

# Technology & Innovation Bootcamp

Batch 2 | 3-7 October 2022

---

# Overview of MRANTI

## MaGIC-TPM now MRANTI

By Digital News Asia November 9, 2021

- *In line with Malaysia's technology commercialization catalyst agenda*
- *Develop future workforce & accelerate adoption of technology & innovation*

(L2R) Deputy Mosti Minister Ahmad Amzad, Mosti Minister Dr Adham Baba, Mosti chief secretary Zainal Abidin with Dzuleira Abu Bakar at the MRANTI launch.

## Malaysian Research Accelerator for Technology & Innovation

MRANTI seeks to inspire the world with a bold new model to **accelerate Ideas to Impact** by combining our developmental expertise with tech infrastructure and services for the creation, development and commercialisation of technology and innovation

# MRANTI

Malaysian Research Accelerator for Technology & Innovation

**National Aim** Malaysia as a hub for technology innovation, commercial adoption and scientific excellence.

**Goal** Transform ideas to impact, deliver return on ideas (ROI).

**Mandate** Facilitating the end-to-end process of Research & Development and Commercialisation & Innovation (R&D&C&I) from early stage ideation to commercialisation, in collaboration with Public Sector, Private Sector, Academia and the Civil Society

**Headquarters & Branches** 686 Acre MRANTI Park, Kuala Lumpur with operations in Pahang and Perlis.

## 6 Technology Clusters

Support facilities, resources and services for rapid research, development and commercialisation **enabling you to accelerate product and solution development**

# Addressing Challenges in the R&D&C&I Value Chain

## R&D&C&I Value Chain / Stages

### Early: Ideation & Applied Research

### Mid: Prototyping & Viability Testing

### Late: Scaling Up & Commercialisation

## Process

**Idea / Research**

**Research Prototype**

**IP Protection**

**Commercialisation Approach**

**Integration & Collaboration**

**Industry Prototype**

**Testing & Validation**

**Regulatory Certification**

**Manufacture & Scale Up**

**Commercial Deployment**

## Key Issues

- R&D mainly driven by IHLs (Academic, Basic Research)
- Lack of enterprise R&D (Applied research)
- Fragmented systems and various R&D efforts
- Lack of R&D funding

- Technology Transfer Offices has limited partnership & industry network
- "Valley of Death" between TRL4 and 5 with high failure rate
- Lack of Innovation "Scouts" to bring ideas to market
- Invention/innovation not aligned with industry needs & market demand

- Low Commercialisation rate & value
- Low product/solution scalability
- Limited visibility of commercialisable products/solutions for businesses to adopt or collaborate with innovators
- Lack of central repository for ideas that are market-ready

# Enabling Transformational Growth

R&D&C&I Value  
Chain / Stages

Early: Ideation & Applied Research

Mid: Prototyping & Viability Testing

Late: Scaling Up & Commercialisation

## Ecosystem Building

We are here to build a strong community through the **Quadruple Helix Model** (Public Sector, Private Sector, Academia and Civil Society) to inspire, enculturate and catalyse market-driven innovations

## World-Class Infrastructure

With our strong roots in technology park management, we are able to provide a range of world-class facilities for **prototyping, fabrication, testing, development, collaboration** to nurture the growth of innovation

## Developmental Programmes

Navigating technological and obstacles can be challenging. We are here to support technology seekers and providers with the necessary and wide range of **programmes** and interventions to **accelerate commercialisation**.

# Forging Strategic Partnerships

## Public Sector

Identify commercialisation problem statements, policies, regulations and funding

## Private Sector

Understand industry demands to develop proofs of concept that align to Industry needs

## Academia

Integrated and centralised collaborations across universities nationwide

## Civil Society

Identify suitable technology solutions that would benefit and be adopted by society

Idea

Impact

**Connector** between ecosystem players to facilitate market-driven R&D and innovations

**Catalyst** to promising innovations to scale through industry market access

**Incubator** to commercially feasible R&D outputs and ideas into POC and prototypes

# Research & Development Centres

## Facilities:

A certified facility for Traditional Medicine, HACCP, MeSTI and HALAL premises status. Full-suite laboratory - **Product Development and Formulation Lab, Analytical Biochemistry & Molecular Biology Lab and Agrobio Lab** (Agriculture Biotechnology).

## Services include:

- Regulatory and Product Registration Services
- Product Packaging, Design & Printing
- Herbal Product CMO (OEM Services)

## Facilities:

For product development and bio-processing of innovative health supplements, herbal-based products. A 20-acres area with **precision agriculture, smart farming and precision manufacturing technologies**

## Services include:

- Formulation and laboratory analysis
- Product registration
- Consultancy in Biotechnology
- Project management

