# Materiality Assessment

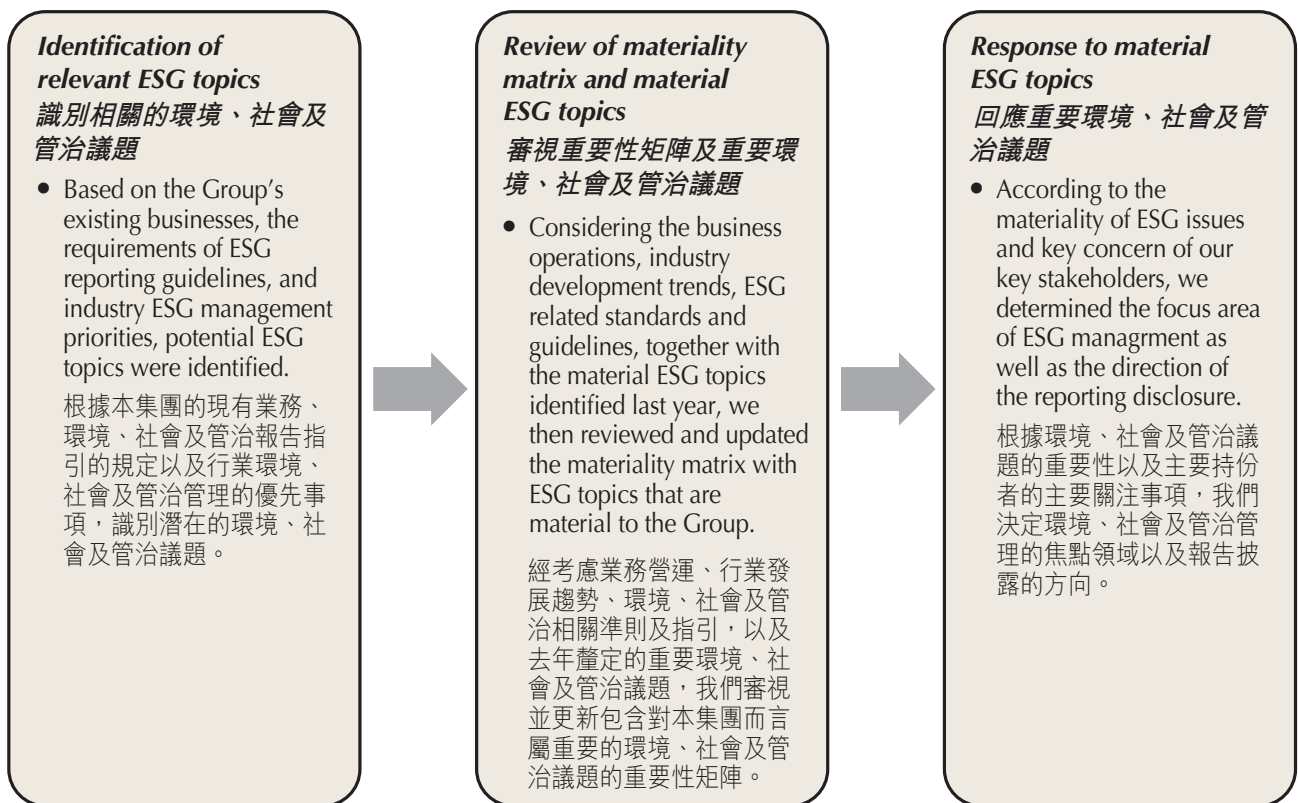

## 重要性評估

The Group conducted a materiality assessment, as facilitated by an external consultant, to recognize the ESG topics that are material to the Group and our stakeholders. The materiality assessment has enabled the Group to align our ESG strategy and reporting disclosure with the most significant ESG topics, ensuring that we address the issues that matter most to our stakeholders and the business.

