

**WE MAKE YOUR CAPITAL
PROJECT DELIVERY AND
MAINTENANCE EASY**

FIRST-TIER EXPERIENCE, SAFETY CULTURE AND FAMILY VALUES

VERTICALLY INTEGRATED SMP, E&I AND CIVIL SOLUTIONS FOR CAPITAL PROJECTS AND MAINTENANCE

ENGINEERING SOLUTIONS

Engineering Design and Construct Solutions for all things Civil, SMP, E&I with our trusted experienced panel of design partners.

FABRICATION SERVICES

Workshop Fabrication from Steel Components to Complete Process Modules and Piping.

PROJECT EXECUTION

Project Self-Execution in Brownfield and Greenfield Works, Ongoing Maintenance and Shutdowns.

At SIMPEC, we provide world-class vertical solutions for plant modification and capital construction projects within the Resources sector. Our experience and capabilities span the design, fabrication, construction, and maintenance of your assets across structural, instrumentation, mechanical, piping, electrical and civil disciplines.

Our transparent and flexible approach ensures we develop and work within the required contracting model enabling us to suit your specific brownfield and greenfield project needs, whether they involve the full vertical package or single discipline service delivery.

We have industry sector experience in road and rail infrastructure, mining, oil and gas, power and water infrastructure, and defence projects.

FIRST-CLASS SUBCONTRACTING SERVICES FOR MAJOR CAPITAL, INFRASTRUCTURE, AND RENEWABLE GREEN PROJECTS

EARLY ENGAGEMENT

Early pre-contract involvement as a preferred subcontracting partner to assist in budget scoping and pricing for major projects.

AUTONOMOUS SCOPE EXECUTION

Full execution of fixed scope subcontracts within larger projects. Leave it to us to get the job done for you.

INTEGRATED TEAMS

Provision of SMP and E&I supervision and labour under the direction of your site personnel. We provide you with the extra resources to accelerate or take on more scope.

Our strong leadership, family culture and core value of **Be Like No Other** apply to how we approach subcontracting to first-tier contractors and consortiums. Since our senior management have built their careers within the first-tier contracting environment, we have an innate ability to understand what you really want and need from your subcontractor partnerships.

At SIMPEC, we know the following actions count most to you:

- Understanding of the entire scope and how our subcontract execution affects and supports the overall project success.
- Deep understanding of project setup, mobilisation and project control requirements and documentation. Understanding this expectation and requirement provides a smooth and seamless experience leaving our head contractors unburdened by the need to “hand hold” and confident we will deliver.
- We understand our contractual obligation before we come to site so that we are looking for constructive solutions for the unexpected rather than variations.
- **We run our show like you run your show** so if we are aligned to a high standard it looks and feels to your Client that we all can be trusted to do a great job.

VERTICAL SOLUTIONS OR STANDALONE SERVICES WE CAN DELIVER FOR YOU

Structural, Mechanical and Piping

SIMPEC specialises in SMP delivery and integrated customer support in this field. We offer the resources and skillsets to execute a wide range of projects.

Our expertise includes:

- Project Management
- Fabrication and Installation of Structural Steel

Mechanical – all Static and Rotating Equipment Installation, including:

- Compressors, Turbines, Power Generation, Screens, Conveyors and Pumps
- Stacks, Kilns, Vessels, Tanks, and Column Fit-Outs

Fabrication and Installation of all Piping Class Systems, including:

- Stick Built Installation, Module Tie-In and Hook-Ups, Exotics, Compressor Spools, and Cryogenic Systems
- Management of Overseas Module Fabrication
- Installation of Large-Scale Modules including all Logistics and Handling
- NDT, Pressure Testing, Flushing, and Lube Oil Flushing
- Pre-Commissioning
- Equipment Preservation
- Commissioning Support

Electrical and Instrumentation

(Electrical Contractors Licence Number - EC007766)

SIMPEC's highly qualified Electrical and Instrumentation (E&I) division installs, commissions, and maintains greenfield and major brownfield upgrade projects in remote and challenging environments.

