-  Roppongi Station
-  Established:
-  Last Verified: 2022

## About

The Bright Minds RLC International Preschool is one of the longest running preschools in Tokyo, situated conveniently in Roppongi Hills, within walking distance of Roppongi, Azabu and Hiroo train stations.

The varied curriculum and support structure enables children aged primarily 18 months to 4 years to play, have fun and learn, whilst developing the foundational skills to prepare them for primary school.

## Educational Philosophy

We are a small, family-oriented school that recognises each child's unique characteristics and personality. Children experience new and enjoyable situations in a nurturing but informal setting that allows them to become gradually more self-confident and independent.

They develop skills through exposure to a wide variety of activities that promote self-paced development and expand creativity.
