

External Data Processors

Last updated: April 2022

CoGo uses third party service providers to provide services that involve data processing, for example web-hosting and analytics providers.

When we share your data with a third party, we have contracts in place with them which requires them to have in place the technical and organisational measures necessary to protect your personal data.

You can find the details of our policies and processes in our [Privacy Notice](#)

In the table below, you can find the current list of external data processors that CoGo works with. Please note that this list may be updated from time to time as we change, add or update our suppliers:
