## Professional Experience

---

### **Gazprom Neft, Russia (March 2018 – present)**

#### **Asset Valuation Team Lead (2021 – present), previously Senior Petroleum Engineer (2018-2021)**

- Launched Reserves Exploration program for Top-3 Greenfield on 300mln ton OIP
- Led cross-functional Asset Valuation team for Integrated Field Development Planning
- Analysed project decisions for oil recovery enhancement on ~\$50mln
- Conducted field level/country level analysis to forecast future oil, gas & condensate production;
- Run a number of analysis (estimation of reserves, calculation of oil production profiles, financial modeling, selection of a cost-effective scenario);
- Provided analysis and interpretation of current and future trends in upstream operations (crude trade, production rates, well modelling, tracking of projects);
- Made Technological Plan of Development (hydrofracturing, high-technological drilling)
- Presented research results for Board Members and Partners

### **Schlumberger, Eastern Siberia, Russia (June 2016 – December 2017)**

#### **Measuring & Logging While Drilling Engineer, (2016 – 2017)**

- Geological and technological support of drilling wells
- Led Schlumberger team on drilling rig and from office
- High-technology drilling equipment service (on wellsite)

### **Rosneft, Samara, Russia (2014 – 2016)**

#### **Reservoir Engineer (2015 – 2016), previously Junior Specialist (2014-2015)**

- Made suggestions about workover actions. Geomodeling.
- Creating two geomodels simultaneously. Completion stages of development.
- Complied as a leading engineer on “Audit of geological reserves of oil and gas” for 30 oilfields in 3 weeks

## Education

---

### **Samara State Technical University, Samara, Russia (2011 – 2015)**

BSc, Petroleum Engineering. GPA 5.0/5.0. Major in Reservoir Development and Production of Tight Oil. Winner of University competitions in Physics and Geology

### **Gubkin Russian State University of Oil and Gas, Moscow, Russia (2020)**

Business Performance Management Course

### **Samara State Technical University, Samara, Russia (2012 – 2015)**

Additional education in Professional English (English for Petroleum Engineers)

## Professional skills

---

**Languages:** English (advanced), Russian (mother tongue)

**Technical skills:** Advanced Excel modelling and PowerPoint document creation, SQL Company databases, 2D/3D oil production forecasting packages, Python Data Analysis Libraries

**Hobbies:** professional football player, travelling, history, CrossFit
