The background of the image is a solid, bright yellow. On the left side, there is a close-up, angled view of a black calculator. The calculator has a grey LCD screen at the top. Below the screen, there are several buttons: a green button labeled 'TAX-' on the left and a green button labeled 'TAX+' on the right, with 'TAX RATE' printed above the 'TAX+' button. Other visible buttons include 'M+', 'SET 0%', a division symbol, 'x', a minus sign, and numeric buttons '4', '5', '6', '8', '9'. On the right side, there is a spiral-bound notebook with white pages and a silver metal spiral binding. The pages are lined with horizontal dashed lines.

Who We Are

@O2K is a consulting company by **Antonia Eilander** and **Vladislav Dramaliev** that helps clients navigate through crypto assets and their international tax treatment and regulation.

We have established our business in Amsterdam in 2020 because we noticed that there is not enough information and no proper education in relation to international taxation and regulation of crypto assets. Professionals are also struggling to understand the underlying technology and its unique advantages and disadvantages.

Mission

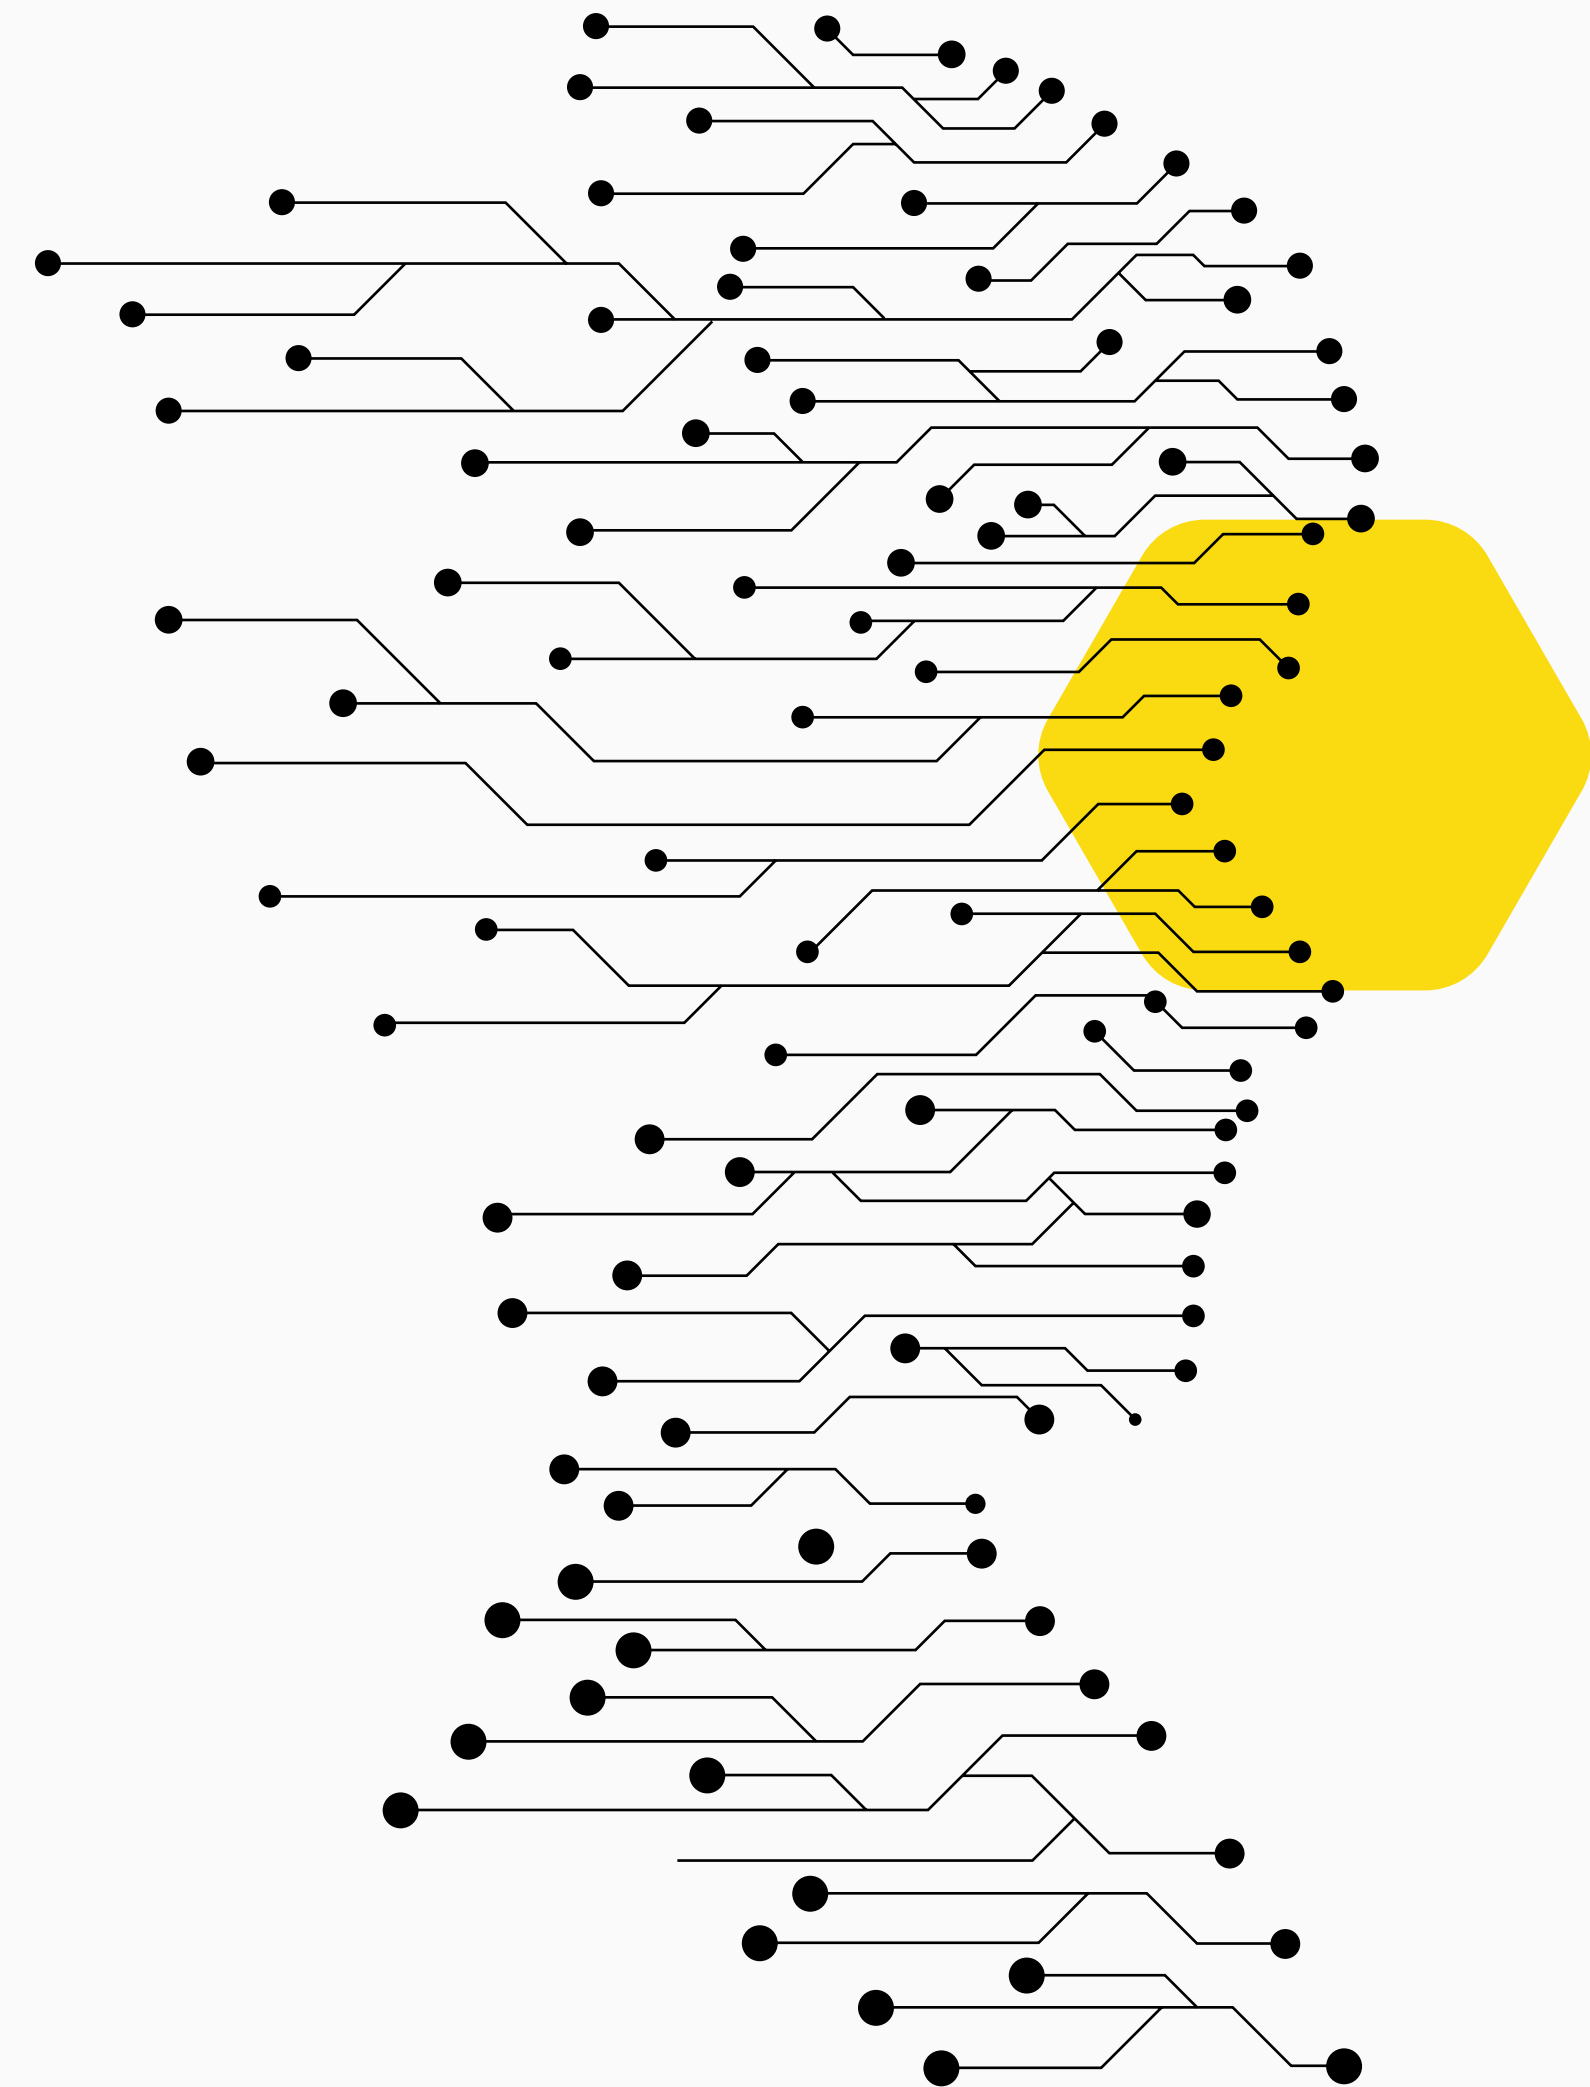

With crypto assets becoming an integral part of finance, tax authorities and tax professionals are struggling to understand them and place them under an appropriate tax regime.