## Facilities:

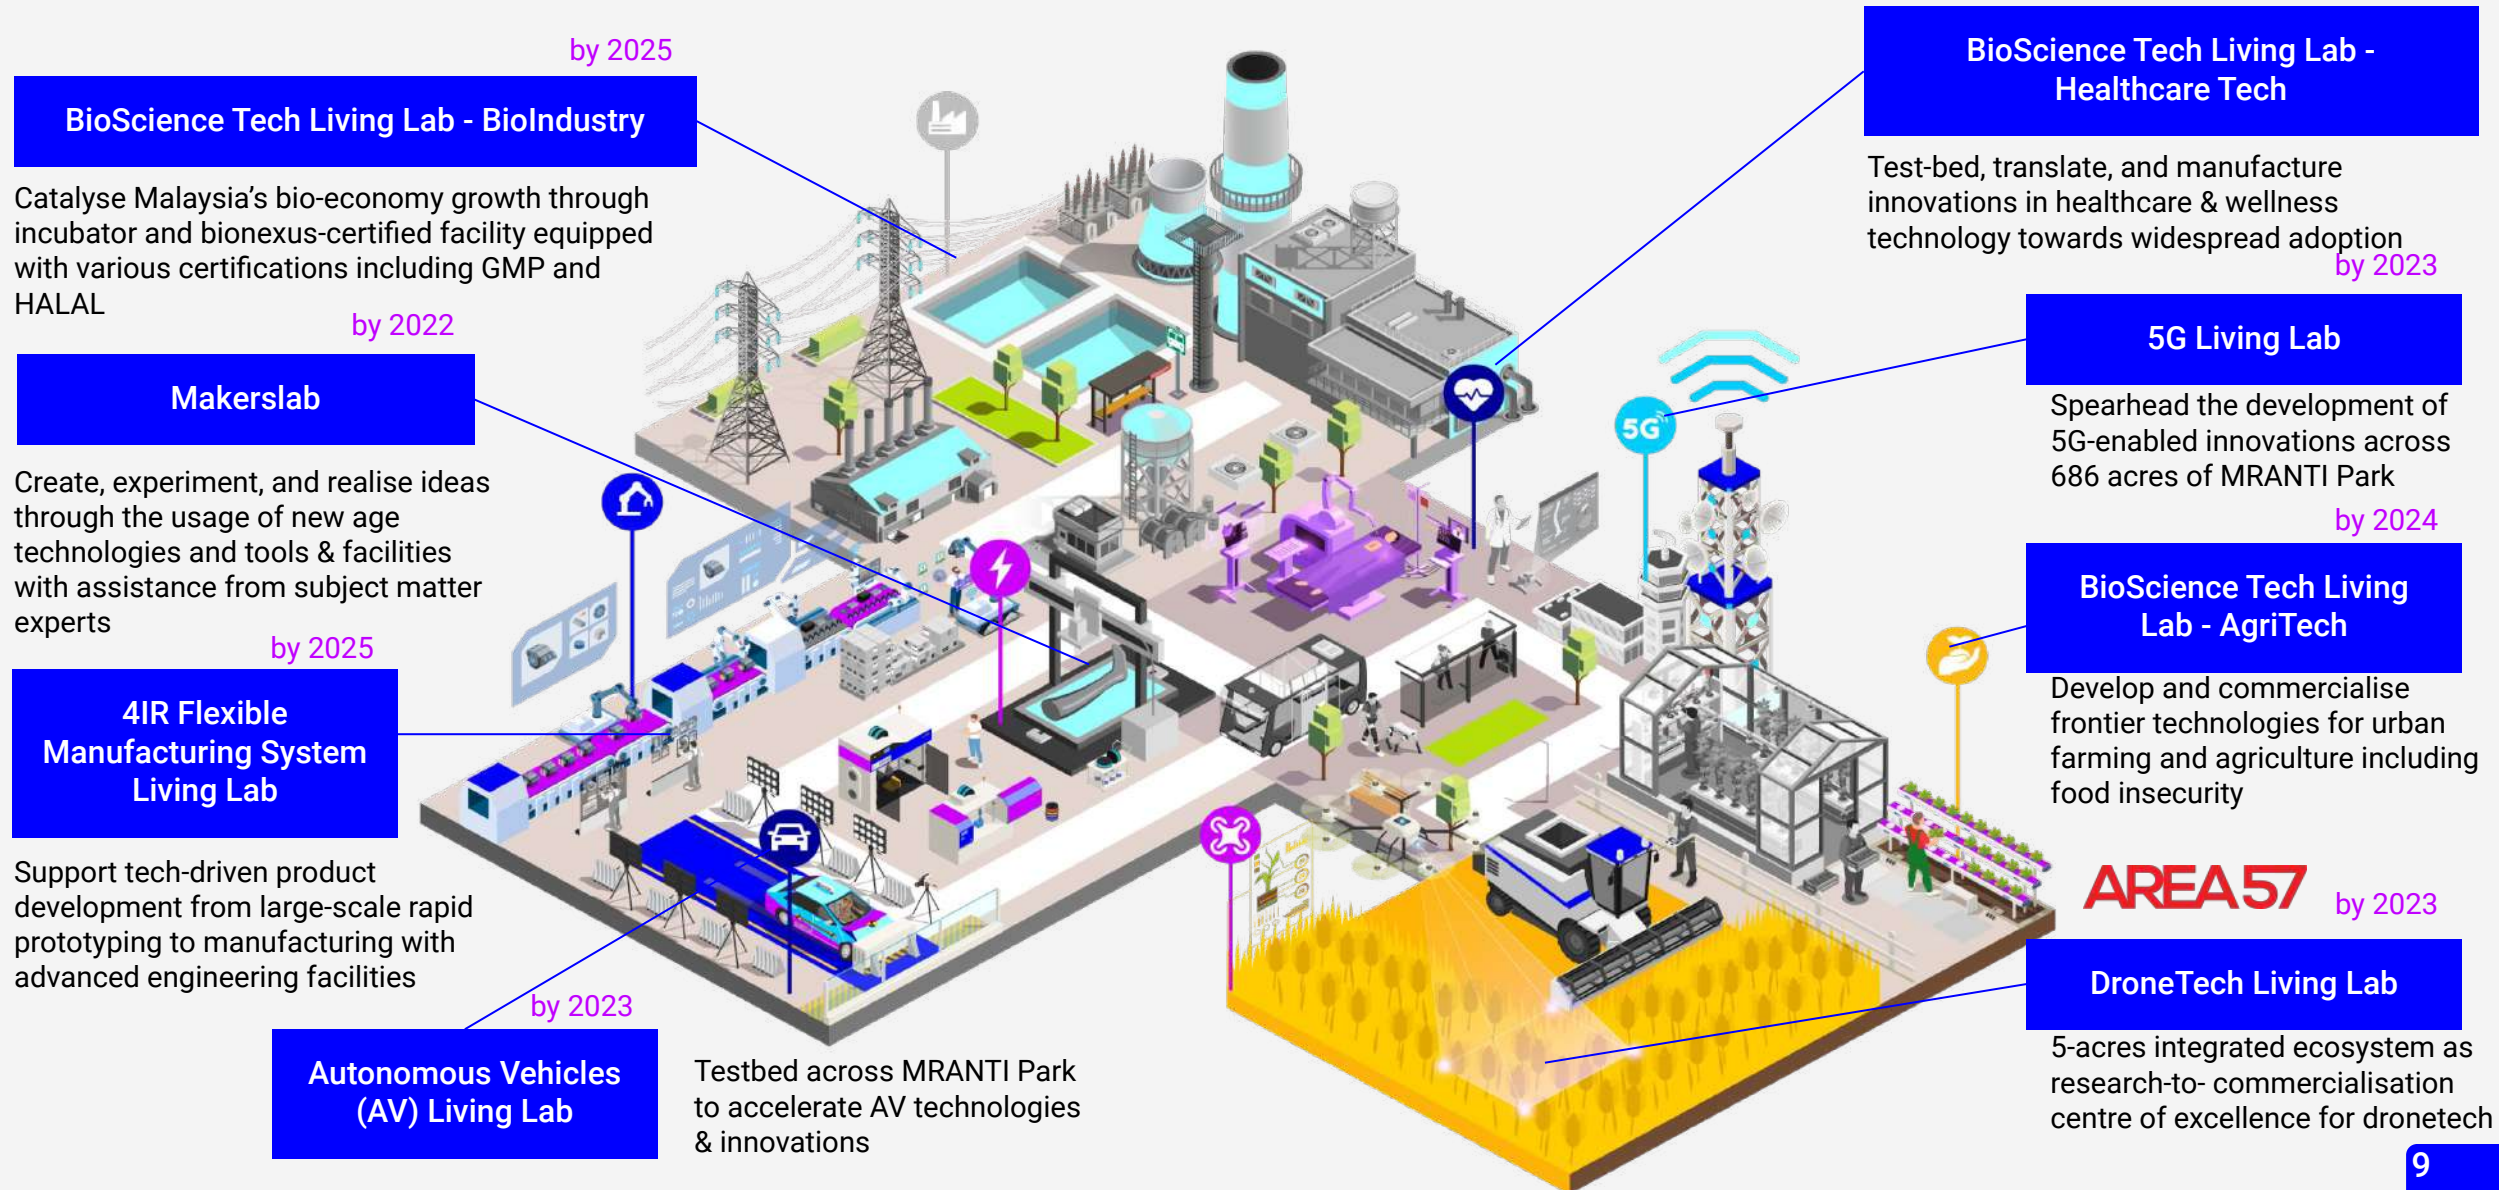

**Precision manufacturing hub and R&D for high-tech military and engineering products.** Provides the application of scientific and engineering knowledge and methods.

