

RUBBEXX

PRINTING BLANKET

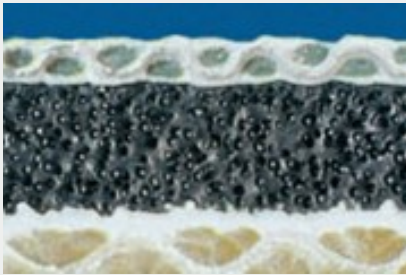

FOR CONVENTIONAL INKS, HIGH COMPRESSIBLE

CONTI-AIR LITHO HC

FABRIC BASED PRINTING BLANKET FOR SHEETFED PRINTING

Allround blanket for Offset-printing:

- // Resistance with often changes substrates and sizes
- // Very good, high compressible layer (HC)
- // Sharp dot transfer and smooth full surface print
- // Very good in commercial printing
- // Perfect smash resistance
- // Environmentally friendly due to low-solvent production

TECHNICAL DATA

Surface

Color: oceanblue

Surface hardness

(DIN 53505):
63° Shore A

Surface Roughness:

0,7 µm (RA)

Total hardness:

80° Shore A

Compressibility

at 1.350 KPa:

0,227 mm ± 0,027 mm

Elongation at 500N / 5cm:

1,50%

Layers:

2 calibrated fabric layers

Nominal thickness

(ISO 12636):

1,95 mm
