

## **PRE-ENGINEERED STEEL BUILDINGS**

# **RUGGED, DEPENDABLE & RELIABLE**

From engineering to design to fabrication, Rugged manufactures world-class pre-engineered steel building packages.

### **HIGH QUALITY**

Steel is the ideal material for construction. As a manufactured material, its quality is assured and consistent.

### **GREEN**

All new steel is produced from recycled steel, making it a great environmentally-friendly solution.

### **NON-FLAMMABLE**

Steel has an A-Fire Rating. It doesn't catch fire, can contain it, keep it out, and stop it from spreading.

### **LOW MAINTENANCE**

Steel doesn't suffer the shortcomings of other materials. It's sturdy, long lasting, and requires little to no maintenance.