We offer flexible services in innovative ways that ensure we deliver on your requirements. Our expertise also includes consultancy services to assist you with bridging the gap to achieve commercial viability.

Our comprehensive experience has given us E&I capabilities in the following areas:

- Control Systems
- Instrumentation
- Instrumentation Services
- High Voltage
- Hazardous Areas

Non-Process Infrastructure (NPI)

SIMPEC has design, fabrication, installation and maintenance experience with Non-Process Buildings and Structures. Our broad exposure to NPI has allowed us to work closely with our clients to provide the best delivery and practice solutions.

We have extensive knowledge and exposure to:

- Camp Buildings and Installation
- Control Buildings
- Warehouses
- Workshops
- Offices
- Fuel Storage Facilities
- Compounds
- Cost-Effective Solutions in Modularisation, Precast and Steel Frames including Ground Services

Asset Modification & Maintenance Services

Our Asset Management Services division provides for a **One-Stop-Shop** integrated solution with multi-disciplined experience in brownfield operational support, scheduled shutdown management, programmed and breakdown maintenance, and sustaining capital project development to the Mining, Infrastructure, and Oil and Gas sectors.

We offer end-to-end solutions for design, construction, asset life cycle management, procurement, inspection, and testing services.

Safety, quality, and efficiency are the key focus for our Asset Management Services division, and we pride ourselves on the successful outcomes of all our projects. The SIMPEC team works with you through a united, one-team attitude ensuring project objectives are achieved in alignment with our values – **Lead Positively, Create Teams and Be Like No Other.**

We strive to provide you with the best value solution.

Our specialities include:

- Shutdowns
- Inspections
- Testing
- Replacement of Assets
- Plant Upgrades and Capital Works
- Concrete Repairs
- General Maintenance and Building Refurbishment
- Painting and Protective Coatings
- Labour Solutions

Civil Solutions

SIMPEC's team has extensive civil solutions experience in the Resources, Construction, Infrastructure, Utilities and Local Government sectors. We pride ourselves on delivering innovative and efficient methods to meet your requirements.

The Civil Services we provide include:

- In situ Concrete Supply and Installation
- Formwork and Reinforcement Steel Supply and Installation
- Precast Concrete Design, Supply, and Installation
- Mid-Size Bulk and Detailed Earthworks
- In-Ground Services Including HV/LV, Communications, and Drainage

SUSTAINING CAPITAL WORKS & MAJOR CONSTRUCTION TO ROUTINE ASSET MAINTENANCE & MINOR PROJECTS

Sustaining Capital Projects, and Maintenance for Ore Processing, and Materials Handling

- Delivery of Full Structural, Instrumentation, Mechanical, Piping, Electrical and Cabling Solutions, and Services
- Full-Service Solutions for Non-Process Infrastructure such as Workshops, Laboratories, Offices, and Camps
- Full-Service Solutions for Ore Processing and Handling Facilities such as Crushers, Screens, Wet Processing Plants, Stockyards, Conveying Systems, Train Loaders, and Car Dumpers
- Lithium and Rare Earth Processing Plants, including Kilns, Ball Mills, Stacks, and Pressure Vessels

Full-Service SMP/E&I Gas, Chemical and Oil Processing, Storage Construction, and Maintenance Specialists

- Maintenance and Construction of Onshore Gas Production and Storage Facilities
- Rotating Equipment for Gas Compression, Cryogenic Systems, Power Generation
- Fabrication and Installation of all Piping Class Systems

Concept to Completion Solutions for Non-Process Buildings, Remote Power, and Water Infrastructure

- **Power Solutions** - Remote Diesel and Solar Power Supply and Infrastructure, Substations, and Distribution Infrastructure
- **Water Management** - Dewatering Infrastructure and Process and Potable Water Pipeline Construction

Road, Rail, Port, and Aerodrome, Electrical and Instrumentation Services

- In – Ground and Overhead Electrical and Instrumentation Solutions and Installation for Lights
- Lane Management Systems (LMS) and Signalling for Roads and Trains.
- Ventilation Systems, HVAC, and Minor Structural Work for Installation of Signs, Access Stairs and Railings

IN-HOUSE WORKSHOP FABRICATION

To further our experience and agility for our clients, SIMPEC's sister company Alltype Engineering, within the listed WestStar Group (ASX:WSI;WSIO), provides in-house SMP fabrication and works in synergy with our core capabilities.

