

# Say hello to the new & improved Certa Studio...

Studio is Certa's workflow designer tool that allows you to tailor custom processes for your business.

**Make it unique - configure any field or business rule.**

- ✓ Easy to use with 360 views of your processes and its dependencies
- ✓ Self service with drag & drop features - no need to go to IT
- ✓ Instantly deploy processes and make edits with just a click

# Your workflow, your way

## As much help as you want

**Go from 0 to 100% automation, or anywhere in-between.**

Design a process that works for you with Studio, identify which tasks can be automated and avoid unnecessary delays.

## No coding required

**Set up rule & component dependencies with no code needed.**

Hover over components to see existing business rules, dependencies and flows. Make amends with ease - no need to contact IT.

## We play well with others

**With over 100 integrations, Studio allows you to manage the complete Third-Party Lifecycle.**

From SAP to D&B, Certa connects with your apps and data so you can work across departments and systems with less friction.

## Reduce time, spend and risk with Certa Studio

### Easy to use process designer

Set up your workflows with ease - no code required.

### Rule & component dependencies

Customize to your business with rules and component dependencies.

### Modules

Create a workflow from scratch or use our library of best practice modules.