## Services include:

- Digitisation & Engineering
- Metrological Services
- Rapid Prototyping
- Design & Product Development

# Access to World Class Infrastructure

# Programmes & Initiatives

R&D&C&I  
Value Chain  
/ Stages

## Early: Ideation & Applied Research

## Mid: Prototyping & Viability Testing

## Late: Scaling Up & Commercialisation

### Early - Mid Stage

#### Workshops, Digital Courses & Tools, Webinars and Bootcamp

1. Massive Open Online Courses (MOOC)
  - Digital Business Academy
  - Science, Technology & Innovation (STI) Webinars
  - Growth Wheel Actionable Strategy Tools / platform
2. Technology and innovation Essentials
3. ESG Workshops
4. Impact Innovation Partnership
5. Technology & Innovation Bootcamp
6. IP & Tech Commercialisation Masterclass

#### Partnerships and Knowledge Sharing

1. 4IR & Tech Commercialisation Awareness & Outreach Programmes
2. Innovation Competencies for Public Service Excellence

#### IP Services

1. Value Added IP Services

### Mid - Late Stage

#### Accelerators & Incubators

1. Industry Based Accelerators
2. Social Impact Challenge Accelerator (SICA)
3. APEX Incubator

#### Testing & Commercialisation

1. NTIS - Jelajah Malaysia
2. NTIS - Programme with partners sandbox
3. NTIS CIO Masterclass & CAN
4. Program Perolehan Impak Sosial Kerajaan (PPISK) - until June 2022
5. Corporate Innovation & Commercialisation
6. IP Commercialisation Facilitation
7. Product Market Fit and Validation Techniques for Government, RU's & RI's

#### Market Access

1. Global Market-Fit Programme
2. MyStartUp Hub

### Early - Mid - Late Stage

1. Quadruple Helix Stakeholders Engagement Forums
2. Industry Roundtable with Quad Helix
3. CIO Action Network (CAN) Community

Programmes  
& Services  
[Total 25 in  
2022]

# MRANTI Technology & Innovation Bootcamp

02

# Technology & Innovation Bootcamp

## Objective :

- Validate, refine and building ideas into viable prototype as part of commercialization journey
- Equip teams with the right tools, knowledge and intervention to improve the innovative solutions

## Outcome :

- Prototypes being completed for targeted purposes
- Commercialization for the deployment of the solutions according to their stages

## Target audience :

- Researchers with the potential and intent to commercialize
- Scientists with the intention to gain assistance to commercialize
- Students with scientific or technology based ideas to be developed

## Technology areas to be focused during the programme

Deep Tech

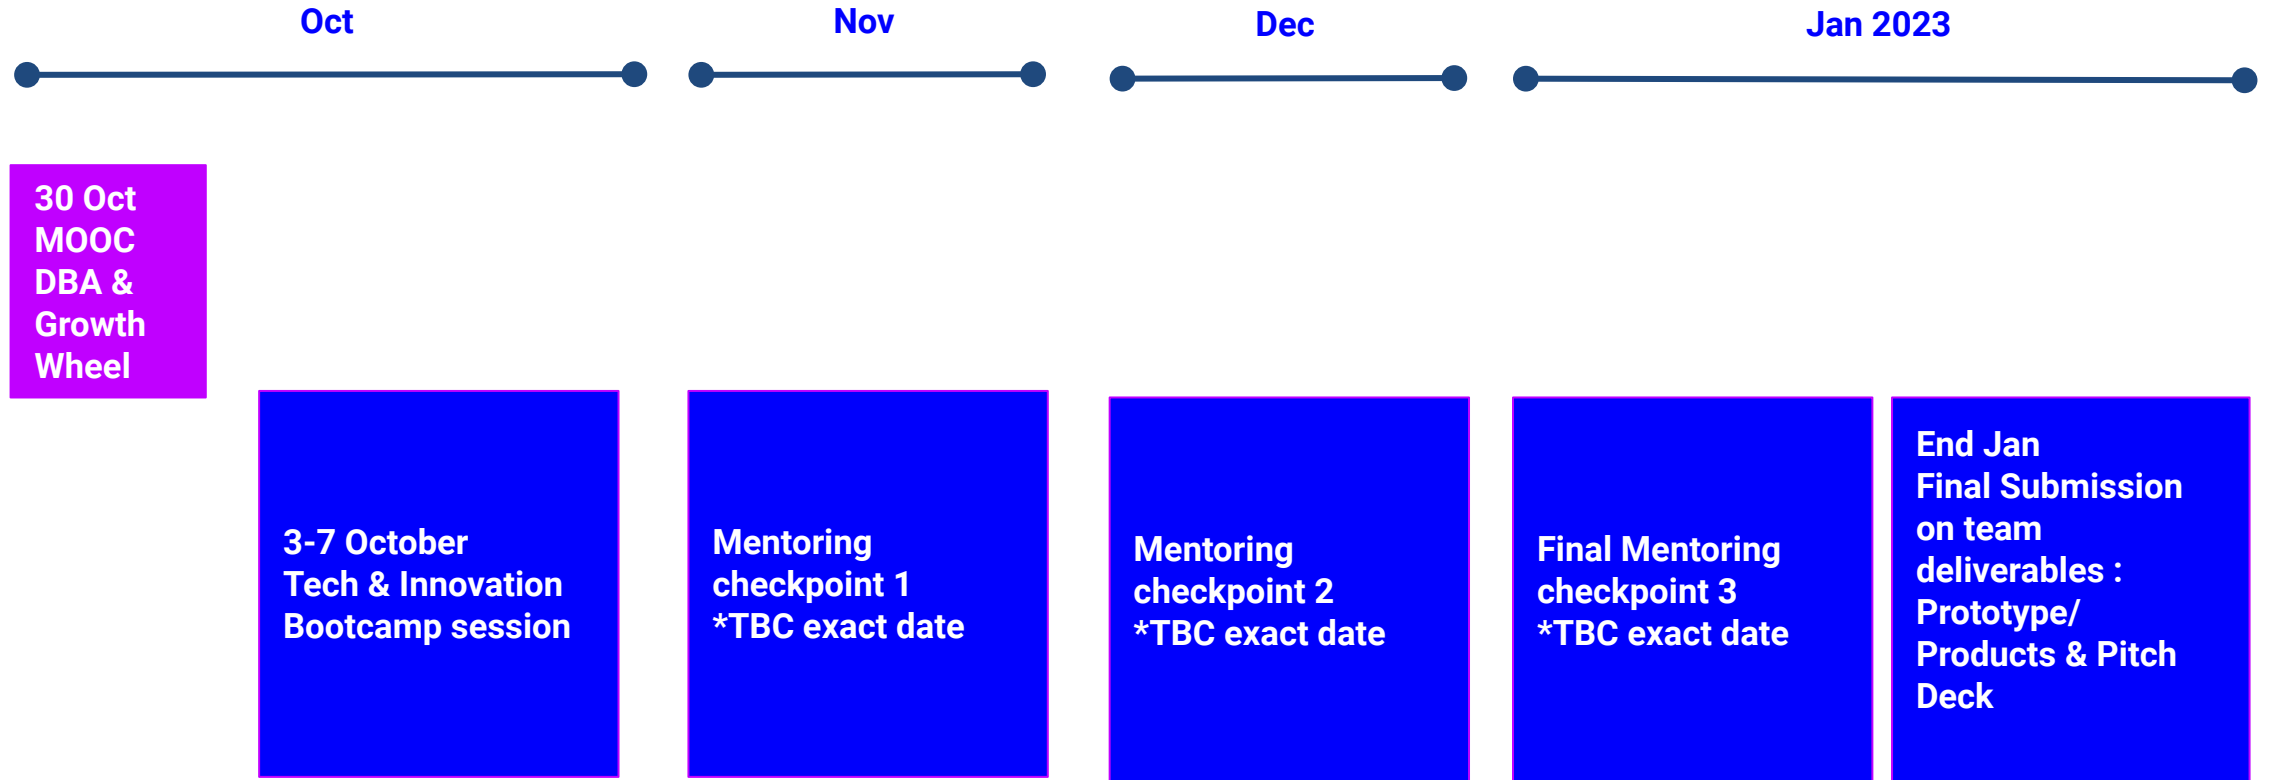

Drone

Blockchain

Data & IOT

# Programme overall timeline

# Programme content

## Commercialization

- Ideation & Validation
- Creating Low or High Fidelity Prototype
- Market Assessment
- Go-to-Market strategy
- IP Strategy

