Dear Valued Vendor,

As we strive to improve our payment processes through technological enhancement, we are moving toward a more automated payment system, allowing us to reduce the time required to pay our invoices. Going forward, our preferred payment method is Virtual Card. This change will give us the flexibility to make payments faster, more securely and eliminate the use of paper checks.

We are implementing a Payments Program which will optimize the payments process for our respective organizations. We have partnered with BirchStreet Pay (powered by Finexio), experts in commercial payment execution. This program will deliver payments using a Virtual Card that you will process using your existing card payment solution.

The benefits of the BirchStreet Pay (powered by Finexio) Program include:

- **Faster Settlement:** Virtual cards are issued quickly, are delivered on the same day, and typically settle without delay - *you get access to your funds sooner.*
- **Easier Reconciliation:** Each payment includes detailed remittance advice tying back to specific invoices or work orders - less time spent reconciling or tracking down payments and lost checks.
- **Improved Security:** Finexio virtual cards are single-use cards which carry a number of enhanced security measures ensuring they may only be processed by the appropriate payee.
- **Better Information:** Complementary 24/7 access to the Birchstreet Pay Portal where you can access all of your payment information.

Our research shows you may already have the ability to process card payments, enabling a smooth transition to this enhanced process. Even if you don't currently accept payment via cards, Finexio will explain the various options available to you in order to get up and running.

Your first step is to start the onboarding process online with the link below. If you choose to not utilize the link below, a Finexio representative will contact you to complete the process over the phone or you can email [supplierenablement@finexio.com](mailto:supplierenablement@finexio.com) to get started:
