Our Chairman's Message

Mr. Abdul Rahman Mousa Al Ma'rouf
Chairman

Combined Group Contracting Company (CGCC) was established on 15th November, 1965 in Kuwait as a limited liability company with a paid up capital of KD 7,500. With perseverance, diligent work, non-stop development and improvement, a focus on quality and customer satisfaction, the company became a publicly traded shareholding company with a paid up capital of KD 12,276,917/700 (approximately US\$ 40,9 Million) as of 30/06/2015.

With God's grace, the total revenues reached almost KD 198,000,000 /- in 2014, and CGCC has constantly moved from strength to strength over the past five decades. Our staff are currently over 12,900 employees, among who are some of the finest names in the contracting industry in the Arab world.

Our activities now span the oil sector where we have become main contractors for pipelines for companies like Kuwait Oil Company and the Joint Operations.

In the roads and infrastructure sector, we have been executing several large projects including Sheikh Jaber Causeway, the Subbiya Highway in Kuwait, and the Northern Industrial Area in North Doha, Qatar. CGCC has the highest degree of specialization in

the Roads and Infrastructure sector. From Bridges to Tunneling, CGCC is a dominant force in the industry in the region. The company is also executing several large road and infrastructure maintenance projects in Kuwait.

In the Construction sector, CGCC has completed major buildings in Kuwait, some of which have become homes to prestigious educational institutions. CGCC has also accomplished the construction of an outstanding governmental housing project.

CGCC in 2007 was able to successfully penetrate the power generation industry and was awarded a contract for the supply, erection, and 5 years operation and maintenance of a 305 Megawatts power plant in Subbiya, Kuwait. That project was the first type for CGC and was successfully completed in 2009.

Supporting our contracting activities, CGCC owns asphalt plants, ready mix concrete batching plants and a wide and diverse fleet ranging from heavy specialized equipment to light vehicles. While these mainly support our own operating divisions, the services center also caters to the market and supports other contractors as well.

With a dominant role in contracting in Kuwait, UAE and Qatar, and successfully executed projects in Lebanon, Indonesia, Tajikistan, Georgia, Mongolia and Uzbekistan, CGCC is a building partner you can rely on.

We look forward to growing further and cooperating with you in the years ahead and to be one of the top ten companies in the Arabian Gulf over the coming decade, providing contracting services of outstanding quality and reliability to our customers.

Established 50 years ago, Combined Group Contracting Company continues to enjoy being among the top construction companies in Kuwait. We recognize the importance of focusing and aligning our businesses to pursue markets with the best long-term growth potential. In this regard, we have integrated our business and positioned ourselves geographically to lead the industry in the building and civil infrastructure markets for public and private customers.

We also possess the expertise to deliver the large and complex projects with the ability to efficiently employ resources, manpower and equipment in Kuwait and international markets. We also have a strong financial position, support from our clients, and backing from local and regional banks, we are leveraging all our resources and relationships across the globe in order to fill our capacity with new contracts.

CGCC has been steadily growing, and year on year have won a number of significant projects, which include building construction, infrastructure and oil related development projects. The total value of projects executed between 2004 and 2009 was in excess of KD 798 million (US\$ 2.65 billion). CGCC currently retains more than 12,900 employees within its various divisions.

We invest heavily in the finest people and the finest equipment. Proof of this came for the first time in 2004 when CGCC was awarded ISO certification 9001:2000. This was updated in November 2009 to ISO 9001:2008 with validity until 2016. Also in 2009, CGCC was awarded ISO 14001:2004 for Environmental Management Systems, and OHSAS18001:2007 for Occupational Health and Safety Management with validity until 2018. CGCC is devoted to continuing improvement and innovation as the route to optimizing our operations.

CGCC stands in a highly advantageous position, we have the latest technology in the field of construction encompassing planning, scheduling, procurement, cost control, accounting, drafting (CAD), CPM programming and store keeping.

Our more than 50 years of experience, a vast array of equipment, depth in human resources and a wealth of information is a valuable asset to any local or international company planning to execute construction contracts in Kuwait as partners, joint ventures, or as part of a consortium. Additionally our vast experience in Europe, Asia, and the CGCC puts us in the perfect position to offer our services to Joint Venture partners within and outside of Kuwait.

