INR 12.50 Crore

Supplying PPR vaccine across the globe

● National Capital

Hester Africa, DAR ES SALAAM, Tanzania

HESTER AFRICA

Location

Kibaha (near Dar Es Salaam), Tanzania

Objective

To bridge the quantitative and qualitative gap between demand and supply in the area of animal vaccines and health products in Africa

Way Ahead for Hester

**Striving to become a Global
Animal Healthcare Company**

ACCREDITATION

“One priority is animal health. Diseases can wipe out flocks and herds, driving smallholders even further into poverty. For example, Newcastle Disease can kill three-quarters of the chickens in a flock during an outbreak. Through a partnership with Hester Biosciences, there is now a vaccine that costs just three cents a dose.”

– Mr. Bill Gates at Smallholder-led Agricultural Transformation Summit Andhra Pradesh, India, 17 November 2017
