Eco-certified Wood Construction

Eco-certified Grade “A” Clear Western Red Canadian Cedar

Multi Purpose Door Handle

Rest your tablet or smart device on the door handle for ease of use

Features

Innovative Heating technology

Exclusively utilising our patent-pending True Wave™ heaters - an innovative fusion of carbon and ceramic, providing optimal, efficient, and safe therapeutic heat.

Heater upgrade available

The Clearlight® Premier Sauna has the ability to upgrade from Far Infrared to Full Spectrum with the addition of the True Wave™ Full Spectrum Heaters, which provide our highest output heat source, producing near, mid and far infrared wavelengths all at once.

Zero EMF and ELF

Our True Wave™ heaters output virtually zero EMF and ELF, and combined with our EMF shielding technology, we ensure the lowest and safest EMF and ELF exposure on the market.

360° Infrared Heat

Our saunas have heaters on the front wall, back wall, side walls and underneath the bench, heating your body from every direction, which targets your core, rather than just heating the sauna cabin air.

Ergonomically Designed

The chiropractor-designed backrest and reversible bench ensures ultimate comfort for long periods of relaxation. The seat is double-sided, with a contoured profile on one side, and flat on the reverse.

Traditional Sauna Design

The Clearlight® Premier range takes a traditional approach to design, all whilst incorporating cutting-edge technologies to bring this ancient wellness practice into the 21st century, with far-infrared heating and EMF shielding technology.

* For Residential customers only. Warranty on Commercial saunas are 5 years.

** Free delivery and installation to metro Brisbane, Melbourne, Sydney, Adelaide & Perth.
