Metalbind Photobook Solutions

Metalbind is a unique binding & photobook system that is strong, elegant & flexible.

- Binding system using Metal Channels & Hard Covers to bind your precious documents & create Photobooks.
- This amazing new system lets you easily customise the covers using the Goldpress 4+ or Atlas 300 machines.
- GBC provide a total Photobook solution incorporating design software, binding machines, foil stamping machines and consumables.

Photobook Finishing Solutions

- Unique
- Elegant
- Flexible

GBC ATLAS 300

A new Innovation in Binding & Hot Foil Stamping

Unique binding and hot stamping machine in one with innovative solutions of METALBIND & GOLDCOVER systems applied. Hot Stamps on METALBIND hard and soft covers for stylish presentation.

Very solid construction in metal housing. Recommended to be used in copy-shops for binding purposes and in offices for binding and hot stamping. Safe, secure and fast binding, as there is no need for punching and gluing.

- Binds & de-binds up to 300 pages (80gsm)
- Footprint: 418 (w) x 269 (d) x 130mm (h)

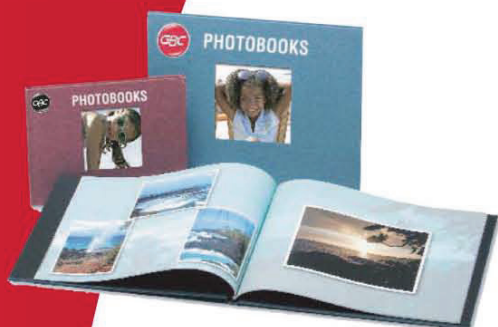

GBC ATLAS 150

Innovative Metalbind System

Popular METALBIND binding machine, which binds documents up to 150 pages (80gsm). Very solid construction in metal housing. Binds & de-binds up to 150 pages.

- Footprint: 418 (w) x 269 (d) x 130mm (h)
- Small & Compact - to fit in every office & copy-shop
- Strong & durable - to serve for many years
- Easy to operate - binding is very short & convenient

GBC MB300

Heavy-duty Metalbind System

This METALBIND machine will easily bind and de-bind documents up to 300 pages. With metal housing, strong construction and front positioned binding slot machine longevity and functionality are prominent features of this machine.

- Footprint: 450 (w) x 280 (d) x 350mm (h)

GOLDPRESS 4+

The Perfect Finishing Touch for your document

Goldcover

Compact and easy to use hot stamping machine. Recommended for the customisation of all types of binding covers and for a variety of materials.

Easily and efficiently personalise hardcover documents with the Goldpress 4+. The Goldcover system allows you to hot stamp:
