

## SUCCESS STORIES

# Small Process Changes, Big Impact

Whether implementing a new system or updating an existing one, Baecore Group has helped many municipalities achieve big benefits through minor adjustments – and we can do the same for you.

| BEFORE   | AFTER  |
|--|--|
| <b>Paper tracking</b> of 9,800 meters in multiple locations across multiple departments.   | <b>Eliminated 150 hours</b> (4 weeks) of personnel time annually on paper filing and retrieval by electronically consolidating meter information.  |
| Community Development department created <b>manual reports</b> for miscellaneous payments.   | <b>Reduced 130 hours</b> (3+ weeks) of staff time spent annually on reporting by <b>eliminating duplicated</b> reports and information.  |
| <b>Significant time spent</b> by Finance in responding to internal personnel inquiries and vendor inquiries on payment status.   | <b>Eliminated 78 hours</b> (2 weeks) of personnel time spent annually answering status questions and reduced invoice processing time from three to two days through automated approval process.  |
| Parking permits and permit applicant wait list <b>tracked manually</b> in spreadsheets with no historical record information.  | <b>Eliminated 225 hours</b> (5+ weeks) of personnel time annually managing permit application wait lists and issuance of permit with the implementation of <b>electronic wait lists and permit processing</b> .  |
| Time-consuming <b>paper process</b> to record personnel actions and duplicate records maintained in departments.   | <b>Eliminated 200 hours</b> (5 weeks) of personnel time spent each year, as well as duplicated entry of information, with online personnel action requests and automated routing.  |
| <b>Manual process</b> to identify billing for false alarms. Alarm registration managed in Access. <b>Significant personnel time</b> spent researching and responding to inquiries.   | <b>Eliminated 520 hours</b> (13 weeks) of personnel time spent annually on manual, duplicate data entry while improving reporting with the implementation of <b>electronic work orders</b> capturing employee time.  |
| <b>Manual process</b> to identify and track billing for <b>false alarms</b> . Alarm registration managed with Excel spreadsheets. <b>Significant personnel time</b> spent researching and responding to billing inquiries. | <b>Reduced 271 hours</b> (6+ weeks) of personnel time with the automation of both tracking false alarm calls and renewal registration of alarm systems.  |
| Word and Excel based system to review and approve <b>business license applications</b> . <b>Occupancy permits</b> managed via email to move between departments.   | <b>Reduced</b> the average <b>customer wait time</b> by 5 business days ( <b>50%</b> ) for business licenses with the implementation of electronic application, review and approval process. <b>Eliminated delays between departments</b> with aging reports and alerts. |
