Activity packs available

Effective Sales Basics

The content in this pack will arm the student with essential sales practices, top sales hints and tips, and give them more confidence in crucial job interviews. We give them the skills and coach them to confidently step out of their comfort zone and into a job in sales.

Essential Life Skills

Essential Life Skills focuses on skill sets that apply to everyday life. It covers finding inspiration in the world around them, developing motivational triggers and learning how to break out of the comfort zone.

Effective Financial Basics

Effective Financial Basics has been designed to take the student through the process of exercising their brain to ensure that they are ready to digest basic financial principles, including planning and working within a budget and gaining knowledge of everyday financial matters.

Guided Job Search and Profile Preparation

Our Guided Job Search and Profile Preparation Activity Pack walks students through every step of the job hunting process – from learning about fantastic web tools like Google Drive, email programs and etiquette to developing job hunt habits and managing the job application process.

Effective Work Preparation

If you have students that you feel are ready to make the step into the workplace but are worried about them sticking it out once they are there, we can help them to understand basic practices and expectations that will help them deal with everyday situations in the workplace.
