Animatronic Characters

We really do bring your characters to life with interactive environments, static props, and animatronic props with special effects.

Expo Dubai 2020 wanted flying mascots for their event. At the onset of the contract, the technology wasn't available. After extensive R&D our expert team created a world first in bespoke character drones based on their characters.

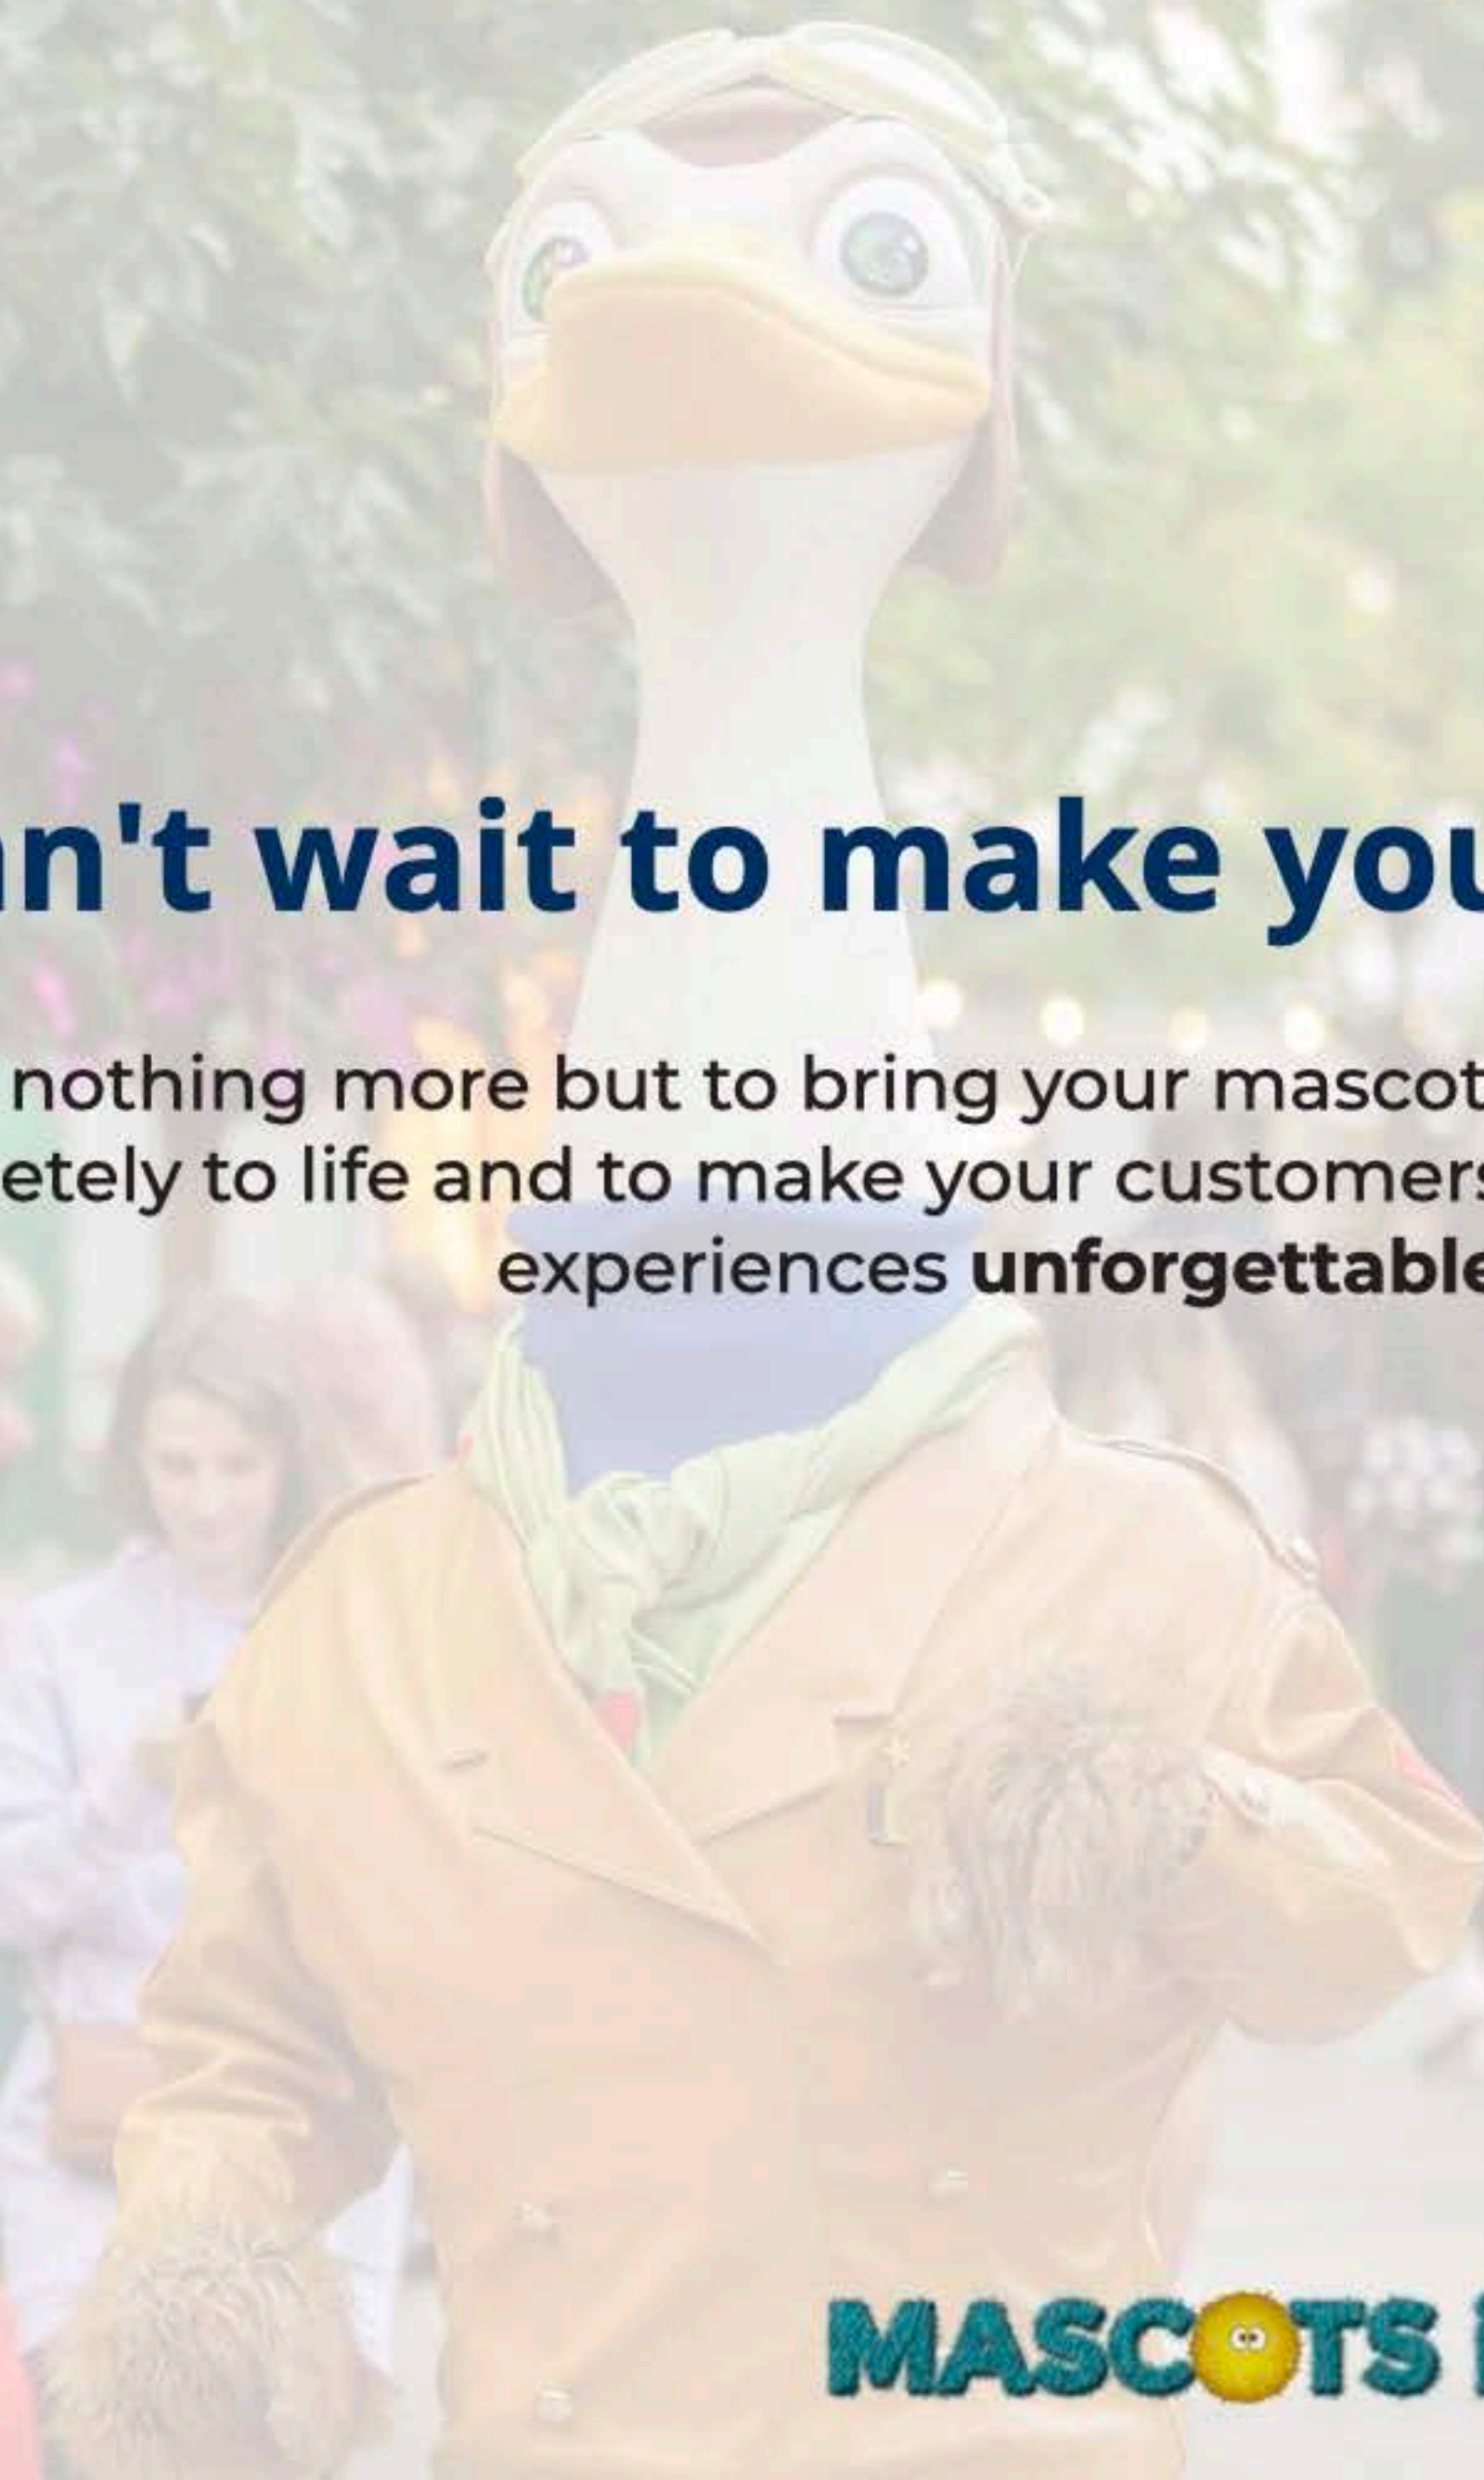

We can make your mascot fly.