Company Scope of Work:

- 1- "To undertake general Contracting, Mechanical Works, Water & Sanitary Works, Sanitary Engineering Works and Construction works such as Buildings, Roads & Bridges including managing & supervising any other related services. Moreover, CGC is also capable to execute Dams Constructions Works, Electrical Works, HVAC Works, Electromechanical Works, Industrial Works and Tunneling Works. "
- 2- Manufacturing, Producing and importing all Kinds of Construction Materials (after the approval of the Public Authority for industry).
- 3- Trading & Packing Cement, Sand borrow pits and bulk materials related to it.
- 4- Ready Mix Concrete.
- 5- Manufacturing & executing Painting and Decorating works needed to execute civil works (after the approval of the Public Authority for industry)
- 6- Production of Asphalt.
- 7- Procurement, and importing the Machinery, Tools and Equipment needed to execute the Company works.
- 8- Owns the means of Transportation Facilities needed for the Company Activities.
- 9- Representing Companies and entering Tenders similar to our Scope of Work
- 10- Use the available surplus funds by investing into portfolios managed by specialized financial Companies & Entities.

The Company Manages Directly the above mentioned Activities & Works in the State of Kuwait and outside or by Agents.

The Company capable to enter in Joint Ventures to execute similar works in State of Kuwait and outside.

Classifications

Central Tenders Committee:

1. Category 1 for infrastructure works (Roads and Sewer)
2. Category 1 for civil construction works
3. Category 2 for electrical works,
4. Category 2 for air conditioning works.

Kuwait Oil Company:

1. Category 02A, 02B and 02C for pipelines and associated works for pipelines of all diameters, manifolds and maintenance,
2. Category 03 for domestic water, air and gas main up to 4" diameter,
3. Category 04A, 04B and 04C for mechanical engineering, plant installation and maintenance for process plant piping,
4. Category 08 for plant maintenance and production facilities,
5. Category 51 Maintenance Services for production and associated facilities including mechanical, Electrical and instrumentation.

KNPC:

- 1- Category 01A1 Earth and Soil Moving work including grading, Leveling, Compacting, Soil replacement and excavation
- 2- Category 01A2 Surveying and soil investigation
- 3- Category 01A3 Road and Dykes construction and maintenance
- 4- Category 01B1 Building Construction
- 5- Category 01B3 Structural Steel Construction
- 6- Category 01B4 Civil Maintenance Work including Building maintenance Modifications
- 7- Category 01B5 Water Proofing works
- 8- Category 01B6 Sign writing on wood, plastic, Metal and wall
- 9- Category 07A2 Low tension switch gears installation
- 10- Category 10A1 Hiring and rental services of heavy equipment's
- 11- Category 18A3 Fire water network and foam system construction
- 12- Category 24A1 Construction of petrol filling station
- 13- Category 27A1 PC Mechanical work
- 14- Category 27A2 PC Electrical work

Al Khafji Joint Operations:

1. CC-2 for major civil works,
2. CC-4 for major asphaltting and roads works,
3. MTS for skilled manpower supply services.

Some of our Projects in Kuwait Construction Projects

f For 50 years, we at Combined Group Contracting Company have had a role to play at the heart of establishing Kuwait as a modern and dynamic international city. We have been doing this one building at a time. Today there is hardly an area of Kuwait that has been untouched by the skill and .expertise of CGCC.

Across a number of sectors including residential developments, healthcare, commercial sites and security establishments as well as the infrastructure required to make these elements function together as a whole, Combined Group Contracting Company is involved. As we move into the second decade of the 21st century, we re-affirm our commitment to building excellence, and to building with vision throughout Kuwait and other international and outstanding cities. We are proud of our contribution to the development of Kuwait, these are some recent projects completed so far in the new millennium:

Construction and Maintenance of college of Arts and college of Education at Sabah Al Salem University City, Kuwait University

In cooperation with Arab Tech Emirates (Joint Venture)

Owner: Kuwait University

Project Value : KD 119,940,000/- (Equivalent US\$ 399,800,000/-)

Our share is 40% - KD 47,976,000/- (Equivalent US\$ 159,920,000/-)

Duration: 1280 days

Completion Date: 31.12.2016

Developing and Rehabilitation of Al Salam Palace

Owner: The Amiri Diwan

Project Value : KD 38,900,000/- (Equivalent US\$ 129,666,000/-)

Duration: 465 days

Completion Date: 02.11.2015

Golf Club Project

Developing and Rehabilitation of Al Salam Palace Project

Kuwait International Airport Project

Construction of State Audit Bureau Headquarter - Kuwait

Owner: Audit Bureau

Project Value: KD 24,658,611/- (Equivalent US\$ 82,195,370/-)

Duration: 1080 days

Completion Date: 15.11.2006

Construction of Golf Club Course - Package No. 5

Owner: Kuwait International Golf Co.

