Multicom Bosch
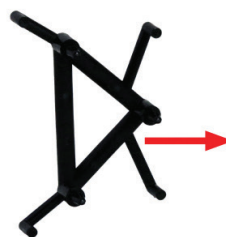

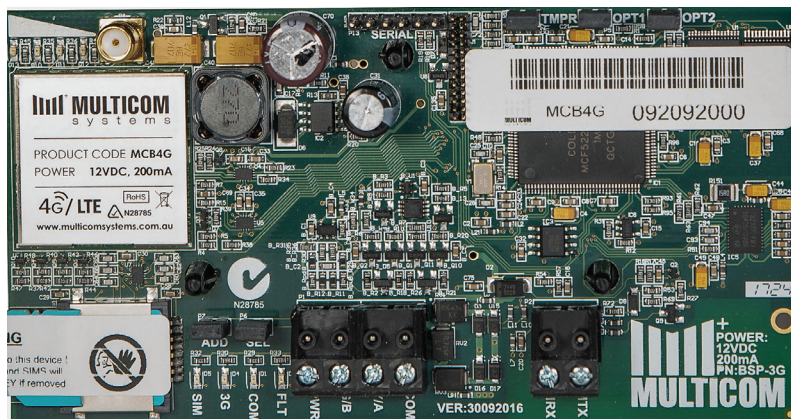

4G LTE Communicator for Bosch Solutions 2000/3000 panels

Developed in Australia under a joint initiative between Multicom Systems and Bosch, the new Multicom Bosch Alarm 4G communicator has been purpose built for the Bosch Solution 2000/3000 alarm panels. The Multicom MCB4G Connects the Bosch Solution 2000/3000 alarm panels to Alarm Monitoring Centres over multiple carriers on highly secure 4G LTE network.

The MCB4G has a serial link directly into the 2000/3000 alarm panels and with A-Link programming built into the Multicom management portal (TechTools), servicing and updating programming is always easy via the Multicom MCB4G onboard modem.

Multicom Bosch features:

- Serial link to Bosch Solution 2000/3000 Alarm panels
- Uses multiple carriers within the highly secure 4G LTE network
- Meets the AS2201.5 Class 4 Australian Standard
- Program with Bosch A Link, built into TechTools
- Automatic remote software updates to your Multicom
- Simple mounting options for convenient installation
- Fully Managed network dedicated to Multicom communications, with guaranteed 99.9% uptime
- 24/7 technical support

Low Power Consumption

Telit inside

Options available

Additional High Gain antennas with cable available for the Multicom MCB4G

Connection:
SMA

3 Cable lengths:
2, 5 or 10 metres

Antenna Colours:
Black in stock, White by order

Technical Specifications

PRODUCT FEATURES

Communication Path	4G
	LTE
	Cat 1
Reporting Format	Contact ID
	Multicom
Inputs	Serial connection to the Bosch Alarm Panel
Carrier Options	Single or Dual
Power	8-15V DC
Power Consumption	Standby <105 mA @13.8 VDC
	Transmitting <130 mA @ 13.8 VDC
Approval	N28785

OPERATIONAL FEATURES

Alarm Reporting	Connection and Power Fault
	Test Report
	Programming Update / Access
	All Bosch Solution Alarms + Bus Fault Notification
Alarm Mapping	Map alarm events to either Relays or ContactID message reporting
Upload / Download software	Yes

POLLING PLAN

Polling Plan to meet	Class 2
	Class 3
	Class 4

HOUSING

Dimensions	Circuit board with mounting bracket 125 x 65 x15 (mm)

WARRANTY

Warranty	2 years (24 months)

TechTools

TechTools allows you to instantly configure and manage Multicom devices from your PC, Apple or Android device.
