

The Geo2 modular seating is the perfect addition to your workspace! We've created a new, innovative way for you to furnish your office with ease and style. The Geo2 modular seating system can be configured in many different ways, allowing you to create a space that perfectly suits the needs of both employees and clients.

The Geo2 Collection is an extensive & versatile modular bench that features comfortable seating with simple designs & unique shapes. With endless configurations, it's a great place to sit down & connect. These units put together make a dynamic & unique configuration unlike any other modular series.