Project Value : KD 2,811,491/- (Equivalent US\$ 9,371,637/-)

Duration : 725 days

Completion Date: 15.04.2006

Commercial Building, Kuwait Airport Vehicle Parking

Owner: Kuwait United Construction Management (KUCM)

Project Value: KD 1,869,702/- (Equivalent US\$ 6,232,340/-)

Duration: 369 days

Completion Date: 31.12.2007

Faculty of Arts and Education Project

Construction and Maintenance of Lab. and Workshops of the College of Technology

Construction and Maintenance of the Headquarters for Manpower and Government Program

College for Basic Education, Boys Campus, Ardiya

State Audit Bureau Headquarter – Kuwait Project

Hamad Towers, 6 nos., 13 floors, Residential Buildings

Owner: Hamad Al-Saleh Al-Homaizi Grandsons Real Estate Co.

Project Value: KD 2,518,378/- (Equivalent US\$ 8,394,593/-)

Duration: 808 days

Completion Date: 01.05.2005

Construction and Maintenance of the College for Basic Education, Boys Campus, Ardiya

Owner: Public Authority for Applied Education and Training (PAAET)

Project Value: KD 39,072,197/- (Equivalent US\$ 130,240,657/-)

Duration: 1,117 days

Completion Date: 02.02.2011

Construction and Maintenance of Labs and Workshops for Second Extension of the College of Technology – Shuwaikh

Owner: Public Authority for Applied Education and Training (PAAET)

Project Value : KD 29,485,464/- (Equivalent US\$ 98,284,880/-)

Duration: 1,095 days

Completion Date: 15.09.2013

Construction and Maintenance of the Headquarters for Manpower and Government Program

Owner: Ministry of Public Works

Project Value : KD 10,437,336/- (Equivalent US\$ 34,791,120/-)

Duration : 730 days

Completion Date: 01.08.2011

Lulwa Residential Tower – Salmiya

Owner: Mr. Sulaiman Al-Hamad

Project Value: KD 3,420,000/- (Equivalent US\$ 11,400,000/-)

Duration: 819 days

Completion Date: 27.11.2008

Housing Projects

t This division undertakes the construction of apartment blocks, houses, local mosques and shopping complexes as well as boundary walls and structures.

As urban expansion gathers pace, so does the need for new and well-constructed living environments. Our Housing Projects division finds itself at the heart of the dynamic growth of Kuwait today. We are key players in the establishment of housing and infrastructure for the new Jaber Al Ahmed City to the north of Kuwait City, and the expansion of the Umm Al Haiman Residential Project to the south.

Including:

Construction, Completion and Maintenance of 267 Houses at Umm Al Haiman

This project consists of four types of houses, local mosques, a shopping complex and infrastructure works.

Owner: Public Authority for Housing Welfare (PAHW)

Project Value: KD 12,228,600/- (Equivalent US\$ 31,974,000/-)

Duration: 900 days

Completion Date: 26.12.1999

Design, Construction, Completion and Maintenance of Main Services Works for 1,220 Plots and Construction and Maintenance of Buildings Block (B) at Jaber Al Ahmad City

Owner: Public Authority for Housing Welfare (PAHW)

Project Value: KD 18,425,221/- (Equivalent US\$ 66,717,960/-)

Duration: 1170 days

Completion Date: 08.06.2008

Construction, Completion and Maintenance of Roads and Main Infrastructure Services to identify 2131 Plots for Block (D) and 1950 for Block (E) and Transformers (Type 4), (Type 2) at Sabah Al Ahmad City

Infrastructure networks and allocating 2131 Plots for Dahiya (D), 1950 Plots for Dahiya (E) in Sabah Al Ahmad City.

