

Simon Fraser Public Interest Research Group

Engaging students and community in social and environmental justice since 1981

October 31, 2022

Dear panelists,

We at the Simon Fraser Public Interest Research Group are honoured to express our support for “*What’s next?*” – *A conference on the 2022 Iranian Freedom Movement* to discuss the struggle for liberation and human dignity in Iran.

As a student-led organization based at SFU, it has become apparent to us that it is time to help our friends, colleagues and fellow citizens understand what’s going on in Iran. We believe that this roundtable event will be an invaluable opportunity for Iranians and our allies to better understand how to harness the energy, enthusiasm, and outrage wrought by the tragedy of modern Iranian life to build a true, intersectional and representative front of support outside Iran. We hope that this will also serve to raise awareness among non-Iranians for the dire need for solidarity and action at this important time.

We hope that you are able to speak at this important event and empower each of us - whether Iranians or allies - with the tools and knowledge to support the causes of justice for the victims of the Islamic Republic, and freedom for the people of Iran.

Sincerely,

Board of Directors and Staff
Simon Fraser University Public Interest Research Group