## Technology

- 4IR Tech literacy and strategy
- Tech Adoption

## Business Acumen

- Business Model
- Valuation and Investment strategy
- Branding and Marketing

## Pitch Deck Craft & Presentation

- Structured Pitch Deck
- Presentation pitch exercise and demo

**5 days = 3-7 October**

**9am until 5pm**

**First 3 days = Virtual Session**

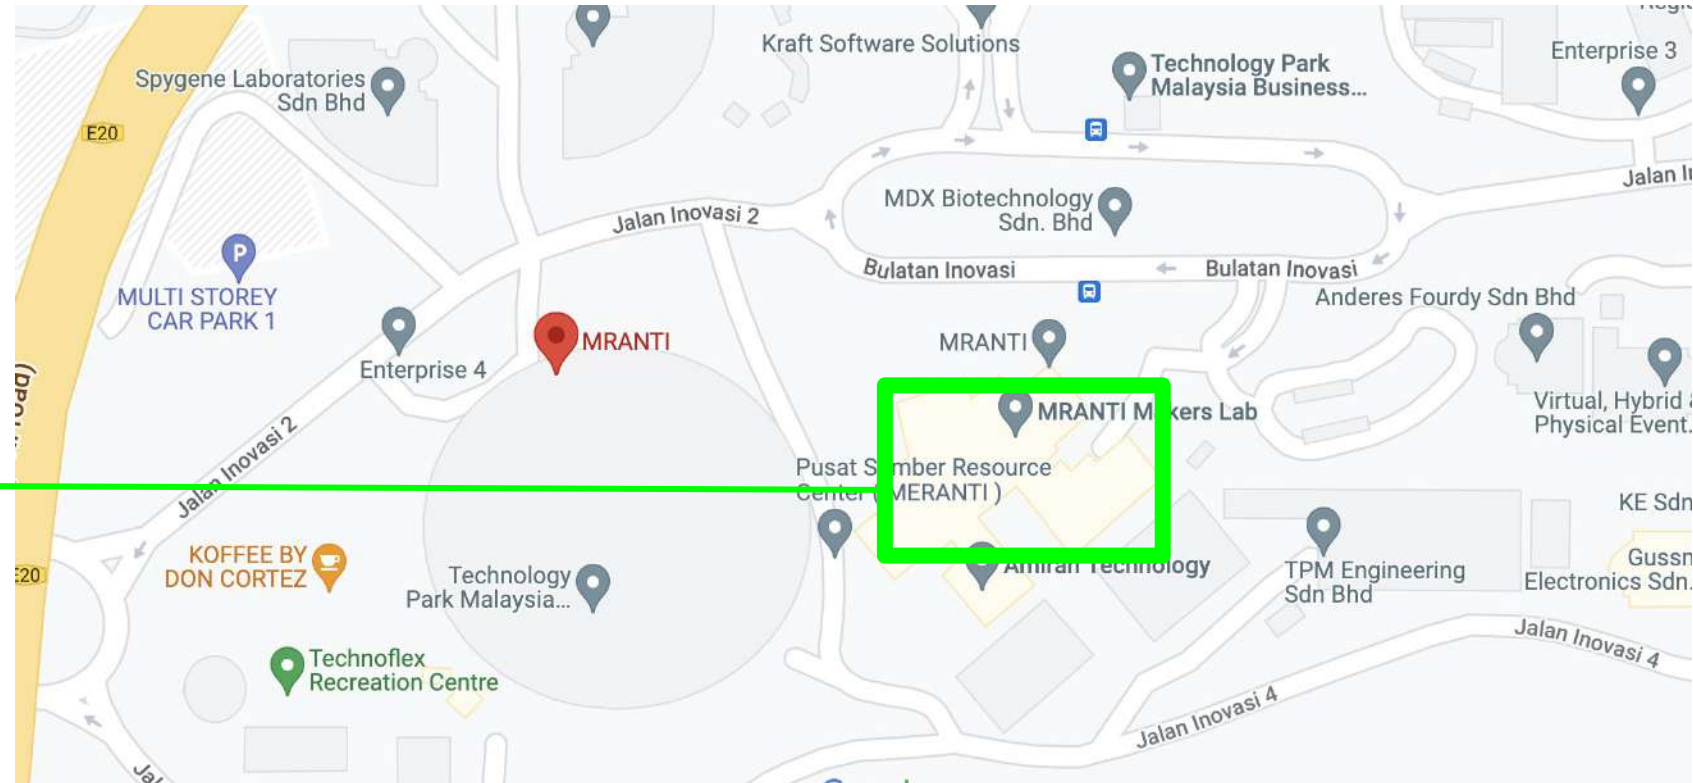

**Last 2 days = Physical session in MRANTI Park**

*\*Itinerary and topics are subject to change by MRANTI and will be informed to selected participants from time to time*

*\*Full itinerary will be released to the selected participants*

# Physical location (6 & 7 October 2022)

Resource Centre, MRANTI Park  
(previously known as Technology  
Park Malaysia, TPM)  
Bukit Jalil, Kuala Lumpur

# Outcome

We aim by end of the programme inclusive of post bootcamp period, the team will have at least :

Alpha/Beta Prototype in the form of website, apps or hardware mockup (3D printed etc)

Full pitch deck developed to illustrate your product, business model, customers etc according to the training

A list of decisions and actions set with Growth Wheel advisors and executed towards achieving intended growth.

In addition to that, we are also looking to aim for several other achievements based on milestone chosen :

Viable Prototype  
(interests, early adopters etc)

Company incorporation  
(Ent/LLP/Sdn Bhd)

Registered  
copyright/patent of the IP

Funnel to other next stage programme e.g NTIS, GAP, Tech Comm

IP with the valuation of RM50,000 and above

IP commercialization through licensing, royalty etc

Commercialized product (first sale)

# Requirement

You are encouraged to join in a team with at least 2 pax. At least one of you can join all sessions

The team must have at least viable and validated idea to be submitted for application

The team must have at least one team member with tech/programming experience, preferably the CTO of the company

# What will you get from the programme?

## Commercialization knowledge

- + Understand the process from our experts and apply it to your solutions and accelerate your journey

## Mentoring and access to expert's advisory

- + Understand the process from our experts and apply it to your solutions and accelerate your journey

## Networking and connecting opportunity

- + Spend time with the like-minded people and forge partnerships with other startups, partners and other players within the ecosystem

## Access to MRANTI services and facilities

- + Understand and engage with relevant services and facilities such as Intellectual Property (IP), Engineering, Tech and IT

## Incorporation and Copyright : Registration assistance

- + The top selected teams with potentials to commercialise, will be offered with 1 year support of registering the business (Enterprise/Sdn Bhd/LLP) via appointed company secretary which also include the first year incorporation fee. *(Subjected to selection and changes by MRANTI)*

# How to submit application?

For application submission, you can click on the link or scan the QR code

+ [Application submission](#)

**CLOSING DATE : 23 September 2022**

Or you can scan this to go to the application form

# Programme Information Appendix

# Developmental & Commercialisation Programmes

We support **fast-tracking commercialisation and maximising Return on Ideas for technology and innovation solutions** across startups & business development stages via our offering of strategic partnerships, demand-led programmes, and forward-thinking initiatives

Commercialisation Stage

## IDEATION & APPLIED RESEARCH

### Workshops, Webinars & Bootcamps

Continuous **support and lifelong learning for all levels of innovators** to develop attributes and skills to launch, grow or join a digital and/or tech business.