SAFETY-FOCUSED & ACCOUNTABLE TO PUT YOUR MIND AT EASE

We know that keeping people safe happens through an engaged and active culture of genuine concern for one another. That's why at the core of SIMPEC's culture is our SIMSAFE philosophy.

SIMSAFE is about the way our people do their work safely. The SIMSAFE theme is "Safety Starts with YOU".

THE "**SIM**" **Safety In Mates** echoes our mateship and effort to keep each other safe.

SIMSAFE is the visual identity of SIMPEC's safety culture, a culture that prompts personal safety responsibility to make safe behaviours by clear choice.

SIMSAFE is about attitude towards safety and SIMPEC's culture. SIMSAFE encourages everyone to focus on safety at work in all areas.

SIMSAFE attitude heightens hazard awareness in places where people can be exposed to hazards or could create hazards.

SIMSAFE responsibility means our people use appropriate hazard controls while they work to keep each other safe.

Our SIMSAFE strategy is aligned with our SIMPEC values and focuses on continuous improvement. It is intended to drive positive safety outcomes and reduce the risk of harm to our people and the environment to As Low As Reasonably Practicable (ALARP).

Our key focus areas are:

- Preventing harm to our people and the environment, ensuring we can demonstrate that effective risk mitigation strategies are implemented.
- Train our people so that we have a risk competent workforce, with highly efficient safety leaders throughout our business.
- To be a learning organisation, where opportunities to improve are identified from past and present business activities at all levels of the organisation.

SIMPEC embeds health and safety into our planning and decision making across all our business areas. We are committed to continually building our safety capability in our business by implementing best practice systems, processes, and governance, which are certified to ASNZS 4801:2001 and OHSAS 18001:2007.

RECENT PROJECT DELIVERY

Below are selected projects recently delivered safely and on time by the SIMPEC team. Detailed project reference sheets can be provided on request.

CLIENT	PROJECT	LOCATION	DURATION	VALUE
BHP Billiton Iron Ore	<p>SIMPEC was awarded a contract to provide Engineering Services directly to BHP for the South Flank Iron Ore Project.</p> <p><i>Engineering Services Scope:</i></p> <ul style="list-style-type: none">o Constructability Reviewso Schedule and Estimate Reviewso Construction Methodologieso Development of Work Packs for Construction Workso Safety in Construction Reviews	BHP South Flank Iron Ore, Central Pilbara, WA	6 months +	\$450K
MSP Engineering Pty Ltd	<p>SIMPEC was awarded the Design and Construct Scope of Works for the Tanks Package at Talison Lithium's Chemical Grade Plant 2 Project.</p> <p><i>Scope of Works:</i></p> <ul style="list-style-type: none">o Construction Managemento Design and Detailing of Tanks and Associated Steelwork/Pipingo Supply of all Tank and Piping Componentso On-Site Fabrication of the Tankso Leak Testingo Surface Protection Works including Rubber Lining	Talison Lithium, Greenbushes, WA	7 months +	\$6M

