

HALLWORTH

ODYSSEY

A collection of lighting inspired by celestial bodies, space, dreams, things far and away. 'Odyssey' is a continuous exploration into the intrigues of other worlds.

MARINER OUTDOOR

Bridging the gap between the two lines, these pendants evoke references to both spaceships and submarines, lunar helmets and early diving bells. Intended as decorative fixtures, these pieces don't light down, but rather provide a theatrical flair of illumination to the room.