Introduction to the usage of Innovation and Technology tools to **ideate, validate and adopt technology** which will bring idea into the commercialisation pathway.

We help you equip the skills to design solutions that create, deliver and capture value to move from ideas to market.

### Partnerships and Knowledge Sharing

Our partnerships platform **increase commercialisation opportunities between technology creators and adopters, strengthen strategic engagement for the Quadruple Helix** to generate sustainable value & impact, raise and amplify awareness of ESG & its opportunities to Quadruple Helix ecosystem stakeholders to generate sustainable value and impact.

## PROTOTYPING AND VIABILITY TESTING

## SCALING UP & COMMERCIALISATION

### Accelerator Programme

A thematic accelerator programme **focusing on the growth of companies to scale and commercialise products as well as services** by being investment-ready and adopting new technologies that cater to a specific industry.

We also offer **impact-driven accelerator programme** coupling with SDG challenges in addressing sustainability issues faced by corporates, agencies, etc.

### Test & Go-to Market

Go to Market platform that **facilitates market access of expansion-ready innovators beyond ASEAN** and inviting innovative global startups and companies for a softlanding in Malaysia who are considering to set up innovation hubs in ASEAN.

We offer **industry and expert advice on technology readiness and transfers**, sandbox awareness campaigns, public sector innovation, access to live testing grounds and ecosystem resources for market access and commercialisation.

# Create Innovators & Solutions to Accelerate Impact

Trigger

## Massive Open Online Courses (MOOC)

### Online courses and tools to:

- Launch and grow digital businesses.
- Facilitate R&D and tech to market.

### Programmes:

1. Digital Business Academy
2. STI Webinars
3. Digital Innovation Tools

Immerse

## Innovation Essentials & Tech Talk

Introduction to innovative tools such as **Design Thinking**, **Business Model Canvas** and topics such as **Impact**, **Commercialisation** plus insights on **Emerging technologies**.

Boost

## Technology & Innovation Bootcamps

Intensive structured course for 2 weeks focusing on **prototyping and adoption of technology**. 6 months of mentoring period to achieve specific goals

## Industry Based Accelerator (Global Accelerator Programme: Thematic Edition)

2-months thematic programme to **accelerate the growth** of local and international companies to **scale and commercialise products and services** by being investment-ready. Focus industries are Business & Financial Services, Water & Food And Medical & Healthcare

- Provides continuous support and lifelong learning for all levels of innovators to develop attributes and skills to **launch and grow digital and/or tech business**.
- Builds skills to design solutions that **create, deliver** and **capture value** to move from **ideas to market**.
- Adds **value** as a package bundled with **your** programmes, facilities and services.

## *Digital Business Academy:*

- Ideas & Products
- Social Innovation
- Marketing & Sales
- Brand & Comms
- Finance & Operations
- People & Culture

