---

**Additional Insulation**
Interested in increasing your insulation R-Value? We have a ceramic insulated paint that can be applied to the metal interior of the van that will drastically increase the energy efficiency and prepare you for harsh climates.

$1,800
*(R-Value Equivalent of 10.5)*
1. **Finances**: Secure funds for your conversion.
2. **Consultation**: Free consultation to discuss the project.
3. **Payment**: 40% down to secure a spot in our production schedule and begin the build process. An additional 40% is due once the project is halfway through and a final 20% is due after client final inspection.
4. **Completion**: Unit completed and delivered to be installed on your property.
**DO YOU DO CUSTOM BUILDS?**

Our focus at this time is on our standard designs. We have a variety of upgrade options available to help meet your needs.

**DO I NEED TO PROVIDE MY OWN VAN?**

Yes, since we are exclusively a van conversion company we do not sell vans.

**CAN I FINANCE MY VAN?**

At this moment we work with two different lenders. [Www.lightstream.com](http://Www.lightstream.com) can do loans up to $100k and Loan Glide can do loans up to $50k. Contact one of our team members for more information.

“OUR TEAM OF EXPERTS WILL HELP YOU ALONG THE WAY TO MAKE YOUR ALT OFFICE BUYING EXPERIENCE SIMPLE AND EASY.”

**HOW LONG DOES IT TAKE TO BUILD?**

Our build times are 8-12 weeks.
How to start?
The first step is to secure finances. Once you have secured the necessary funds you are ready to get started! Contact us to schedule a free consultation where we will go over pricing in detail and provide you any additional information to move forward.

Can it handle harsh climates?
All of our units are well insulated. We do offer additional upgrade options that will allow you to thrive in cold and hot climates as well.

How do you heat and cool an ALT Campervan?
The most common way is to have an HVAC unit installed. Our base models come with a Maxx Air Fan and combined with sliding windows can create good airflow for moderate climates.

How does it get delivered?
You are welcome to pick it up at our facility upon completion or we can schedule delivery to your location.

Can you travel off-the-grid with an ALT Campervan?
Absolutely! With the right solar and water/sewage set up we can get you fully off-grid.