本集團在外部顧問的協助下進行重要性評估，以確定對本集團及持份者而言屬重要的環境、社會及管治議題。重要性評估使本集團能夠將環境、社會及管治策略及報告披露與最重要的環境、社會及管治議題保持一致，確保我們回應對持份者和業務最為關鍵的議題。

### PROCESS OF MATERIALITY ASSESSMENT

### 重要性評估的流程

# Materiality Assessment

## 重要性評估

In accordance with the ESG Reporting Guide and global reporting standards (e.g. GRI), and taking into account our current business operations and development, we have identified a list of 25 ESG topics that are material to the Group's business operations and our stakeholders. To gain a comprehensive understanding of our key stakeholders' perspectives on these ESG topics, we have invited them to participate in an online questionnaire to provide feedback. Our key stakeholders are encouraged to rank the materiality of the identified ESG topics in relation to both themselves and the Group's business operations.

Following an internal evaluation, the materiality of each ESG topic is depicted in the materiality matrix below. The ESG topics that are deemed of high materiality are positioned in the top right quadrant of the matrix. The results of the materiality matrix and the identified material ESG topics are reviewed and finalized by the senior management and the Board. This process ensures that we prioritize our ESG initiatives and allocate resources effectively towards the issues that matter most to our stakeholders and the business.

During the Reporting Period, with the fifth wave of the COVID-19 epidemic being rapid and fierce, the Group recognizes the rising significance of relevant employment and labour practices, and operational practices. Under our internal review together with the latest market trends, the Group identified that ESG topics including: (i) Occupational health and safety, (ii) customer health and safety, (iii) customer satisfaction, and (iv) supply chain management, are attached with greater materiality than previous years, with respect to both our business and stakeholders. Given the materiality of these ESG topics, the Group will provide adequate resources to enhance the performances in relevant aspects.

根據環境、社會及管治報告指引及全球報告標準(例如GRI)，並考慮當前的業務營運及發展，我們釐定25項對本集團業務營運及持份者而言屬重要的環境、社會及管治議題。為全面了解主要持份者對環境、社會及管治議題的觀點，我們邀請主要持份者參與網上問卷調查，提供反饋。我們鼓勵主要持份者對所釐定的環境、社會及管治議題對持份者本身及本集團業務營運的重要性訂出優次。

經過內部評估後，每項環境、社會及管治議題的重要性於下文的重要性矩陣中說明。認定為高重要性的環境、社會及管治議題位於矩陣的右上角。重要性矩陣的結果和已識別的重大環境、社會及管治議題由高級管理層和董事會審查並作最後定案。此流程確保我們優先考慮環境、社會及管治措施，並將資源有效分配對持份者和業務最為關鍵的議題。

於報告期內，面對2019冠狀病毒病第五波疫情的急劇擴散，本集團深明相關就業及勞工常規以及業務常規的重要性不斷提升。根據我們的內部檢討和最新的市場趨勢，本集團釐定包括：(i)職業健康及安全、(ii)客戶健康及安全、(iii)客戶滿意度、及(iv)供應鏈管理在內的環境、社會及管治議題對旗下業務及持份者而言比過往年度更為重要。鑑於此等環境、社會及管治議題的重要性，本集團將提供足夠資源以提升相關層面的表現。

# Our Environment

## 我們的環境

Sustainability is at the core of our business operations, and we are dedicated to reducing our environmental footprint while promoting economic growth and social progress. As a provider of interior design solutions, we understand the importance of responsible resource management and sustainable product lifecycle management. By incorporating environmental considerations into our project solutions, we are committed to minimizing our impact on the environment.

To achieve this goal, we have implemented an environmental management system accredited with ISO 14001:2015 certification. The environmental management system facilitates out identification and management of environmental risks and opportunities throughout our operations. Through the development of management plans and continuous monitoring and assessment, we strive to minimize negative impacts on the environment and make steady progress in our environmental management practices.

As part of our commitment to sustainability, we actively participate in industry associations and collaborate with like-minded businesses. As a recognized member of the Hong Kong Green Building Council, we have had the opportunity to participate in environmental protection workshops and gain valuable insights into enhancing building interior design and reducing contamination in fulfilment of the BEAM Plus interior guideline. We also encourage our clients to support sustainable development through our ESG practices, which promote energy conservation and environmental protection. We believe that by promoting sustainable business practices, we can make a meaningful contribution to this effort.

Throughout the Reporting Period, the Group has strictly complied with relevant environmental laws and regulations where we operate such as the Waste Disposal Ordinance (Cap.354) of Hong Kong Special Administrative Region (“HKSAR”), Noise Control Ordinance (Cap.400) of HKSAR and Motor Vehicle Idling (Fixed Penalty) Ordinance (Cap. 611) of HKSAR. The Group did not aware of any breaches of relevant laws and regulations relating to air and greenhouse gas (“GHG”) emissions, discharge into water and land, and generation of hazardous and non-hazardous waste.

