

The BaseTread is designed to support heavy foot and cart traffic and provides a barrier against dirt, mud, slush, and snow. This grid is the industry's strongest grid and can accommodate rolling load conditions up to 1,000 lbs. per wheel.

A solid 1/8" thick vinyl "T" profile footer runs the full width and length of each section and provides a low-impact cushion for all traffic. The rugged aluminum framework assures durability and longevity while the vinyl hinge allows the mat to be rolled up and moved for convenient under-mat cleaning.

Key Features & Benefits/ Quick Overview

- Long-lasting
- Aluminum tread rails
- Available in 1/2" (12.7 mm) 3/4" (19.1mm) profiles
- Improves traction and scrapes shoes to trap dirt & water
- Mat rolls back for easy cleaning
- Designed for high traffic areas
- Slip Resistant