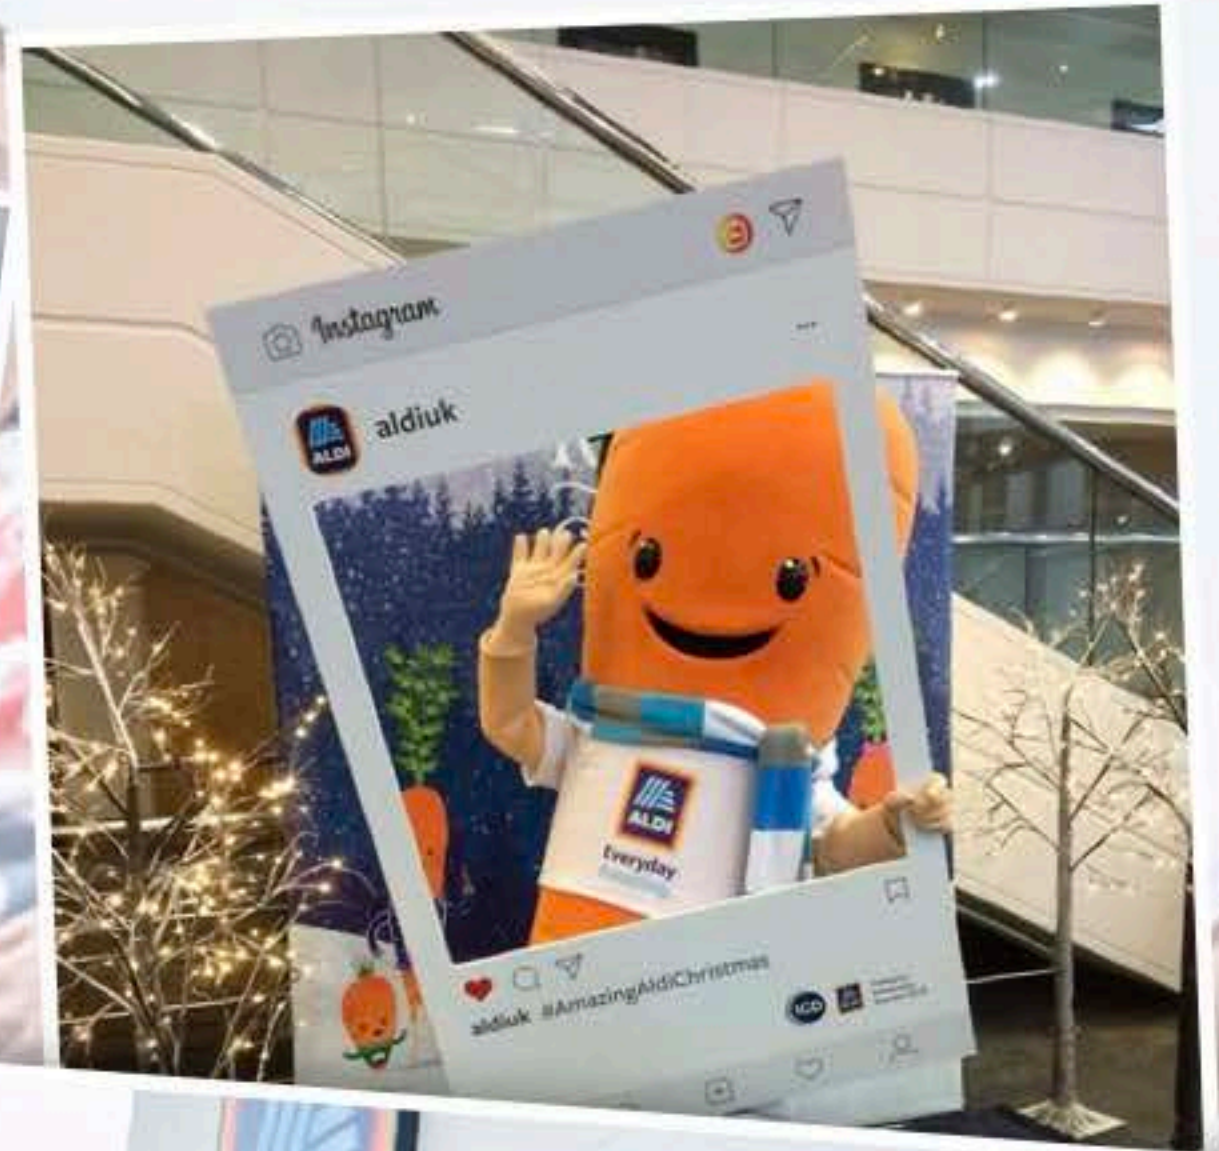

We can't wait to make you

We love nothing more but to bring your mascots completely to life and to make your customers' experiences **unforgettable.**
