

What's New at Each Person

Hi There,

We've been working hard behind the scenes to make some exciting changes to your recognition platform! We want the way Each Person and Epoints works to be simpler for you and your company. As a team we've taken your feedback and created a whole new look and feel to the way we work...

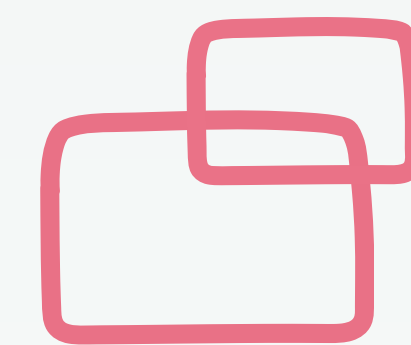

So What's Changing?

Recognising

Your employees will be able to send ecards and nominations directly from Each Person rather than Epoints. We want Epoints to be all about shopping and getting unbeatable savings with an all-round great offering you just can't refuse.

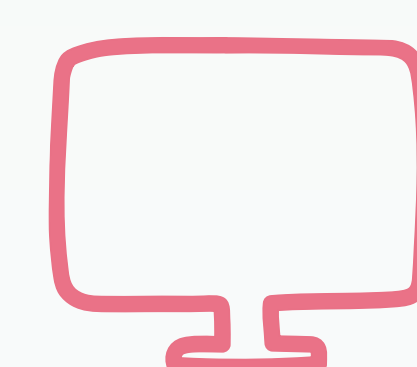

Linked Account

Employees personal Epoints account will now be linked to their Each Person account. This means both of the accounts will have the same login details making the login process quicker and easier than ever before. Plus only one password to remember!

Reporting

You will get access to a deeper level of reporting with more functionality to export specific data so you can delve into who has been recognising and rewarding around your team! Keep on top of budgets, educate those who need to be recognising peers more often and reward those who recognise every single day.

Look & Feel

We've stripped back the Each Person platform to make it easy to navigate, really focusing on the little things like constantly seeing your team budget.

These changes will be launched in September. We will be offering webinar training sessions prior to this for superadmins, managers and users which will focus on the changes, and go into more detail on how to navigate the new site. The dates for these webinars will be confirmed to all employees soon! Make sure you keep an eye out!

We really hope you think these changes are as positive as we do. We would love to hear your feedback. Please contact us at csm@eachperson.com if you have any questions, or would like to schedule a call to discuss in more detail.