Owner: Public Authority for Housing Welfare (PAHW)

Project Value: KD 32,985,000/- (Equivalent US\$ 117,426,600/-)

Duration: 750 days

Completion Date: 07.05.2012

Jaber Al Ahmed Residential Project - Kuwait

Umm Al Haiman Residential Project

Sabah Al Ahmad Residential Project

Roads & Services Projects

This division consists of bridge construction, road maintenance and repairs, paving works and resurfacing as well as milling and asphalt works. The installation of urban sanitary sewage networks and the maintenance of water and gas networks, street lighting, traffic control systems, warning signs, guide signs and roads marking together with chain link fencing and overhead sign gantries complete the extensive operations of our Roads and Services Projects division.

Construction, Completion and Maintenance of Roads, Storm water Streams, Sanitary Works and Other Services at Al Siddiq Neighborhood - First Stage

Owner: Ministry of Public Works

Project Value: KD 11,255,640/- (Equivalent US\$ 40,070,078/-)

Duration: 730 days

Completion Date: 09.10.2009

Construction, Completion and Maintenance of Airport Road Culvert from Intersection with Fourth Ring Road to Jamal Abdel Nasser Street

Owner: Ministry of Public Works

Project Value: KD 8,846,588/- (Equivalent US\$ 31,493,854/-)

Duration: 888 days

Completion Date: 22.12.2011

Construction, Completion and Maintenance of Mohamed Bin Alqassim Street Culvert from Intersection with Fourth Ring Road to Jamal Abdel Nasser Street

Owner: Ministry of Public Works

Project Value: KD 9,119,670/- (Equivalent US\$ 32,466,026/-)

Duration: 730 days

Completion Date: 19.11.2011

Construction, Completion and Maintenance of Roads and Infrastructure at Abu Fatira, East Qurain - First Stage

Owner: Ministry of Public works

Project Value: KD 13,734,026/- (Equivalent US\$ 48,893,134/-)

Duration: 730 days

Completion Date: 17.06.2011

Al Qurain (Abu Fatira) Project

South Surra, Al Siddiq Dahiya Project

Sanitary Engineering Projects

this division undertakes the Construction, Completion and Maintenance of water and Sewage Networks.

Construction, Completion and Maintenance of Transfer TSE Lines to the Artificial Lake in Umm Al-Remam and the Northern Military Camps

Owner: Ministry of Public Works

Project Value: KD 16,092,432/- (Equivalent US\$ 57,289,058/-)

Duration: 925 days

Completion Date: 17.11.2009

Highway Projects

Today's world demands we live at a faster pace. As centers of living and industry are established, the need is created to develop swift modern highways to link one with the other. Our highway projects division consists of bridge construction, road maintenance and repairs, paving works and resurfacing as well as milling and asphalt works. We also undertake the installation street lighting, traffic control systems, warning signs, guide signs and roads marking together with chain link fencing and overhead sign gantries.

Sheikh Jaber Al Ahmed Causeway Project - Main Link In cooperation with Hyundai - Korea (Joint Venture)

Owner : Ministry of Public Work

Project Value : KD 738,750,000/- (Equivalent US\$ 2,462,500,000/-)

Our share is 21.47% - about KD 158,626,000/- (Equivalent US\$ 528,753,333/-)

Duration : 1828 days

Completion Date: 04.11.2018

Construction, completion and maintenance of Al Ghazali Expressway Upgrading existing Al Ghazali Street to Motorway / Expressway Standards

Owner: Ministry of Public Works

Project Value: KD 20,385,488/- (Equivalent US\$ 72,572,337/-)

Duration: 1510 days

Completion Date: 21.10.1998

Construction, completion and maintenance of roads, storm-water drainage, sewer and other services for Subiya Highway - First Stage

Owner: Ministry of Public Works

Project Value: KD 31,530,511/- (Equivalent US\$ 112,248,618/-)

Duration: 912 days

Completion Date: 21.08.2010

Sheikh Jaber Al-Ahmad Bridge Project

Construction, completion and maintenance of the interchanges of the main highways (Al Fahaheel Expressway) connecting to South Sabahiya and Al Mangaf areas

Owner: Ministry of Public Works

Project Value: KD 27,650,000/- (Equivalent US\$ 98,434,000/-)

Duration: 720 days

Completion Date: 09.06.2012

Construction, completion and maintenance of the interchanges of the main highways (Sixth Ring Road) connecting to new housing area at South Jahra, area numbers 1 - 3 - 4 - 5 and 7

Owner: Ministry of Public Works

Project Value: KD 39,370,000/- (Equivalent US\$ 140,157,200/-)

Duration: 1095 days

Completion Date: 06.11.2013

Major works comprise of: asphalted roadway paving, construction of six major prestressed / cast-in-site post tensioned concrete bridges and three pedestrian bridges, retained underpass, stabilized earth walls, earth moving works, concrete barriers, box culverts, relocation of water, gas and sewage lines, construction of services such as telephones, street lighting, traffic control system, storm water drainage, warning signs, guide signs and road marking, chain link fencing, overhead sign gantries and others.

