communion? He was sacrificed for us once and for all on the cross!

If communion symbolizes a meal, what does it mean? What are we eating at the meal?
Jesus!!!

Is that gross? Are we really eating Jesus physically? Or spiritually with your heart? Like filling up your heart with Jesus? What does it mean to fill your heart up with Jesus in communion with your heart?

It means Jesus feeds your heart with himself and his love and his grace and his comfort - every good thing Jesus did for you in his life and death and resurrection, where he is right now in heaven - he is with you.

Remember, is communion just for you?

It's for you and the church. Together we have Jesus.

Who should take communion?

Anyone, everyone who believes Jesus died for you and for the church!

How many times do you get baptized? How many times do we take communion?

Baptism is the sign that says you're in the church with Jesus because Jesus got you in.

Communion is the sign that says you stay in the church with Jesus because Jesus keeps you in.

Do you have to take communion every Sunday?

No, many churches take it once a month or once a year.

Why do we take it every Sunday?

With the sacrament Jesus strengthens our faith and assures us that even though we still sin he has saved us and he is still with us!
