About

AGORA Kindergarten is an English immersion school for children aged 2-6. Children learn to read, write, and speak English at a level equaling, if not excelling, their peers in English speaking countries such as Canada, the U.S., and Australia. French, Chinese, and Japanese are also taught to the children on a weekly basis. The average child to teacher ratio is 6:1.

Educational Philosophy

Children naturally learn about western culture through numerous activities and events. However, special emphasis is put on having the children experience Japanese culture in English through specially tailored activities. It is our mission to prepare the children for elementary school, being assertive and confident speaking English as well as having gained a basic knowledge of French and Chinese.