CLIENT	PROJECT	LOCATION	DURATION	VALUE
ILUKA Resources Limited	<p>SIMPEC was awarded the Flocculant Plant Installation on the Cataby Mine Development Project.</p> <p><i>Scope of Works:</i></p> <ul style="list-style-type: none"> ◦ Dry Power Storage and Transfer System ◦ Flocculant Batching, Transfer, Storage and Dosing System ◦ Stair Tower ◦ Fabrication and Installation of Pipe Supports ◦ Installation of Interconnecting Pipework ◦ Installation and Pre-Commissioning of Electrical and Instrumentation ◦ Fabrication, Hydrotesting and Painting of Flocculant Mix Tanks 	Cataby Mine, Cataby, WA	4 months +	\$2.5M
ATCO, Rio Tinto Limited	<p>SIMPEC was awarded the Electrical and Communications Works for the WADCD Camp Accommodation Facilities.</p> <p><i>Scope of Works:</i></p> <ul style="list-style-type: none"> ◦ Construction Management ◦ Supply of all Equipment and Cables ◦ Installation of Complete Electrical and Communication Systems ◦ Installation of Entertainment Systems ◦ Commissioning, Testing, and Certification of Complete System 	WADCD Camp Project, West Angeles, WA	3-month construction phase, 1-month demobilisation phase	\$4.2M
MSP Engineering Pty Ltd	<p>Scope of work for the Installation and Pressure Testing of Piping in the Pyromet Area on Stage I of the Tianqi Lithium Kwinana (TLK) Lithium Hydroxide Processing Plant (LHPP).</p> <p><i>Scope of Works:</i></p> <ul style="list-style-type: none"> ◦ Construction Management ◦ Installation of Pre-Spooled and Site-Run Piping ◦ Installation of all Associated Piping Supports ◦ Pressure Testing, Flushing, and Drying ◦ Paint Touch Up and Installation ◦ Drying and Bagging Building Piping Installation Works ◦ Boiler Area Piping and Mechanical Works ◦ Drying and Bagging Building Mechanical Completions and Pre-Commissioning Works 	Tianqi Lithium, TLK LHPP Project, Pyromet Piping Kwinana, WA	9 months	\$25.5M

PROJECT LEADERSHIP EXPERIENCE

The SIMPEC leadership team has extensive hands-on experience managing and executing a diverse range of projects.

TEAM MEMBER

KEY PROJECTS

MARK DIMASI,
Managing Director

- Inpex Ichthys – LNG Project SMP Installation – \$1.5B
- BHP Jimblebar – SMP Installation for the Ore Handling Process – \$150M
- Sino Iron Desalination Plant - Project Detail – \$150M
- BHP RGP5 – Fabrication Module Assembly – \$250M
- Newmont Boddington Goldmine – \$250M
- BHP Ravensthorpe Nickel Project – \$85M
- Alcoa Pinjarra Efficiency Upgrade – \$160M
- Woodside Train IV Offplot – \$140M

PETER HORVATH,
Commercial Manager

- Woodside Onshore and Off-Shore Facilities – Brownfield EPCM Services – \$50M p.a.
- Chevron Wheatstone Off-Shore Platform Hook-Up & Commissioning – \$650M
- Bissa Gold Project – Burkina Faso – \$108M
- Woodside Pluto Site B Mechanical Erection – LNG Process Train and Power Generation – \$450M
- Woodside North West Shelf Ventures Onshore Projects Phase IV Mechanical Erection Offplot and TOT Project – \$130M
- Telstra Access Network Commercial Contracting Services Projects – \$40M p.a.
- Cape Lambert Upgrade Project Structural and Mechanical Erection – \$26M
- Alcoa Multi-Discipline Service Contract (Maintenance) for Pinjarra and Wagerup – \$12M p.a.
- Port Waratah Coal Service Stage 3 Expansion Project Structural Fabrication and Pre-Assembly – \$10M
- Worsley Expansion Project Structural Mechanical and Piping Erection – \$45M
- BHPIO Capacity Expansion Project Structural Mechanical Piping and Electrical installation – \$35M
- Adelaide Brighton Cement Clinker Grinding Plant – \$23M
- Woodside LPG Process Facilities Erection Contract – \$60M

HSEQ Manager

- Woodside - Karratha Life Extension Program – \$190M
- Chevron – Wheatstone LNG – \$90M
- Woodside – Pluto LNG - \$100M
- South 32 – Worsley Alumina – \$30M
- FMG – Cloudbreak, Solomon and Christmas Creek – \$10M
- BP Kwinana – \$15M
- Alcoa Maintenance – Wagerup, Pinjarra, and Kwinana – \$15M