可持續發展是我們業務營運的核心價值，而我們致力於減少減少環境足跡，同時促進經濟增長及社會進步。作為室內設計解決方案供應商，我們深知負責任的資源管理和可持續產品生命週期管理的重要性。我們通過將環境因素納入我們的項目解決方案，致力減少對環境的影響。

為達成此目標，我們實施獲ISO 14001:2015認證的環境管理體系。該環境管理體系有助我們於整個營運過程中識別及管理環境風險及機遇。通過制定管理計劃及持續的監測和評估，我們致力減少對環境的負面影響，並於環境管理實踐中穩步取得進展。

為履行我們對可持續發展的承諾，我們積極參與行業協會，並與志同道合的企業合作。作為香港綠色建築協會的認可成員，我們把握機會參與環保研討會，並獲得提升建築室內設計及減少污染的方法之寶貴見解，從而符合BEAM Plus室內指引。我們亦致力鼓勵客戶通過我們提倡節能環保的環境、社會及管治措施支持可持續發展。我們相信，通過推廣可持續發展的業務行為，我們能夠為此項工作做出有意義的貢獻。

於報告期內，本集團已嚴格遵守我們營運所在地的相關法律法規，例如香港特別行政區《廢物處置條例》(第354章)、香港特別行政區《噪音管制條例》(第400章)及香港特別行政區《汽車引擎空轉(定額罰款)條例》(第611章)。本集團並無發現任何違反有關廢氣及溫室氣體排放、向水及土地的排污以及產生有害及無害廢棄物的相關法律法規的事件。

### EMISSIONS

#### Air Emissions

The use of company vehicles for site inspections and daily travel is a significant source of air emissions for the Group. To address this, our employees are instructed to plan their driving routes efficiently to minimize travel time and fuel consumption. Additionally, we conduct regular maintenance and inspections of our vehicles to ensure that the engines are functioning optimally and emitting fewer pollutants. Through these efforts, we aim to reduce our carbon footprint and promote sustainable transportation practices. We believe that by taking responsibility for our environmental impact, we can contribute to a cleaner and healthier future for our communities.

Air emissions generated by mobile vehicles during the Reporting Period is demonstrated in the table below:

### 排放

#### 廢氣排放

使用公司車輛作實地考察及日常出行為本集團廢氣排放的重要來源。為此，僱員按指引有效規劃行車路線及行程，以盡量減少旅行時間和燃料消耗。此外，我們對車輛進行定期維修及檢查，確保引擎以最佳狀態運作，並減少污染物排放。藉著這些舉措，我們旨在減少碳足跡及推廣可持續的運輸方式。我們相信，通過對環境造成的影響負責，我們可以為社區創造一個更清潔、更健康的未來。

下表載列報告期內車輛產生的廢氣污染物排放量：

Emission 污染物排放	Unit 單位	2020/21 二零二零/二一年度	2021/22 二零二一/二二年度	2022/23 二零二二/二三年度
Nitrogen oxides (NO <sub>x</sub> ) 氮氧化物	kg 公斤	1.95	1.16	0.31
Sulphur oxides (SO <sub>x</sub> ) 硫化物	kg 公斤	0.11	0.07	0.03
Particulate Matters (PM) 顆粒物	kg 公斤	0.14	0.09	0.02

#### Greenhouse Gas Emissions

During the Reporting Period, the Group's GHG emissions primarily resulted from the combustion of fuel in vehicles ("Scope 1 emissions") and the consumption of purchased electricity for daily office operations ("Scope 2 emissions"). We acknowledge that Scope 2 emissions constituted the largest proportion of the Group's overall GHG emissions. To address this, we have developed green office guidelines that aim to provide employees with guidance on environmentally friendly practices and introduce best practices in various areas. Details of these guidelines are outlined in the "Use of Resources" section and are a key measure for raising environmental awareness among our employees.

