

Fluoride Gel 500ml

**CONTAINS 1.23%
FLUORIDE IONS**

INDICATION: For topical application to aid in the protection against dental caries.

Contains: Fluoride (Sodium Fluoride) – 1.23%.

CONTRAINDICATIONS: Should not be used with patients with known sensitivity to fluoride.

WARNING: Keep out of reach of children. For professional dental use only. Do not swallow. If more than the excess from a treatment dose is swallowed, seek medical help immediately. Avoid contact with soft oral tissues, eyes and skin.

PRECAUTIONS: For Professional use only. This product is not intended for home or unsupervised consumer use.

Avoid using more than required for one dose per patient per treatment. Discontinue use of other prescription fluorides (gels, foams, etc.) and fluoride supplements for 48 hours after treatment. Do not use in children under 3.

DIRECTIONS: Shake well before each use. Fill fluoride tray 2-3 ml of fluoride gel per arch. Dry tooth surface and insert tray(s) in mouth. Have the patients close into the tray for a minimum of 60 seconds to a maximum of 4 minutes. A slight biting or chewing motion will promote interproximal coverage. At the end of treatment, remove the tray(s) and have patient expectorate excess gel. Inform patient not eat, drink or rinse for 30 minutes following the treatment. Treatment frequency should not exceed 2 treatments per year.

STORAGE: Store in a dry and dark place. Store at room temperature. Keep from freezing.
