

Darktrace Customer Testimonials

Self-Learning AI

Darktrace's AI algorithms are focused on one thing, and it's your organization. It's not any other organization. It's yours. It learns faster, it adapts faster, it morphs faster. And when it gets to that state of maturity where it really understands your environment, that's when you're going to hit the upmost level of protection that you're looking for.

/ CIO, American Kidney Fund

You need AI in place to quickly identify and respond to threats – you truly can't put a dollar value on Darktrace.

/ Director of Infrastructure and Technical Services, Kings Hawaiian

Cyber AI Analyst

With AI Analyst, we've been able to exponentially reduce alerts, harden our environment, and get strategic.

/ Assistant Executive Director/CISO, New Jersey State Bar Association

AI Analyst is sophisticated and the intelligence it gives us is clear and actionable – even my newest and most inexperienced starters can use and learn from it on day one.

/ CISO, Calligo

The Darktrace Cyber AI Analyst is a game changer because it reduces the time it takes to triage issues.

/ CIO, Amsty

Gartner Peer Insights™

Excellent product, has delivered on its promise, has reduced our threats significantly.

/ CTO, Manufacturing

It really works as advertised...the product keeps getting better and better.

/ Head of IT Infrastructure, Finance

Darktrace has given me back multiple hours per day that I can use doing other things.

/ Infrastructure and Operations Manager, Retail

The amount of threats identified and caught that other products in place missed is frightening.

/ CIO, Finance

One of the best vendor engagements I've had in 25 years in the industry. The technology itself has been a game changer in terms of our visibility and response capability.

/ CXO, Services

PREVENT

PREVENT is a clear way to justify cyber spend in board-level conversations.

/ Chief Technology & Supply Chain Officer, Vixxo

PREVENT/ASM continuously does vulnerability testing providing me confidence, assurance, and peace of mind in our cyber security.

/ VP of Information Technology, Direct Federal Credit Union

Darktrace PREVENT pairs up our inside and outside views and integrates them with DETECT and RESPOND, which is a game changer. Our customers are advocating that we need to be continuously testing the efficacy of our security. Darktrace PREVENT does just that.

/ Global Chief Information Security Officer, Sedgwick

RESPOND

For us, Darktrace RESPOND combats the most sophisticated ransomware attacks out there and it does that within seconds of the threat emerging. Crucially, the AI responds intelligently which allows us to continue normal business operations uninterrupted. This is the future of security.

/ CSO, Sunlife

Since Vixxo has enabled RESPOND, we haven't experienced false positives and RESPOND has taken appropriate action on every threat that it's encountered.

/ VP of IT Operations and Cyber Security, Vixxo

Not only is the Darktrace product top notch, but the customer service is excellent.

/ IT Security Specialist, Masonicare

The usability and interconnectivity of Darktrace streamlines our workflow and makes our lives easier every single day. But we also know that when the unexpected does occur and we do come under attack, we have best-in-class AI-powered detection and response to keep our global business running smoothly.

/ Head of Global Infrastructure and Cyber Security, Boardriders

With Darktrace's technology, we have unified protection of IT and OT, allowing our teams to operate with the same workflow ensuring that we can respond quickly and consistently to threats that emerge in any area of our network. Darktrace saves our team time by consolidating all events into a single pane of glass.

/ Vice President Information Technology, RioCan
