April 12, 2023

## Number Talk

Learning to recite numbers from 1-10 isn't the same as understanding math talk in context. Whenever possible, remind families to count what they see - like stairs, steps, fingers, toes, or trees. Using math talk throughout the day helps build a strong foundation for future math skills.

### WHY PROMOTE ACADEMIC KNOWLEDGE?

Children's foundational knowledge at the beginning of school can have a lasting impact on their academic trajectory