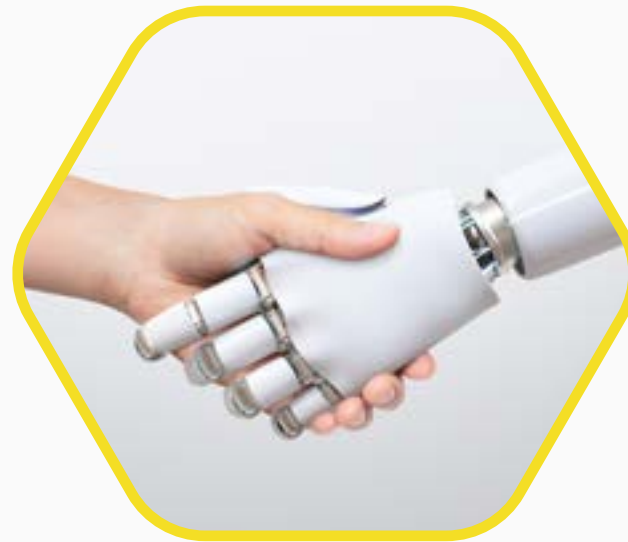

This has led to mind-boggling fragmentation of confusing taxation approaches.

We are here to bring order to this state of disarray.

The crypto industry is moving fast and regulation is starting to catch up in 2022. That creates chaos, anxiety and uncertainty. We are here to help by providing you with the right information on the topic.

@O2K is a strong supporter of professionals from developing countries. We have donated more than 20,000 EUR worth of training materials to experts from the African and Asian regions. We also hire exclusively from those regions.

The Ultimate Guide to International Taxation & Regulation of Crypto Assets

@O2K's Ultimate Guide is a **step-by-step transformation**. From knowing nothing about crypto to understanding fundamental and advanced crypto-related concepts that are essential to your profession.

Tailor-made Crypto Taxation & Regulation Training & Consultations

@O2K offers **in-person or online trainings and consultations** that fit the educational needs of (tax) lawyers, tax authorities, law enforcement agencies, finance professionals, in-house professionals, and crypto investors.

Weekly Crypto Tax & Regulation News Updates

The crypto assets industry is moving at a lightning speed. We help you stay ahead of the pack with a **~10-minute, weekly update** focused on the most important regulatory and taxation news from the crypto asset space.

CRYPTO TAX NEWS

The world of crypto assets is moving fast.

Hundreds of primary and secondary sources are being shared and reshared millions of times on a daily basis, representing the multidisciplinary nature of blockchain technology.

From smart contract hacks and exploits to new tax regimes in one of the 195 jurisdictions. From extreme price appreciations or drops to new approaches to crypto asset regulation.

Finally, from the latest influencer comments about crypto to the effects of the macroeconomic environment on the performance of these new types of financial assets.

There is so much noise in the space that it is easy to get lost.

@O2K is here to help.

We have been exposed to the unceasing stream of crypto-focused information for almost a decade.

We know what is relevant and why.

Our goal is to sift through the news and bring you the essence - the information that matters the most to you.

Delivered in a bite-sized format of 10 minutes, our weekly Crypto Tax News cover the biggest stories from the blockchain space, with a strong focus on tax and regulation.

If the IMF published a new report on crypto assets, you would learn about it.

If the US Securities and Exchange Commission proposes new rules affecting the crypto ecosystem, you will learn about it. If progress is being made in the development of a new central bank digital currency, you will be informed.

Don't let the deafening sound of a million voices overwhelm you.

At a glance

The crypto assets industry is moving at a lightning speed.

We help you stay ahead of the pack with a ~10-minute, weekly update

Focused on the most important regulatory and taxation news from the crypto asset space.
