---

Enter NPI Number Q

## Important information regarding the physician verification tool:

- Most diplomates certified prior to 1990 are not required to participate in MOC but are strongly encouraged to do so.
- All ABIM certifications issued in 1990 (1987 for critical care medicine and 1988 for geriatric medicine) and thereafter must be maintained through ABIM's MOC program.
- ABIM's website serves as primary source verification.
- Diplomates are publicly reported as participating in MOC for all certifications as long as they are participating in MOC for one certification area.
- Physicians are publicly reported as inactive if they were once certified by ABIM but now, for non-disciplinary reasons, they no longer have an active medical license in any jurisdiction.
- Certification status is updated to this system within 5 days of notification to the physicians. Data elements, such as name changes, are updated in ABIM's records within 24 hours of being processed by ABIM.
- Diplomates who have earned certification through a Qualifying Board may not be required to meet ABIM's underlying certification requirement.
- If you do not find your physician or they are listed as not certified, they may be certified by another board of the American Board of Medical Specialties. Please check [www.certificationmatters.org](http://www.certificationmatters.org). Additionally, information on Allergy and Immunology, Clinical Laboratory Immunology and Diagnostic Laboratory Immunology diplomates can be now found at [www.certificationmatters.org](http://www.certificationmatters.org).
