**Nval Solidifies Data and Education Partnership with MeetAmi Innovations Inc.**

*The fastest and most accurate NFT pricing service available, Nval TAP™ or Tokenized Asset Pricing provides global NFT pricing services to MeetAmi.*

Victoria, Canada OCT 31, 2022 – Nval, the leading global provider of NFT pricing, analytics, and benchmark data, has announced an exciting new partnership with MeetAmi Innovations Inc. ("MeetAmi") to assist their wealth advisor community with data to assess NFT holdings for portfolio management, regulatory reporting, and insured value. Nval will assist MeetAmi in developing their monitoring, tracking, and reporting capabilities for NFT assets. Through its flagship TAP product, 'Compass', Nval will provide auditable NFT portfolio market value and history data to meet regulatory and audit standards for accounting, tax, and client reporting purposes.

In addition, Nval will lend expertise and assistance to help AmiLearn, an education and learning division of MeetAmi, produce content for understanding the intricacies and opportunities in the NFT digital asset space. This content will be available to more than 12,000 wealth management professionals.

*"We are fortunate to have a great data and education partnership with Nval and to be able to leverage their expertise in the nascent and dynamic NFT marketspace. This allows us to integrate this exciting new area into the design and implementation of our education courses and programs for wealth management and financial advisor professionals so they are prepared with the knowledge and tools to navigate the NFT space.", said Hashim Mitha, CEO, of MeetAmi.*

"We are very excited to partner with MeetAmi with the Nval:TAP™ suite of services and enable MeetAmi with this powerful data while contributing our expertise for the education of MeetAmi clientele. We are dedicated to assisting them in any way we can going forward.", Layne Nadeau, CEO of Nval stated.

**About Nval:**

Nval is a leading NFT market infrastructure platform delivering real-time pricing, benchmark, and analytics data. Using machine-learning algorithms to create sophisticated financial models, Nval is able to provide the highest quality pricing data available on NFTs including thinly-traded and hard-to-price assets.