#### 溫室氣體排放

於報告期內，本集團的溫室氣體排放主要來自車輛的燃料燃燒（「範圍1排放」）以及日常辦公室運作的外購電力消耗（「範圍2排放」）。我們明白範圍2的排放於本集團整體溫室氣體排放中佔最大比例。為此，我們制訂綠色辦公室指引，旨在為僱員提供環保措施指引，並引入不同範疇的最佳常規。有關指引的詳情已於「資源使用」一節中說明，是提高員工環保意識的關鍵措施。

#### Waste Management

The Group recognizes that waste management is an environmental challenge, particularly in daily office operations. As part of our commitment to promoting sustainable business practices, we have adopted the 4R principles of Reduce, Reuse, Recycle, and Replace in our green office operations. We understand the importance of educating and advising our employees on sustainable resource management. We have implemented several measures to facilitate our employees in managing waste production effectively. These measures include:

- Install recycling facilities, such as collection boxes for plastic bottles and paper bags for single-sided printing paper
- Provide reusable cutlery and plates in our pantry
- Display clear signage and posters in prominent areas
- Conduct regular checks to ensure that waste is properly separated at the source
- Provide a clear guideline for recyclable plastic

The Group ensures that all recyclable materials are collected and disposed of regularly in accordance with applicable policies. As a part of our office operations, we generate a limited number of cartridges and Waste Electrical and Electrical Equipment. We work with licensed waste collectors or property management companies to manage our waste responsibly. Moving forward, the Group will remain vigilant in monitoring our waste generation for any significant hazardous waste. We will also continue to reflect on our current waste management practices and establish waste reduction targets when appropriate.

#### 廢棄物管理

本集團明白，廢棄物管理是一項環境挑戰，特別是在日常辦公室運作。為履行推廣可持續發展的業務行為的承諾，我們在綠色辦公室運作中採用4R原則(減少使用、重複使用、回收再用、替換使用)。我們明白對僱員進行可持續資源管理教育和建議的重要性。我們已實施多項措施，協助僱員有效地管理廢棄物生產。有關措施包括：

- 設置回收設施，如膠樽收集箱和單面打印紙紙袋
- 茶水間提供可重複使用的餐具及盤子
- 於顯眼地方張貼清晰標示及海報
- 進行定期檢查，確保廢棄物的來源分類妥當
- 為可回收膠袋提供一個明確的準則

本集團確保所有可回收物料均按照相關政策定期收集及處置。我們因辦公室營運而產生為數不多的墨盒及廢電器電子產品。我們與持牌廢棄物收集商或物業管理公司合作，負責任地處理廢棄物。展望未來，本集團將保持警覺，監測有否產生任何重大的有害廢棄物。我們亦將繼續評估我們現行的廢棄物管理措施，並在適當時候訂立減少廢棄物的目標。

### THE ENVIRONMENT AND NATURAL RESOURCE

While choosing our materials for the service provision of millwork and furniture, we seek materials that release little irritating substances (e.g. formaldehyde) throughout installation or use to decrease the FSC-certified forests to conserve biological diversity.

In addition to implementing environmental management systems and adopting green office practices such as promoting electronic communication and document circulation, we have embraced additional eco-friendly approaches in our procurement and product lifecycle management. Our aim is to integrate sustainability principles throughout various aspects of our operations.

To enhance transportation efficiency and reduce carbon footprint, we prioritize purchasing products either locally or from regions near Hong Kong. By doing so, we minimize the distance traveled during transportation. Furthermore, we have implemented facade pre-fabrication techniques, which enable us to maintain strict control over product quality and minimize the need for on-site modifications. This practice not only reduces waste production but also contributes to cost savings, benefiting both the environment and our business.

When selecting materials for millwork and furniture services, we actively seek options that emit minimal irritating substances, such as formaldehyde, during installation and use. This approach aligns with our commitment to conserving biological diversity by reducing reliance on materials sourced from FSC-certified forests.

Through these endeavors, we strive to integrate sustainability into our operations, minimize environmental impacts, and promote responsible business practices.