## *Innovation Webinars:*

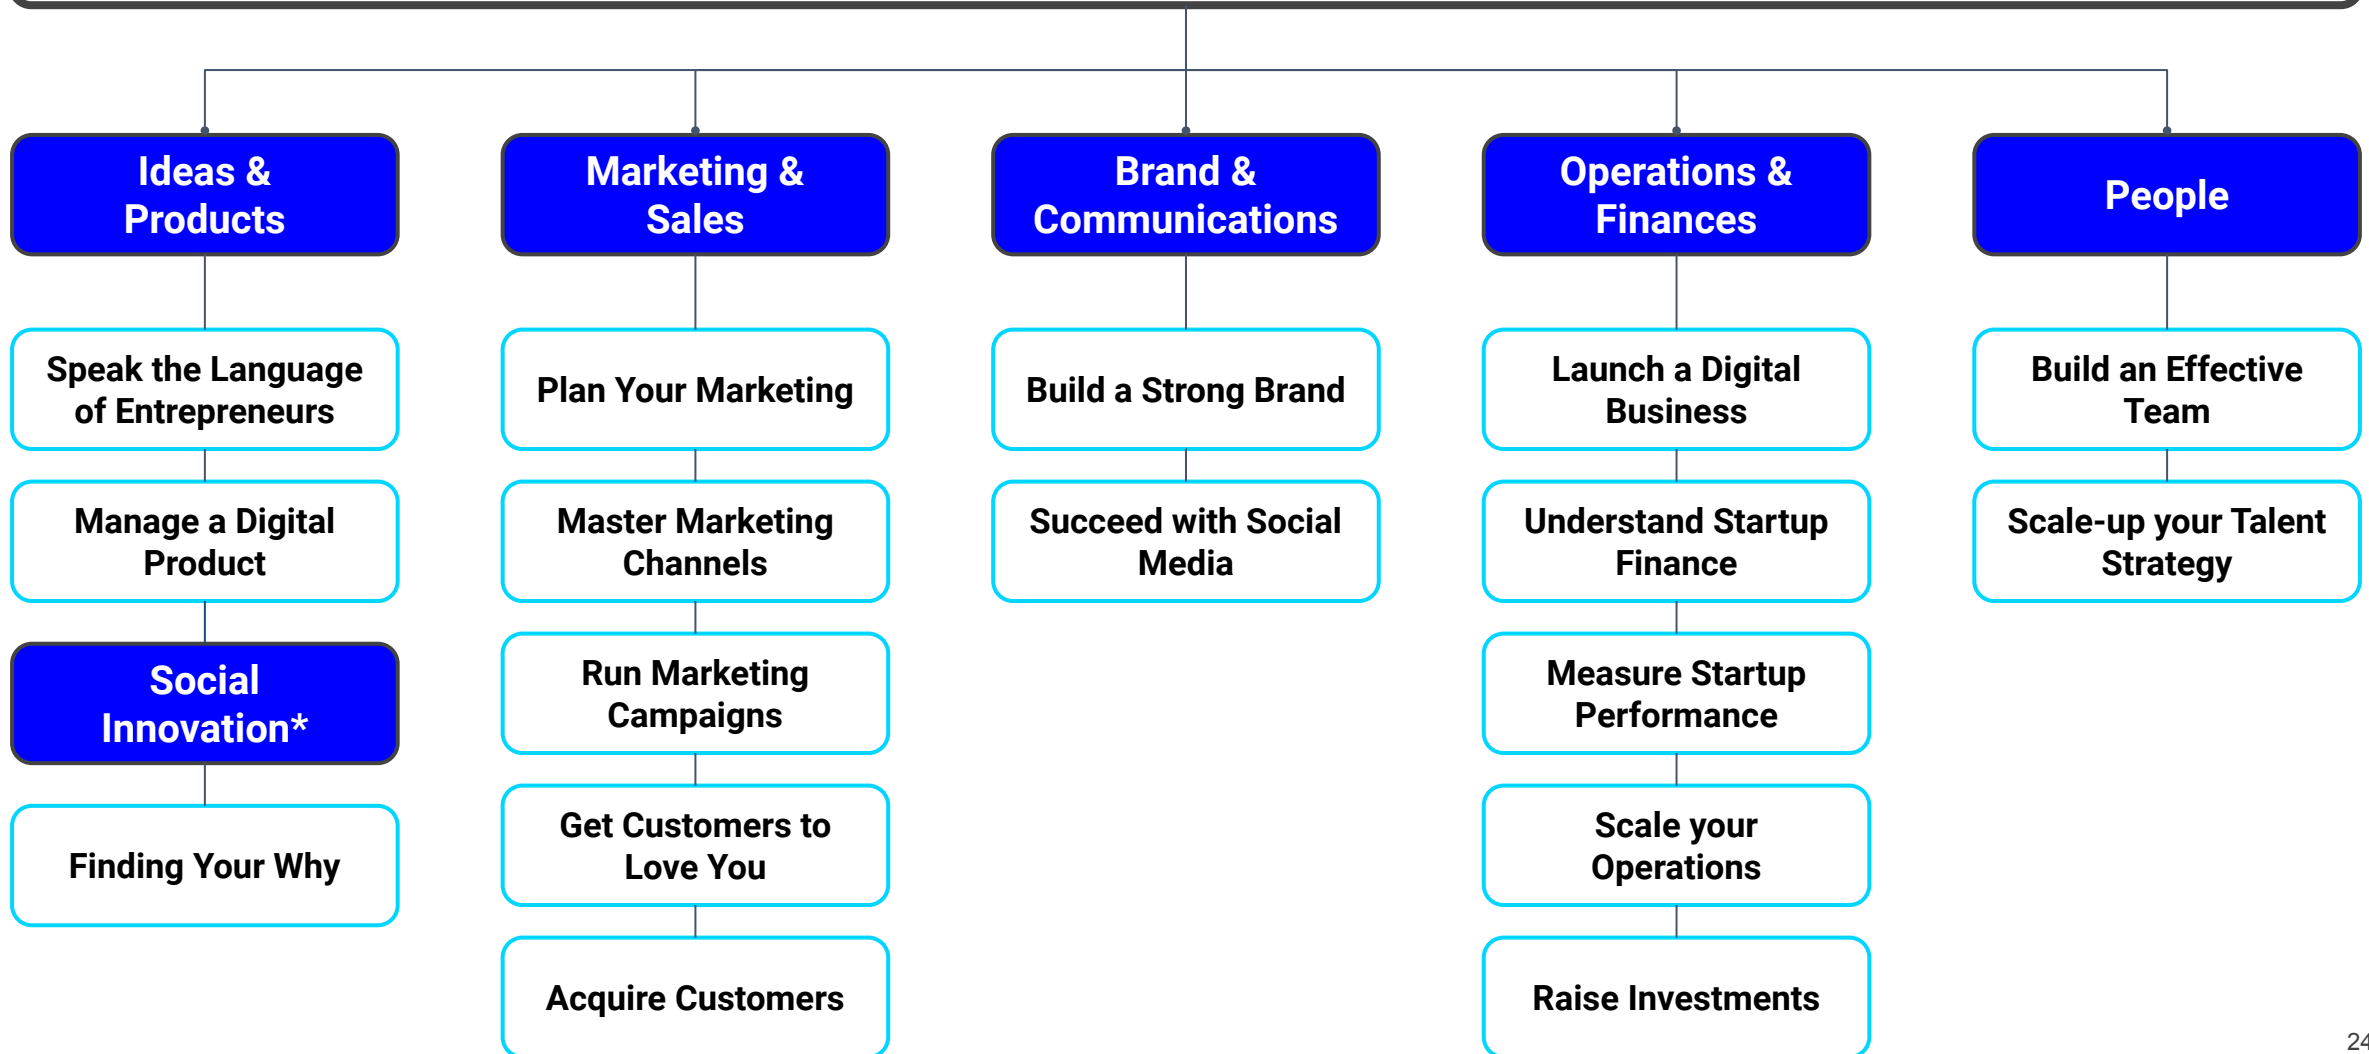

- Innovation
- Emerging & Exponential Technologies
- Tech 2 Market
- Tech 4 Impact