Al Ghazali Expressway Project

Subiya Highway Project

Water & Power Station Projects

Subiya Power Station Project

As with any growing economy, the key to sustainable growth is through an efficient rollout of essential resources including water and power. CGCC works closely with Kuwait's Ministry of Electricity and Water in order to ensure the fulfillment of the Ministry's requirement through successful implementation of both extensive water and electricity generating and distribution projects.

Construction of Main Fresh Water Pipelines with a 1200mm diameter from Mutlah to Funaitees (68 km.) Stage3.

Owner: Ministry of Electricity and Water (MEW)

Project Value: KD 17,582,264/- (Equivalent US\$ 62,592,860/-)

Duration: 639 days

Completion Date: 12.05.2009

Construction, Completion and Maintenance of Main Water Lines from Subiya Water Distribution Complex to Mutlah Water Distribution Complex.

Owner: Ministry of Electricity and Water (MEW)

Project Value: KD 23,299,041/- (Equivalent US\$ 82,944,586/-)

Duration: 791 days

Completion Date: 24.10.2005

Supply, Erection, Operation and Maintenance of Gas Turbine Power Generating Units at Subiya Power station Water Distillation Plant site

Owner: Ministry of Electricity and Water (MEW)

Project Value: KD 82,045,200/- (Equivalent US\$ 292,080,200/-)

Duration: 1880 days

Preliminary Completion Date: 29.07.2009

Maintenance Period: 13.06.2014

Oil Sector Projects

This division handles installation, testing and commissioning of pipelines, isolation cold cutting and removal of existing crude oil lines. Together with all associated civil works such as road crossings, valve pits, fencing, asphalted roadway paving and electrical, instrumentation and cathode protection.

Oil has long been the life-blood of Kuwait. Combined Group Contracting is proud to be playing its role in maintaining Kuwait's oil production on an efficient and world-class level.

Construction of crude oil flow lines - north and east Kuwait fields

Owner: Kuwait Oil Company (KOC)

Project Value: KD 26,256,985/- (Equivalent US\$ 93,474,868/-)

Duration: 1460 days

Completion Date: 23.04.2010

Construction services project (Al Wafra)

Owner: Joint Operations

Project Value: KD 11,853,910/- (Equivalent US\$ 42,199,920/-)

Duration: 1644 days

Completion Date: 10.12.2009

Provision of pipe support and surface coating for production operations

Owner: Joint Operations

Project Value: KD 6,836,780/- (Equivalent US\$ 24,338,937/-)

Duration: 1830 days

Completion Date: 04.03.2014

Construction of Crude Export Line

Bulk Handling Facilities for Production Chemicals in South-East Kuwait, West Kuwait and North Kuwait

Project for Establishing Oil Lines in North Kuwait

Construction of flow lines and associated works to GC-24, EFP-120 and existing facilities at north Kuwait areas

Owner: Kuwait Oil Company (KOC)

Project Value: KD 55,906,375/- (Equivalent US\$ 199,026,696/-)

Duration: 1095 days

Completion Date: 30.04.2012

Construction of crude export line, incoming group production feeders and pipelines to new GC16 and new effluent water line to MWIP

Owner: Kuwait Oil Company (KOC)

Project Value: KD 14,780,000/- (Equivalent US\$ 52,616,800/-)

Duration: 720 days

Completion Date: 21.11.2011

Bulk handling facilities for production chemicals in south-east Kuwait, west Kuwait and north Kuwait

Owner: Kuwait Oil Company (KOC)

Project Value: KD 14,459,964/- (Equivalent US\$ 51,477,472/-)

Duration: 720 days

Completion Date: 28.01.2012

Project and construction services

Owner: Joint Operations

Project Value: KD 9,984,000/- (Equivalent US\$35,543,040/-)

Duration: 1460 days

Completion Date: 09.12.2013

Service Centers

Ready Mix Concrete Plant

Asphalt Plant

Ready Mix Concrete Plants

The company owns one of the region's biggest concrete mixing plants with a production capacity of 160 cubic meters / hour. Attached to these plants are laboratories to manage and control the quality of products, and a chiller with a capacity of 130KW to cool the water used during the concrete mixing phase which is conducted at high temperatures.