### 環境及天然資源

為金屬、玻璃及木製品以及傢俱供應服務挑選物料時，我們尋求在安裝或使用過程中釋放較少刺激性物質（如甲醛）的物料，減少採用來自森林管理委員會(FSC)認證的森林的木材，以保護生物多樣性。

除實行環境管理體系及採用綠色辦公常規（例如推廣電子通訊和文件流通）外，我們於採購及產品生命週期管理中採用更多環保方法，旨在將可持續發展的原則融入我們營運的各方面。

為提高運輸效率並減少碳足印，我們優先考慮在本地或香港鄰近地區採購產品，藉此盡量減少運輸過程中的行駛距離。此外，我們已採用預製幕牆技術，使我們能夠嚴格控制產品質素，減少現場修改的需要。該常規不但減少產生廢棄物，更可節省成本，有利於環境及我們的業務。

為所供應的金屬、玻璃及木製品以及傢俱供應服務挑選物料時，我們積極尋求在安裝和使用過程中釋放最少刺激性物質（如甲醛）的物料。此方法符合我們透過減少依賴來自森林管理委員會(FSC)認證森林的木材以保護生物多樣性的承諾。

透過該等措施，我們致力將可持續發展融入我們的營運中，盡量減少對環境的影響，並提倡負責任的業務常規。

### CLIMATE CHANGE

Climate change poses a pressing global challenge, as highlighted by significant initiatives such as the Hong Kong Climate Action Plan 2030+ and the Paris Agreement. These measures have been developed to combat the escalating threat of rising global temperatures. In light of recent occurrences of increasingly severe and intense natural hazards, the Group recognizes the critical importance of addressing climate-related risks. Such risks have the potential to impact not only our stakeholders but also our operational resilience. The Group has identified the potential climate risks below:

#### Physical risks

- Acute risk: The increased severity of extreme weather events (e.g. typhoon, storm) may cause damage to our office building and the delivered façade, leading to potential disruption of our business operation
- Chronic risk: The increased severity and frequency of extreme weather events (e.g. flooding caused by rising seawater levels, heatwave) may cause the office building to submerge and damage the delivered façade, leading to potential disruption of our business operation

#### Transition risks

- Policy risk: Increasing the price of GHG emissions by the latest implementation of carbon-pricing mechanisms, increase operating cost and pose a potential risk of financial instability
- Market risk: Higher demand for environmental-friendly and low-carbon goods and design services may be resulted due to the shift in customer preferences. Moreover, limited natural resources and higher transportation costs due to increasing climate-related weather events that may increase the cost of raw materials and risk to our millwork and furniture provision business

In the face of ongoing climate change challenges, our steadfast commitment lies in bolstering resilience and adapting to the ever-evolving risks. We proactively seek avenues to mitigate the negative impacts of climate change on our operations, we closely monitor relevant policies and regulations to ensure strict compliance. We also encourage our sub-contractors and suppliers to do the same. Climate risks are integrated into our internal risk assessment for effective monitoring and management. Our commitment to sustainability and resilience drives our proactive approach in addressing climate challenges.

### 氣候變化

誠如《香港氣候行動藍圖2030+》及《巴黎協定》等重大計劃所強調，氣候變化為迫切的全球問題。制定該等措施乃為應對全球氣溫上升所帶來不斷升級的威脅。鑑於近期發生的自然災害越發嚴重，本集團明白應對氣候相關風險至關重要。該等風險不僅可能影響持份者，更可能影響我們的經營韌性。本集團已識別下列潛在氣候風險：

#### 物理風險

- 短期風險：極端天氣現象（例如颱風、暴雨）的嚴重程度增加，可能會對我們的辦公大樓及已交付幕牆造成損害，導致可能中斷我們的業務營運
- 長期風險：極端天氣現象的嚴重程度及頻率增加（例如海水水位上升引起的洪水、熱浪）可能導致辦公大樓被淹沒，損壞已交付幕牆，導致可能中斷我們的業務營運

#### 過渡風險

- 政策風險：通過最新實施的碳定價機制提高溫室氣體排放的價格，增加營運成本並構成金融的潛在不穩定風險
- 市場風險：由於客戶偏好轉變，可能導致對環保和低碳商品以及設計服務的需求增加。此外，與氣候有關的天氣現象增加導致天然資源有限及運輸成本上升，這可能增加原材料的成本，使我們的金屬、玻璃及木製品及傢俱業務面臨風險

面對持續的氣候變化問題，我們堅定致力增強韌性並適應不斷變化的風險。我們積極尋求各種途徑減輕氣候變化對營運的負面影響，並密切監測相關政策及法規以確保嚴格合規，亦敦請分包商和供應商如此行事。氣候風險已納入我們的內部風險評估，以進行有效的監測及管理。我們致力於可持續發展及增強韌性，推動我們採取積極的方式應對氣候挑戰。

This includes the requirement to wear appropriate safety gear, such as helmets and shoes, in on-site conditions.

