

Environmental Impact

The DOF Group is committed to ensuring that its activities shall have minimal impact upon the environment.

The DOF Group shall:

- Implement and operate in compliance with the ISO 14001 standard;
- Ensure environmental management is given equal consideration throughout all operational planning and undertaking;
- Assess and control the aspects and impacts of our operations upon the environment;
- Consider all environmental incidents to be preventable and make all efforts to meet the target of zero spill to the external environment;
- Apply applicable laws and regulations and where deficient apply company and industry best practice;
- Reduce and restrict the production of waste products known to be detrimental to the environment;
- Minimise our impact on the environment through pollution prevention, efficient use of natural resources and the reduction and recycling of waste;
- Set and regularly review environmental objectives and targets with the aim of continuous improvement;
- Monitor our environmental performance and address deficiencies where identified;
- Consider environmental improvement areas as high priorities during projects and new-buildings;
- Openly communicate environmental performance with industry organisations and the wider community.

Responsibility and application

The Chief Executive Officer of the DOF Group is accountable to the Board of Directors for ensuring that this policy is implemented.

Management at all organisational levels within the DOF Group is responsible for ensuring the success of the Policy through the provision and availability of the necessary resources.

All DOF Group employees and subcontractors have an individual responsibility to ensure that they and their colleagues co-operate with the Group to achieve its quality objectives.

This policy applies to all DOF business units and operations.

Mons S. Aase
Chief Executive Officer
