The DBM-150 is the world's smallest fully automatic bookletmaker and trimmer. Equipped with Duplo's superior engineering within a compact footprint. It can produce finish documents either sheet by sheet or set by set. The DBM-150 is designed to meet the challenges of today's offset and digital printer. Duplo has bundled the features of the big bookletmakers into this uniquely compact system.

### Compact footprint

The 150 Bookletmaker and Trimmer is 13% smaller than its predecessor the 120. The small footprint of this booklet system makes it easy to install in places with limited space. The DBM-150 and DBM-150T is the ideal companion for low to mid volume users such as Quick printers, Copy shops, in-plants and digital printers. Despite its small size, this system can finish a wide range of applications.

### Media

The DBM-150 can finish wide range of applications. It can handle sheet sizes from 120mm x 210mm to 320mm x 460mm and paper weights from 64gsm to 300gsm. The small booklet kit is standard in the DBM-150.

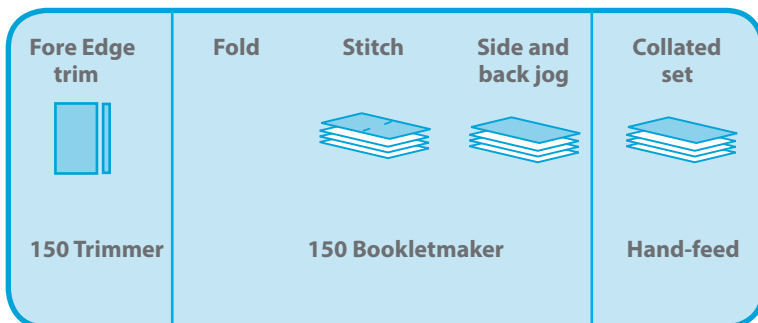

### User-friendly

The DBM-150 bookletmaker and trimmer features a state of the art control panel which is very simple and easy to use. The operator can set up a job in four simple steps. Everyone can operate the DBM-150 with or without very little training. It is the most user-friendly bookletmaker in its class!

### Automatic set-up

The booklet size on the 150 Bookletmaker and Trimmer can be changed without any tools and takes only a few seconds. Simply select the required size and the guides and trimming position adjust automatically. If required, the operator can adjust the stapling position manually.

### Finishing modes:

The DBM-150 can finish side stapling, corner stapling and fold saddle stapling applications. It is also possible to produce fold only applications.

### Speed

The 150 Bookletmaker and Trimmer can produce up to 2400 books per hour.

### Trimmer

The 150 trimmer is fully automatic and is programmed from the 150 bookletmaker. The operator can adjust the trimming position from 1 to 20mm.

DBM-150 Hand feed

### Hand-feeding

The 150 Bookletmaker and Trimmer can be used as a stand-alone system. The operator can manually feed sets through the hand feeder, which is ideal for very short run or pre-collated jobs.

### Modularity

This highly modular system and can be customised according to the end users needs, allowing them to configure and expand as their demands change. The DBM-150 and DBM-150T can be configured to the DSC-10/20, DSF-2200 and DFC-100.