Furthermore, we place great importance on the safety of workers engaged by our suppliers. To safeguard their well-being and prevent accidents, we strictly enforce adherence to safety requirements set by landlords and property management companies during site work.

A healthy work-life balance is actively promoted among our employees, encouraging them to pursue personal interests and cultivate a well-rounded lifestyle. We organize various engagement events and activities, including sports activities and lunch gatherings, to foster a sense of camaraderie and enhance employee well-being within the Group. # Operating Practices

## 營運常規

With our expertise in delivering customized interior design solutions and translating design concepts into the physical layout of clients' retail boutiques, we acknowledge our role in integrating sustainability throughout our business operations. The Group is committed to promoting green and eco-friendly design practices, recognizing the importance of incorporating sustainable principles into our entire supply chain. Furthermore, we actively engage with our business partners to advocate for sustainable business management within the industry.

As part of our dedication to societal well-being, we prioritize the maintenance of exceptional product quality. This commitment is upheld through rigorous quality assurance measures and strict compliance with relevant laws and regulations. By doing so, we contribute to the establishment of an ethical, equitable, and sustainable corporate culture, setting a high standard for our industry as a whole.

### SUPPLY CHAIN MANAGEMENT

The Group places significant emphasis on establishing mutually beneficial relationships with our suppliers, fostering long-lasting collaborations built on trust and cooperation. Given the nature of our services, we recognize the importance of addressing and mitigating environmental and social risks within our supply chain. Key areas of focus include the occupational health and safety of suppliers' and sub-contractors' workers, quality control in subcontracting and material procurement, fair competition, product and service quality, and waste management.

To ensure the highest standards are met, the Group has implemented a comprehensive supplier selection policy that encompasses well-defined criteria for assessing supplier qualifications and competency. Factors such as project experience, regulatory compliance, market pricing, safety management, and material/service quality and reliability are taken into account. Suppliers and service contractors who have obtained certifications such as ISO 14001 Environmental Management System, ISO 9001 Quality Management System, ISO 45001 Occupational Health and Safety Management System, or other relevant accreditations are given priority, demonstrating our commitment to effectively managing environmental and social risks.

Geographical proximity is also considered during supplier selection, with preference given to local suppliers for material sourcing whenever possible. This practice helps reduce carbon footprint by minimizing transportation distances.

To ensure compliance and monitor progress, regular site inspections are conducted to evaluate product production, environmental management practices, and health and safety protocols. These inspections not only track progress but also reinforce our commitment to upholding relevant laws, regulations, client requirements, and specifications.

憑藉我們在提供定制的室內設計解決方案，並將設計理念轉化為客戶零售店的實體佈置的專業知識，我們明白我們在將可持續發展融入整個業務營運方面擔當的角色。本集團致力推廣實踐綠色和環保的設計，明白將可持續發展的原則融入整個供應鏈的重要性。此外，我們積極與業務夥伴合作，提倡在行業內實行可持續發展的業務管理。

作為我們致力於社會福祉的一部分，我們優先保持卓越的產品品質。我們通過嚴謹的品質保證措施和嚴格遵守相關的法律法規恪守承諾，藉此為建立道德、公平和可持續發展的企業文化作出貢獻，為整個行業樹立高標準。

### 供應鏈管理

本集團非常重視與供應商建立互利關係，促進建立在信任與合作基礎上的長久合作。鑑於我們的服務性質，我們明白處理和減輕供應鏈內環境和社會風險的重要性。重點關注領域包括供應商和分包商工人的職業健康及安全、分包品質控制和物料採購、公平競爭、產品和服務品質以及廢棄物管理。

