

# HALLWORTH

## ODYSSEY

A collection of lighting inspired by celestial bodies, space, dreams, things far and away. 'Odyssey' is a continuous exploration into the intrigues of other worlds.

## A54

A54 is inspired by a rocket booster's center core perceived from a distance, and nods to the highly-classified, "Area" we can only imagine. Engine-turned glass diffusers in perforated aluminum cans provide a mechanical counterpoint to elegant shadows and soft light it emits in a radial pattern.

## SPECIFICATIONS

Materials:	Powdercoated aluminum cans with perforations. Engine turned glass diffusers.
Dimensions:	Custom Sizes Available.
Wattage:	Max. 25 watts