DAVID DIMASI,
General Manager -
E&I

- Karratha Life Extension Electrical, Scaffolding and Lagging - \$250M per annum
- Roy Hill Primary Crusher and Overland Conveyor - SMP and E&I - \$42M
- Wheatstone Schneider Switch Room Project - \$22M
- BHP Jimblebar - E&I Installation for the Primary Crusher and Ore Handling Process - \$30M
- Victorian Desalination Project E&I - \$4B
- West Gate Bridge Upgrade Works - E&I - \$2.5B
- Sugarloaf Pipeline Project E&I - \$2B

IVAN RUEFLI,
Head of Strategy
& Growth

- BHP Mt Whaleback - TLO Flow Enhancement Hopper Installation - \$4.5M
- BHP Nelson Point - LRP Building CP and Concrete Repair Project - \$8.5M
- Rio Tinto Tom Price - ANFO Refurbishment - \$3.5M
- BHP Mt Whaleback - CV103 TLO Live-Stock Pile Conveyor System Modification - \$5M
- BHP Mt Whaleback - Supply Tank and Water Cart Filling Stations - \$4M
- BHP Eastern Ridge - D&C NPI Building Installation and Modification - \$4.5M
- BHP Mt Whaleback - ANFO Storage Facility Refurbishment - \$2.5M
- BHP Yandi - Laboratory Refit and Expansion - \$1.2M
- BHP Jimblebar - MEM Modification Works - \$2M
- BHP OB 18 - NPI Facilities Modification and Upgrade - \$5.2M
- Woodside Pluto LNG - Subcontract Grouting and Finishing Works - \$14M
- Sino Iron Steel Structure Preservation and Protection - \$8M
- BGC Contracting - Dampier Salt North Shore Project Completion Works - \$6.5M

GARETH BRIGGS,
Operations Manager

- Tianqi Lithium Kwinana LHPPI - SMP Construction - \$35M
- Inpex Ichthys Onshore LNG Facilities - SMP Construction for Train 2 - \$1.5B
- Lynas Rare Earth Project Malaysia - EPCM Works - \$800M
- Ravensthorpe Nickel Project - EPCM Works - \$2.2B
- BHP Jimblebar – SMP Installation for the Ore Handling Process - \$150M
- Tenke Fungurume Copper/Cobalt Mining Project (DRC) – EPCM - \$3B
- Citic Pacific Sino Iron Project – Early Engineering Works - \$10B

Financial Controller

- Bachelor of Science – Mechanical Engineering
- Master of Business Administration
- Master of Professional Accounting
- Full Member CPA Australia since 2009
- Senior Positions Public and Private Businesses across Oil & Gas and Construction Industries
- ASX Reporting and Corporate Governance

We deliver world-class vertical solutions for mining, resources, renewables, oil and gas plant modification and capital construction projects.”

SIMPEC'S EVOLUTION TO BEING LIKE NO OTHER

We Make Your Sustaining Capital Projects and Subcontract Partnerships Easy with Our First-Tier Experience, Safety Culture, and Family Values.

Brothers Mark and David Dimasi have built highly successful senior executive careers in the tier-one contracting space over the last 25 years, and they are well known across the resources sector for their achievements. Together they founded SIMPEC in 2017 when they saw an opportunity to do things differently when it comes to the design, construction, and delivery of multi-disciplined services to sustaining capital and asset management projects.

SIMPEC's name reflects our core expertise and self-execution capability in Structural, Instrumentation, Mechanical, Piping, Electrical & Civil Services. Our successful solution delivery model has vital ingredients which start with positive and safe workforce culture, the right people, attitude, and trade skills, coupled with communication, execution methodology, and a collaborative and consultative relationship with our clients.

Since founding SIMPEC, we have demonstrated a better way to provide specialised SMP, E&I and Civil Services to tier one contractors, and asset owners. Our approach results in a seamless and safe experience allowing everyone to stay focused on achieving overall project milestones, project budgets and saving valuable time.