為確保達到最高標準，本集團實施全面的供應商挑選政策，包括在評估供應商的資格和能力方面訂有明確的標準。我們亦考慮項目經驗、遵守法規、市場定價、安全管理，以及物料／服務的品質和可靠性等因素。我們優先考慮獲得ISO 14001環境管理體系、ISO 9001品質管理體系、ISO 45001職業健康及安全管理體系或其他相關認證的供應商和服務分包商，體現我們致力於有效管理環境及社會風險。

我們挑選供應商時亦考慮供應商地理上的鄰近程度，盡可能優先挑選本地供應商採購物料，透過盡量減少運輸距離減低碳足跡。

為確保合規及監管進度，我們進行安排現場檢查，以評估產品生產、環境管理常規以及健康及安全規程。除追蹤進度外，該等檢查亦加強我們恪守相關法律、法規、客戶要求和規範的承諾。

### SUPPLY CHAIN MANAGEMENT (continued)

An annual performance appraisal is conducted for newly approved suppliers and contractors, as well as upon the completion of their contracts. This appraisal assesses various criteria including safety compliance, material/service quality, product availability, customer service, delivery time, and after-sales support. Suppliers consistently delivering poor performance or violating regulations and rules are subject to immediate termination of the collaboration to safeguard the Group from potential legal and reputational risks.

To ensure fair and transparent competition in procurement and tendering processes, the Group has implemented an effective monitoring system and management controls. These measures guarantee adequate price quotations for comparison, impartial selection of suppliers and contractors, and prevent bribery, fraud, or other malpractice during procurement and tendering procedures.

### Green Procurement

As a core focus of our business, the Group is dedicated to providing tailored solutions and products that meet the unique needs and requirements of our clients. Recognizing the importance of minimizing adverse environmental impacts, we have actively integrated green and sustainable concepts into our project management approach. Throughout our operations, we place a strong emphasis on green procurement and sourcing, demonstrating our commitment to purchasing environmentally friendly products and services.

For instance, in our millwork and furniture-related services, we have implemented a requirement for all our suppliers to obtain Forest Sustainable Certification (FSC). This ensures that the materials used in our projects originate from well-managed and sustainable forests, supporting the improvement of forest management practices and fostering a sustainable market transformation. Furthermore, we strive to incorporate green product designs by utilizing environmentally responsible materials, including recyclable, reusable, and lightweight options. By doing so, we aim to reduce the environmental impact associated with our business operations.

An example of our commitment to sustainable design is the prioritization of paper honeycomb core as a substitute for traditional solid core materials. This not only reduces product weight but also decreases carbon emissions resulting from fuel combustion during transportation. These innovative re-engineered products and material substitutions effectively utilize natural resources and contribute to our sustainability goals.

As of 30 June 2023, we engaged in a total of 23 suppliers, comprising 23 located in the Asia Pacific region.

### 供應鏈管理(續)

我們對已批准的新供應商和分包商進行年度績效評估，或在合同完成後進行評估。評估涵蓋多個準則，包括安全合規、物料/服務品質、產品供應、客戶服務、交付時間和售後支援。持續表現不佳或違反規定及規則的供應商將立即終止合作，以保障本集團免受任何潛在法律和聲譽風險。

為確保採購和招標過程具備公平及透明的競爭，本集團已實施有效的監察體系及管理控制措施，以保證充分地比較報價，以及公正地挑選供應商及承包商，並防止在採購及招標程序中發生賄賂、欺詐或其他不當行為。

### 綠色採購

作為業務的核心焦點，本集團致力提供滿足客戶的獨特需求和要求的定制解決方案及產品。我們明白盡量減少對環境的不利影響的重要性，積極將綠色和可持續理念融入我們的項目管理方法。在營運過程中，我們非常重視綠色採購，體現我們致力採購環保產品及服務。

例如，在金屬、玻璃及木製品及傢俱相關服務方面，我們要求所有供應商取得森林可持續發展認證(FSC)，確保我們的項目中所用材料來自管理良好和可持續發展森林，以支持改進森林管理常規並促進可持續市場轉型。此外，我們亦致力通過使用對環境負責的物料(包括可回收、可再用及輕質物料)融入綠色產品設計。我們旨在藉此減少我們業務營運對環境的影響。

我們致力採用可持續設計，例如優先使用蜂窩狀紙芯代替傳統實心物料，不僅可減輕產品重量，更可減少運輸過程中燃料燃燒造成的碳排放。該等創新的重新設計產品和替代物料有效利用天然資源，並為我們的可持續發展目標作出貢獻。

於二零二三年六月三十日，我們合共聘用23間供應商，其中23間位於亞太地區。

### PROJECT AND SERVICE QUALITY (continued)

Additionally, we enforce strict adherence to health and safety requirements set by landlords and property management companies where our projects are located. Before commencing work, our suppliers are required to attend mandatory briefing sessions to familiarize themselves with safety rules and requirements, ensuring proper safety measures are implemented during site operations. This practice plays a pivotal role in preventing occupational and workplace incidents.

