

# RUBBEXX

# VARNISH-/PRINTING BLANKET

FOR UV INKS / UV-VARNISH

## ADHESIVE UV RED 1.95-2.25

Self-adhesive special printing blanket for UV printing presses, 2-piece cans, labels, or others

- // Excellent for UV inks or varnishing
- // Thicknesses available from 1.95 – 2.25mm thickness, without protection foil
- // High dimensional stability avoids retightening
- // Resistant against UV inks and aggressive UV wash lotions
- // Excellent ink transfer and dot sharpness
- // Low dot gain, high dot sharpness
- // Very strong adhesive applied during hot laminate process with pressure

### TECHNICAL DATA

**Surface**  
Color: red

**Surface hardness:**  
66° Shore A

**Total hardness:**  
80° Shore A

**Surface Roughness:**  
0.8 – 0.9µm (RA)

**Thicknesses available  
(without protection foil):**  
1.95 – 2.25mm +- 0.02mm

**Compressibility at 1350KPa:**  
0,200mm +-0,020

**Protection Foil: yellow**  
Siliconized paper
