CHNC 2017 Annual Symposium Program

Nationwide Hotel and Conference Center
Columbus, Ohio
October 4-6, 2017

Meeting Objectives

1. Identify variations in care and best practices in Regional NICU Centers.
2. Discuss evidence-based management strategies in the care of neonatal high-risk conditions (e.g., CDH, HIE, BPD, NEC, neonatal mortality).
3. Demonstrate CHNC support to neonatal providers through its implementation of a collaborative quality improvement model focusing on improving practices relative to individual baseline data and appropriate benchmarks.

General CME Information:

The Nationwide Children's Hospital credits the CHNC to provide continuing medical education for physicians. Details of the CME will follow. CHNC has a conflict of interest policy that requires faculty to disclose relevant financial relationships related to the content of their presentations/materials. Any potential conflicts are resolved so that presentations are evidence-based and scientifically balanced.

Special thanks to Nationwide Children's Hospital as this year's host and CME provider and the following CHNC committees and individuals:
