

” We create
world class
innovations“

#WeKnowWhy

INC Innovation Center | Munich

Location

Welcome to the IT Hub Munich

With its extraordinary dynamic, the Munich metropolitan region is one of Europe's leading economic areas, characterized by a pronounced diversity of industries, such as automotive, information & communications, and media. The interaction between global players and successful regional companies particularly distinguishes the region from others.

The INC Munich is located southeast of the city center in the district of Giesing. The district is a diverse neighborhood, also called "quaint" by Munich locals. Besides beer and soccer, the neighborhood is also known for a variety of culture and architecture. It offers buildings of all ages. Including hostel cottages built in the 19th century, as well as buildings from the Middle Ages.

This creates a place whose diversity stimulates creativity and fosters new innovative ideas.