In our design and project consultancy services, we assign a dedicated team to engage in discussions with clients, gaining a comprehensive understanding of their specific requirements and conceptual ideas. Taking into account factors such as spatial arrangement, lighting, materials, and security concerns, we conduct detailed site surveys and prepare design solutions, including layout plans and material and color boards. We provide various design options with highlighted suitability for client consideration. Advanced computer software, such as 3D modeling, is utilized to create mechanical and electrical drawings, effectively illustrating the finished interior design with furniture layout, decorations, and appliances. Regular engagement with our clients allows us to refine the design, address inquiries and concerns, and ultimately present the final design proposal along with cost estimations. The Group holds a deep regard for intellectual property rights and maintains strict adherence to the applicable laws and regulations, including the Copyright Ordinance (Cap.528) of HKSAR. To reinforce this commitment, our information technology (IT) department has developed a comprehensive policy governing the use of software within the organization. This policy unequivocally prohibits the installation of unauthorized or illegal copies of IT software on any company devices or systems. By upholding this policy, we ensure that our software usage aligns with legal requirements and respects the rights of intellectual property owners.

### ANTI-CORRUPTION

Our unwavering commitment to upholding high integrity standards and ethical business practices is of paramount importance to us. We maintain a zero-tolerance policy towards any form of financial impropriety, including bribery, solicitation, corruption, extortion, and money laundering. To ensure responsible and professional conduct in our business activities, our employee handbook and relevant policies contain a comprehensive code of conduct that outlines the expected standards of behavior from all employees.

To prevent conflicts of interest and allegations of misconduct such as bribery or money laundering, our policies and code of conduct undergo regular review and oversight by the Group's management and human resources department. Prior to commencing employment, all employees are required to sign a declaration acknowledging their understanding of the regulations outlined in the employee handbook. Violations of these regulations result in corresponding penalties and disciplinary actions, including immediate dismissal.

### ANTI-CORRUPTION (*continued*)

Creating a work environment where employees feel comfortable expressing their opinions is one of our primary responsibilities. We have implemented a whistle-blowing mechanism that allows employees to confidentially report any potential improprieties related to the Group. The identity of whistle-blowers and the reported issues are kept confidential to safeguard them from any form of retaliation or unfair treatment. Our Chief Executive Officer oversees the investigation and validation of reported cases, ensuring fair handling and prompt responses, as well as implementing appropriate remedial actions if necessary.

To cultivate an ethical and honest corporate culture and promote compliance with laws, we provide anti-corruption training to our new recruits during their orientation. Our Human Resources Department takes responsibility for explaining the details of the anti-corruption policies outlined in the employee handbook. During the orientation sessions, employees are given the opportunity to seek clarification on any inquiries they may have, ensuring a thorough understanding of the relevant rules and regulations.

Throughout the Reporting Period, the Group diligently adhered to the anti-bribery laws and regulations applicable in the jurisdictions where we operate, such as the Prevention of Bribery Ordinance (Cap.201) of HKSAR. Through financial contributions, we assist secondary students from disadvantaged backgrounds and strive to improve the upward social mobility of youths from less privileged circumstances.

In recognition of our dedication to caring for the people, society, and the environment, the Group has once again attained the esteemed Caring Company logo for 2022/23 from the Hong Kong Council of Social Service, further affirming our commitment to making a positive difference in the community.

Looking ahead, the Group remains steadfast in our charitable endeavors, ensuring employee expertise and engagement in community service, while prioritizing the training and personal development of our professionals. By doing so, we aim to foster industry growth, strengthen our connection to society, and continue making meaningful contributions to the communities we serve.
