

TALOS IN THE NEWS

Date: May 19, 2021

Talos appeared on the ABC News Richmond Affiliate sharing insights on the revolutionary Talos Guardian HVAC Monitoring system

Mike Scelzi CEO explained how the Talso product can identify a whole host of issues using the company's patented technology which monitors system performance data 24 hours a day 7 days a week. When issues arise customers are immediately notified so that the issues can be quickly addressed allowing for reduced energy cost and costly wear and tear on the system.
