

SkyScape® Architectural Canopies are available in a variety of profiles and styles. The design of our cantilevered canopies eliminates the need for hanger supports and allows flexibility in multiple wall and building conditions. Canopies distinguish a building's entry and facade with a clean, streamlined look, enhance the surrounding architecture and can help highlight signage and brand awareness. SkyScape canopies are fabricated using extruded aluminum components for unbeatable strength and durability. Capable of withstanding even the harshest weather conditions, they can last years without rusting or corroding. And because our manufactured canopies are welded, not thru-fastened, field installation is simplified to ensure a top-quality product with a fast completion time.