Asphalt Plants

The asphalt plants owned by the company are considered to be amongst the biggest in the Middle East and have a production rate of 440 tons / hour. A group of testing laboratories attached to these plants conduct continuous testing on raw and finished product material samples to ensure their compatibility to the highest standards. Our own team of highly skilled engineers manage the plants.

Garage (workshops, vehicles and equipment)

The company owns fully-equipped mechanical workshops able to carry out all necessary maintenance and repairs for our fleet of vehicles, equipment and plant. The workshop is built over an area exceeding 10,000 square meters. Our equipment and vehicles include earth moving equipment, road paving and construction equipment, and pumping equipment together with numerous other transportation vehicles. These are all controlled, managed and maintained by our own specialized team of technicians to ensure their efficient and reliable operation.

Vehicles and Equipment

Micro Tunneling and CCTV

m

Micro-tunneling

The Ministry of Public Works approved and adapted the Micro-Tunneling System in executing infrastructure sanitary and storm water networks for line depth exceeding 6 meters and allowing them to cross under roads and highways.

Combined Group Contracting Company, being a pioneer in executing such services has decided to establish a special division for this purpose to execute lined diameters from 500mm and 1800mm.

CCTV Division

This division was established to execute cleaning works for storm water and sanitary networks in addition to taking video pictures of the existing networks by using the CCTV sewer monitoring system.

This video footage is taken to determine the network pipes status and to monitor for any breakage, damage, or deterioration in order to repair or replace the network pipes in due time.

This division operates a large amount of equipment including mobile video cameras mounted above pre-adapted vehicles with computerized control units to control and monitor the video camera inside the networks. In addition, the division operates many water tankers to flush or to vacuum water separately or

Regional and International Projects

Combined Group Contracting Company (K.S.C.) expanded into the international market since 1999. CGC has executed projects in various areas totaling approximately one Billion and 350 Million Dollars. The projects span to such countries as KSA, Abu Dhabi, Qatar, Oman, Lebanon, Indonesia, Tajikistan, Mongolia, Uzbekistan, Georgia and Albania. CGCC deals with various international funds such as the Kuwait Fund For Arab Economic Development, the Islamic Development Bank, the Arab Fund for .Economic and Social Development (the Arab Fund), the World Bank and others.

Our activities abroad cover roads, infrastructure, bridges, water and sewerage networks and buildings.

CGCC is planning to expand its activities overseas in the coming years to cover African and Asian continents.

We are aiming to increase the international projects value in the coming years.

Certificates of Merit and Recognition

As a result of the efforts deployed by Combined Group Contracting Company in executing projects on schedule and in achieving our clients desired level of quality, CGCC has received many certificates of merit and other awards from a variety of sources in Kuwait including Ministry of Public Work, Kuwait Petroleum Corporate (KPC), Kuwait Oil Company (KOC), Joint Operations (Khafji), Mubarak Al Kabir District Municipality, Al Ahmadi District Municipality, the Public Authority for Youth and Sport, the Presidency of the Army General Staff, National Guard Head Quarter, the Ministry of Education and Higher Education, Kuwait University, the Ministry of Awqaf and Islamic Affairs, the People's Committee of .South Surra, and Gulf Consult.

CGCC has also received certificates of merit and recognition from the American Army, the Public Opinion House, the International Public Opinion Center, the Higher Committee for the Public Opinion Awards in the Arab Republic of Egypt, the .Superbrand Board of Kuwait, and the Kuwait Oil Company. For more details, you may visit the company's website at www.cgc-kw.com

Superbrand

In 2008, Superbrand granted CGCC a distinctive brand rating. Such a rating is awarded to a distinctive brand after exceeding testing standards set by the Superbrand board. The selection was carried out between 1,300 brands through an independent authority headed by local and regional industry leaders.

The company received the Superbrand Certificate of Merit during a ceremony held at the Kuwait Hilton Hotel in March 2009.

SAP Award

The ERP Implementation Award was given as the best in the category across MENA (Middle East and North Africa) in 2013 as well as a Certificate and Award across EMEA (Europe, Middle East and Africa) regions in 2014. The company received the awards during a ceremony held in Kuwait and SAP Head Quarter in Germany
