Tap.

PORTRAITS NOW is a simple system that allows you to collect a buyer's contact info before taking photos! Either tap the buyer's contact info into a tablet or use our Scanner Identification workflow and print out unique QR cards to speed up the data collection process.

Click.

It's easy! Once you've tapped in the info or scanned the buyer's QR card, take pictures of the buyer freely. All subsequent photos will be paired to the buyer and added to their own personal gallery. Once the session is finished, so are you!

Ding.

After the session, a link will be sent to all subjects that directs to a personalized gallery of their images. From there, they can purchase downloads and physical photo products right from their phone!