SIMPEC continues to successfully secure and complete a variety of projects in the design and construct space across Australia. In addition, we are rapidly becoming the subcontractor of choice to first-tier infrastructure contractors and consortiums. This is because we continue to earn well-respected trust and confidence from our clients witnessing our actions rather than just our words.

More importantly, we welcome and invite you to meet with us to experience for yourself how we are aligned with the values of our clients and committed to maintaining our culture – **the family spirit and mateship that our company was built on.**

We understand that as Head Contractors and Subcontractors we need to ensure a safe and quality delivery of solutions and services through a collaborative, workforce culture to make it easy for our clients.

SIMPEC has built an outstanding leadership team and workforce, founded on mateship and family culture, where we genuinely take pride in our performance and achievements, as well as those of our Clients.”

Mark Dimasi,
Managing Director

OUR VISION

Be a Strategic Business Partner of
Choice to Our Industry Customers

OUR MISSION

Working with Our Customers and
Partners to Deliver Project Excellence
in a Safe and Cost-Effective Manner

Every • Single • Time

OUR VALUES

LEAD POSITIVELY

We encourage every employee to lead with integrity and to always assume positive intent. We believe leadership is not a position for a select few but an action and attitude for all. Our promise is to ensure everyone has a voice that is heard.

CREATE TEAMS

Is focused around the idea that we are stronger together than we could ever be individually. Our promise is to always work together and have each other's backs, as we don't achieve alone.

BE LIKE NO OTHER

We believe dream teams are made up of difference, not sameness. We know many roads lead to success and it is our openness to different ideas, approaches, and striving for excellence that ensures our success now and for the future.

WHY WE ARE A GREAT CHOICE

We understand the people element and offer a deeply entrenched customer-centred culture, and a safety-first mentality in our workforce.

Our leadership team has the first-tier experience to understand your requirements and the full scope for delivery.

Our company size allows for flexibility, and our supportive working culture makes us easy and enjoyable to deal with.

We offer you a highly collaborative approach to working holistically with all stakeholders.

We are agile and innovative with a personal touch when it comes to our employee and customer needs.

We are confident in seeing a project through its entire life cycle from planning, through to execution and delivery.

We value learning and development and keep up to date with the latest innovations and technology to deliver the best solutions.

Our practices are highly efficient, making sure we deliver on strategic objectives within agreed time and cost parameters.

We are focused on delivering real value, constantly assessing value for money at every stage to give you productivity improvements and budget savings where it is possible.

We set a high bar for quality work, not only for you, but for our standards and reputation too.

COMMUNITY SPIRITED & STRIVING TO NURTURE INDIGENOUS BUSINESSES

Indigenous Engagement

SIMPEC aspires to build enduring relationships with Indigenous Communities, respecting Indigenous cultural heritage and custodianship of the land.

As an Australian owned and operated business, we believe that working with Indigenous Communities is vital to sustaining the long-term viability of local businesses and our overall industry.

We achieve our goals through subcontractor mentoring, apprenticeship programs, project services, capacity building, commissioning artwork, and sponsoring community programs. 2.5% of our workforce are Indigenous with this planned to increase as part of our strategic plan over the next three years.

Community Support

We value community and local business. We strive to support all local communities where we do business. We achieve this, where possible, through local procurement practices, sponsorship, and recruitment.

Whether delivering world-class projects or supporting the local community, we are ethical and committed to sustaining the communities where we operate.

We are pleased to confirm that SIMPEC has recently entered into a joint venture agreement with IronMerge Pty Ltd under the operating name 'IronMerge-Simpec JV'. IronMerge is a Pilbara Aboriginal business founded by Ian Taylor (Chairman and Nyamal Traditional Owner) providing labour hire, recruitment, and project procurement services.

The purpose of our joint venture is to ensure maximum Indigenous participation and benefits flow from our involvement in suitable projects, leveraging the local content expertise of IronMerge.