## *Actionable Strategy Coaching & Tools:*

- Business Concept
- Customer Relations
- Organisation
- Operations
  
- *Status Assessment*
- *Opportunities Assessment*
- *Skills Assessment*

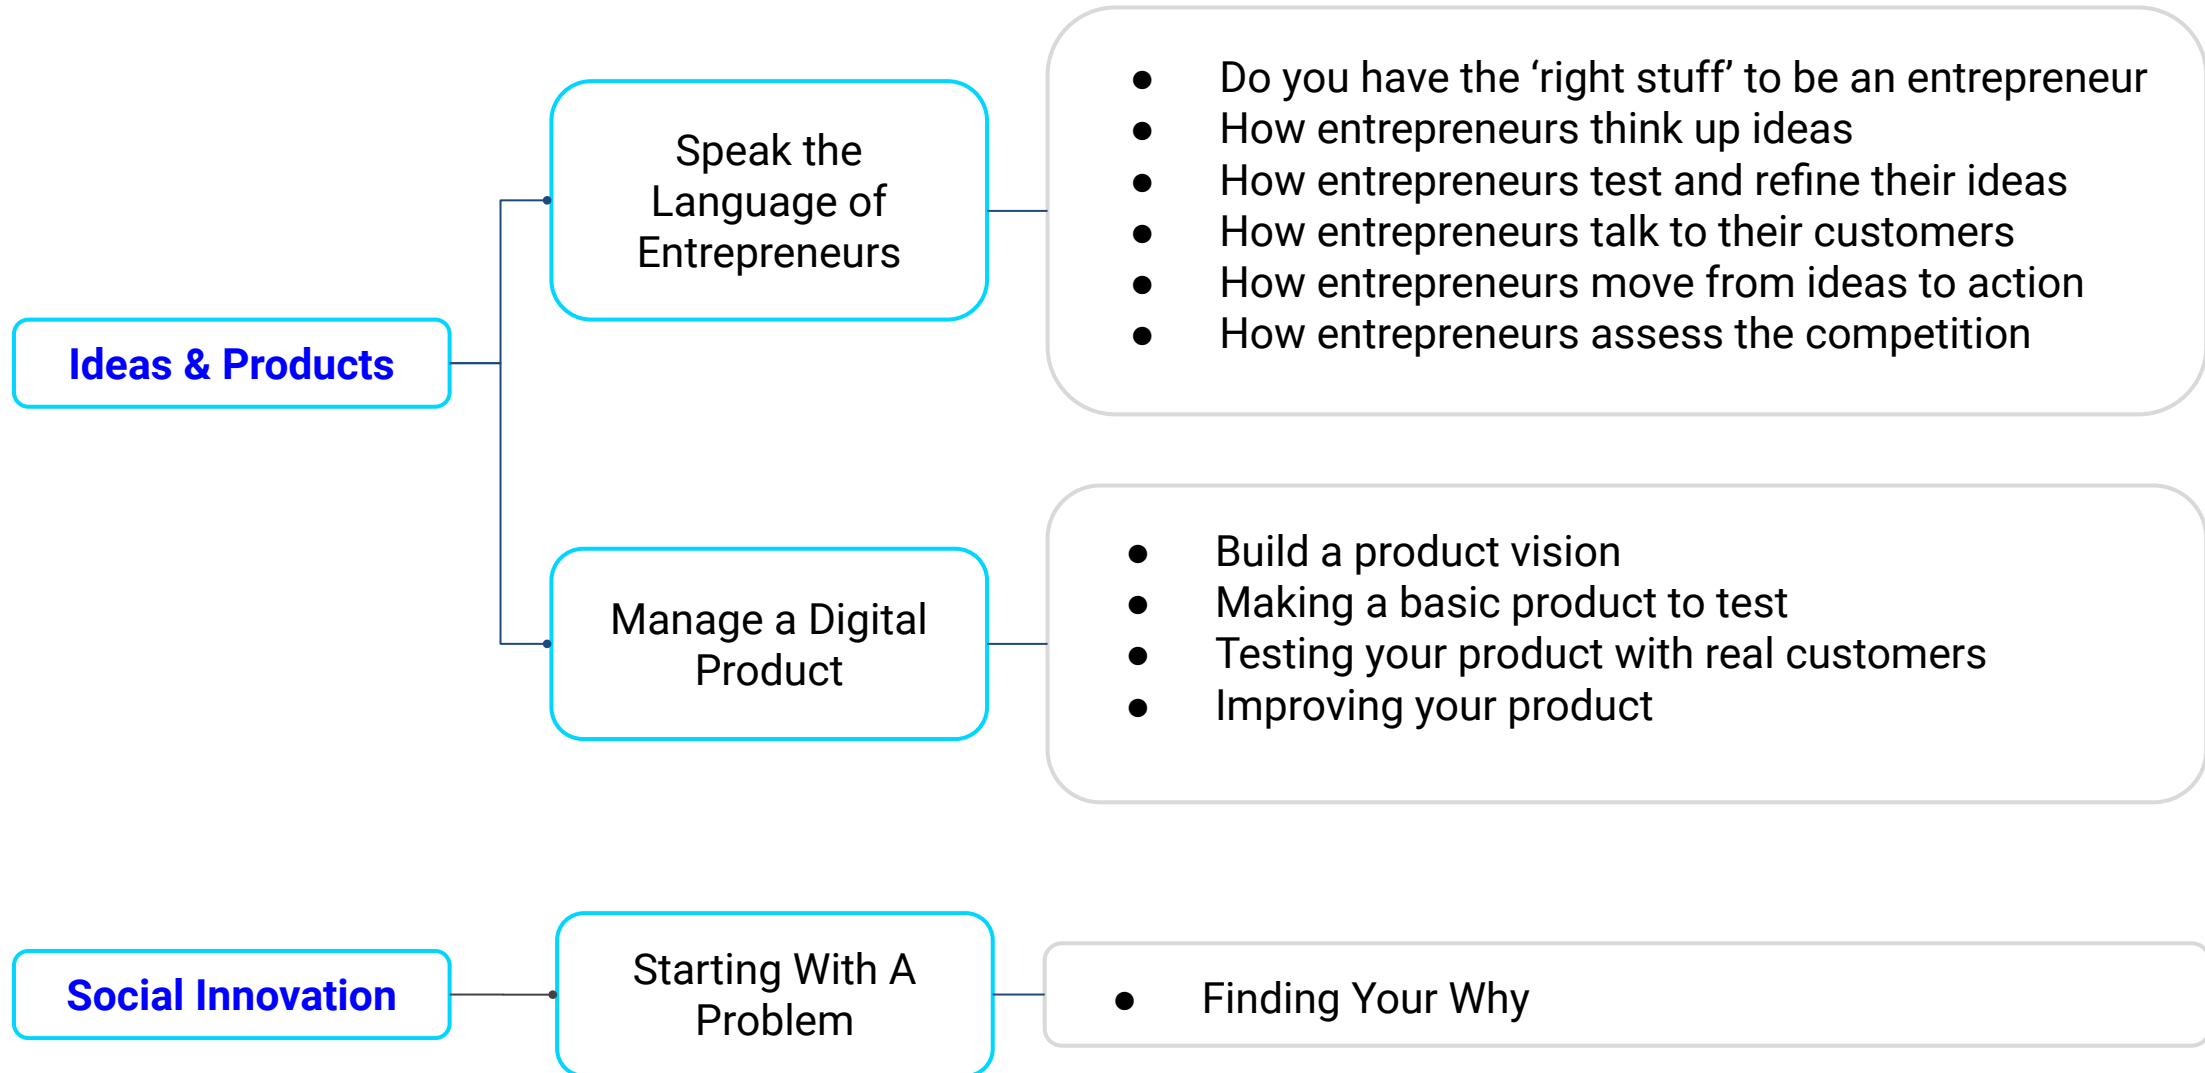

# Digital Business Academy (DBA)

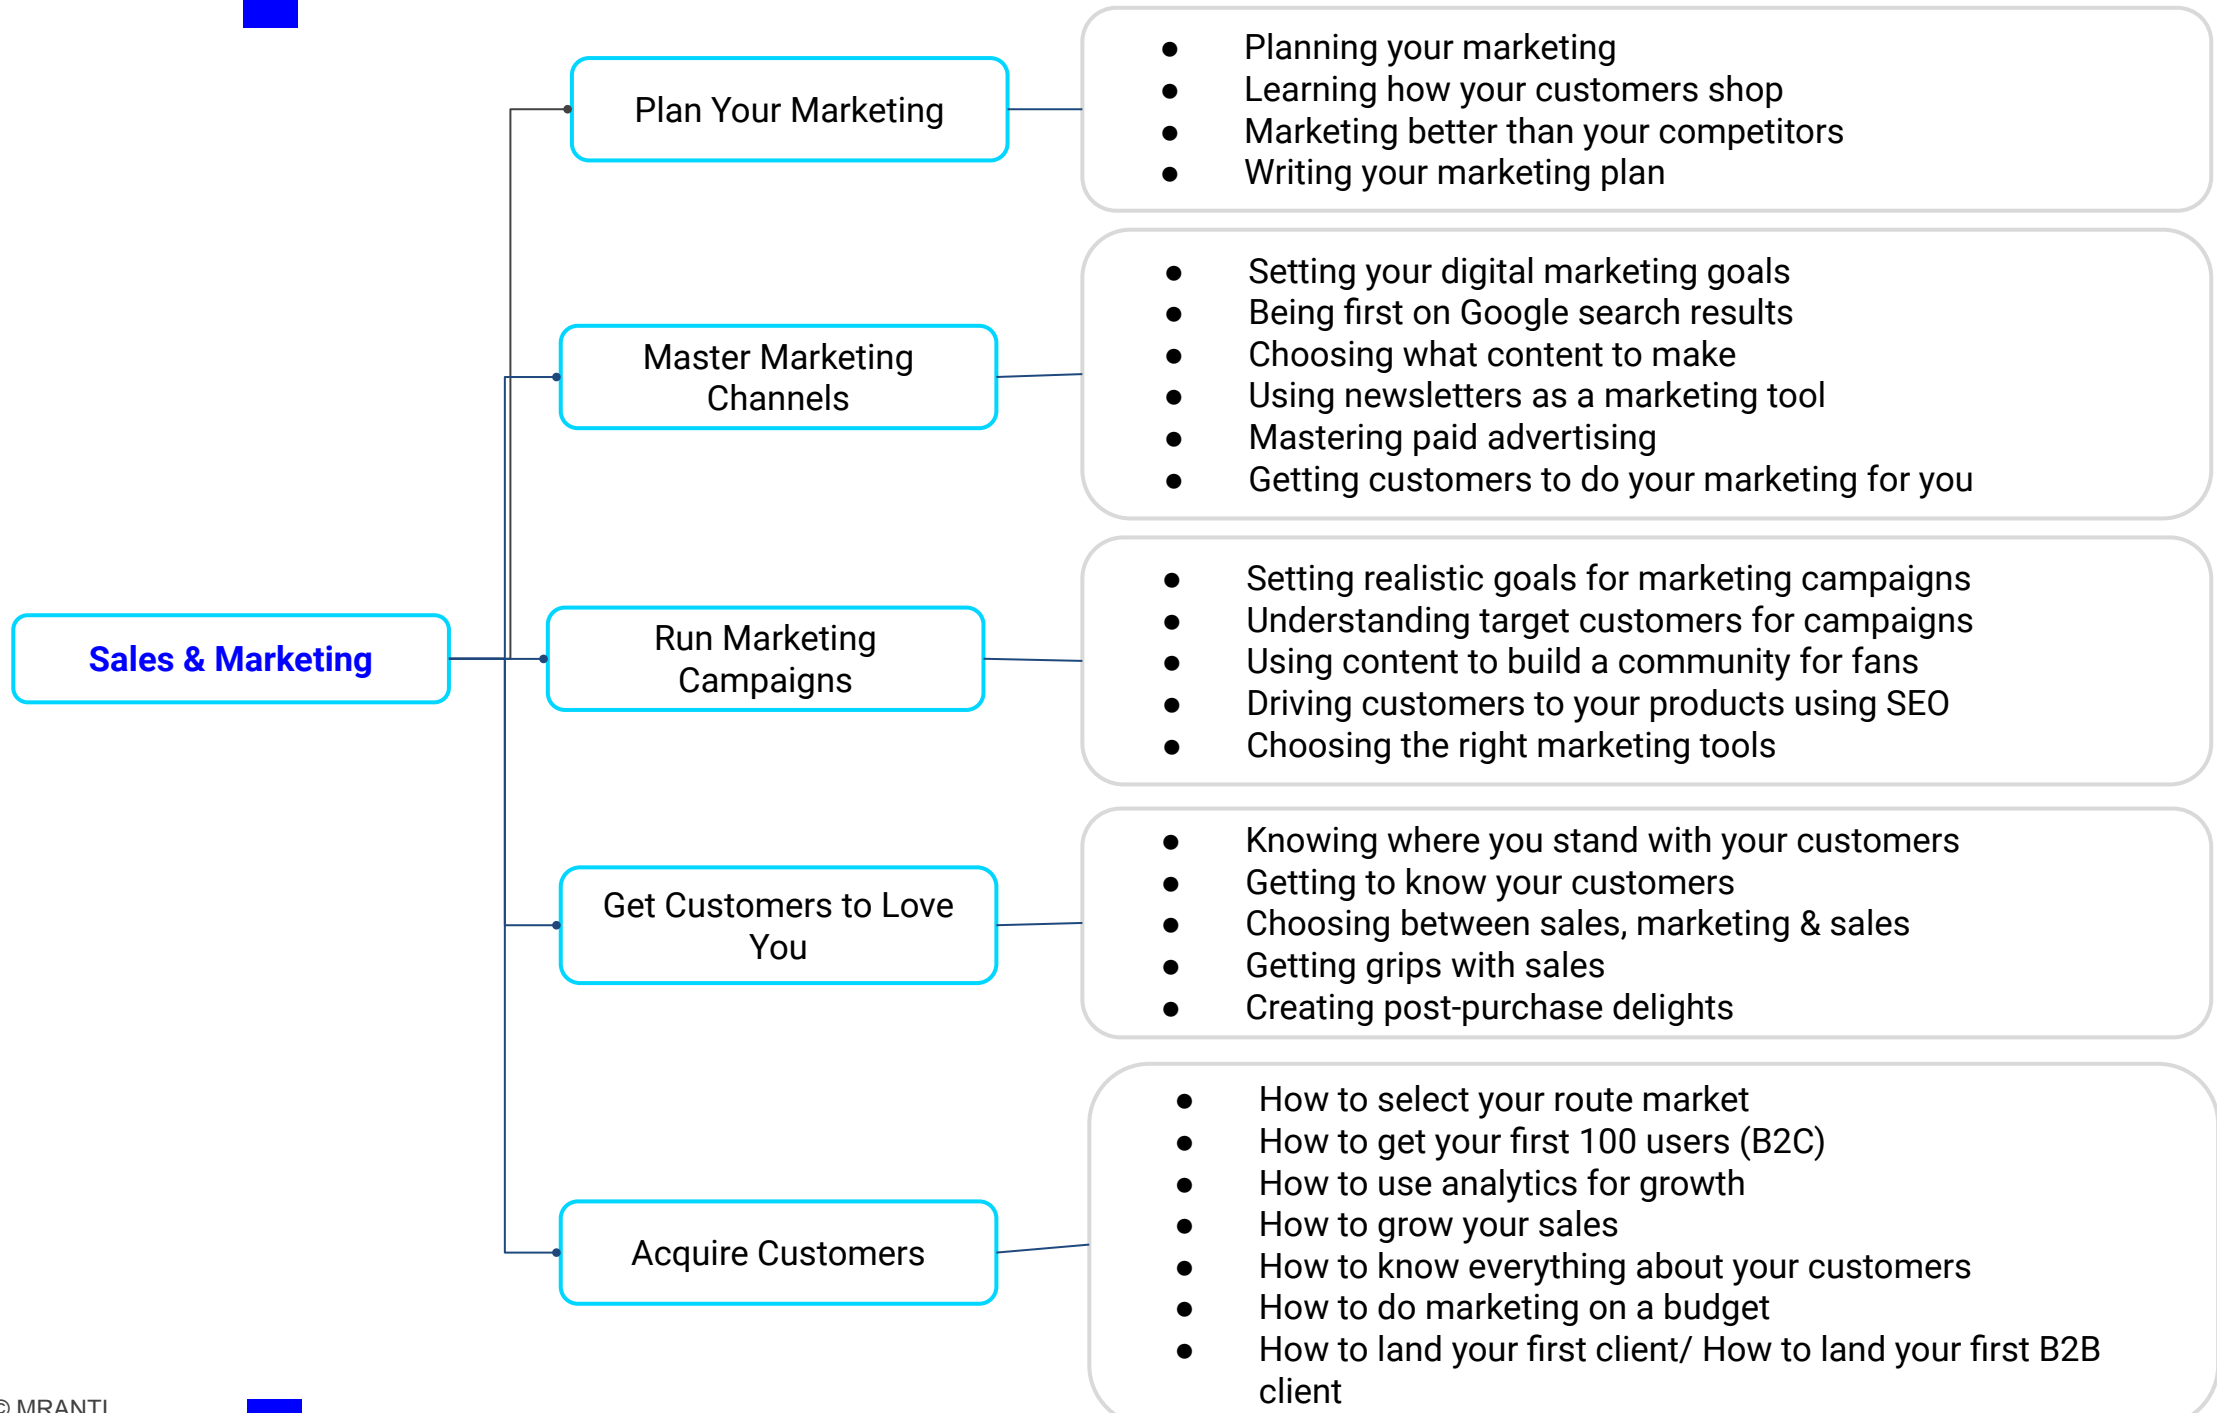

## Digital Business Academy

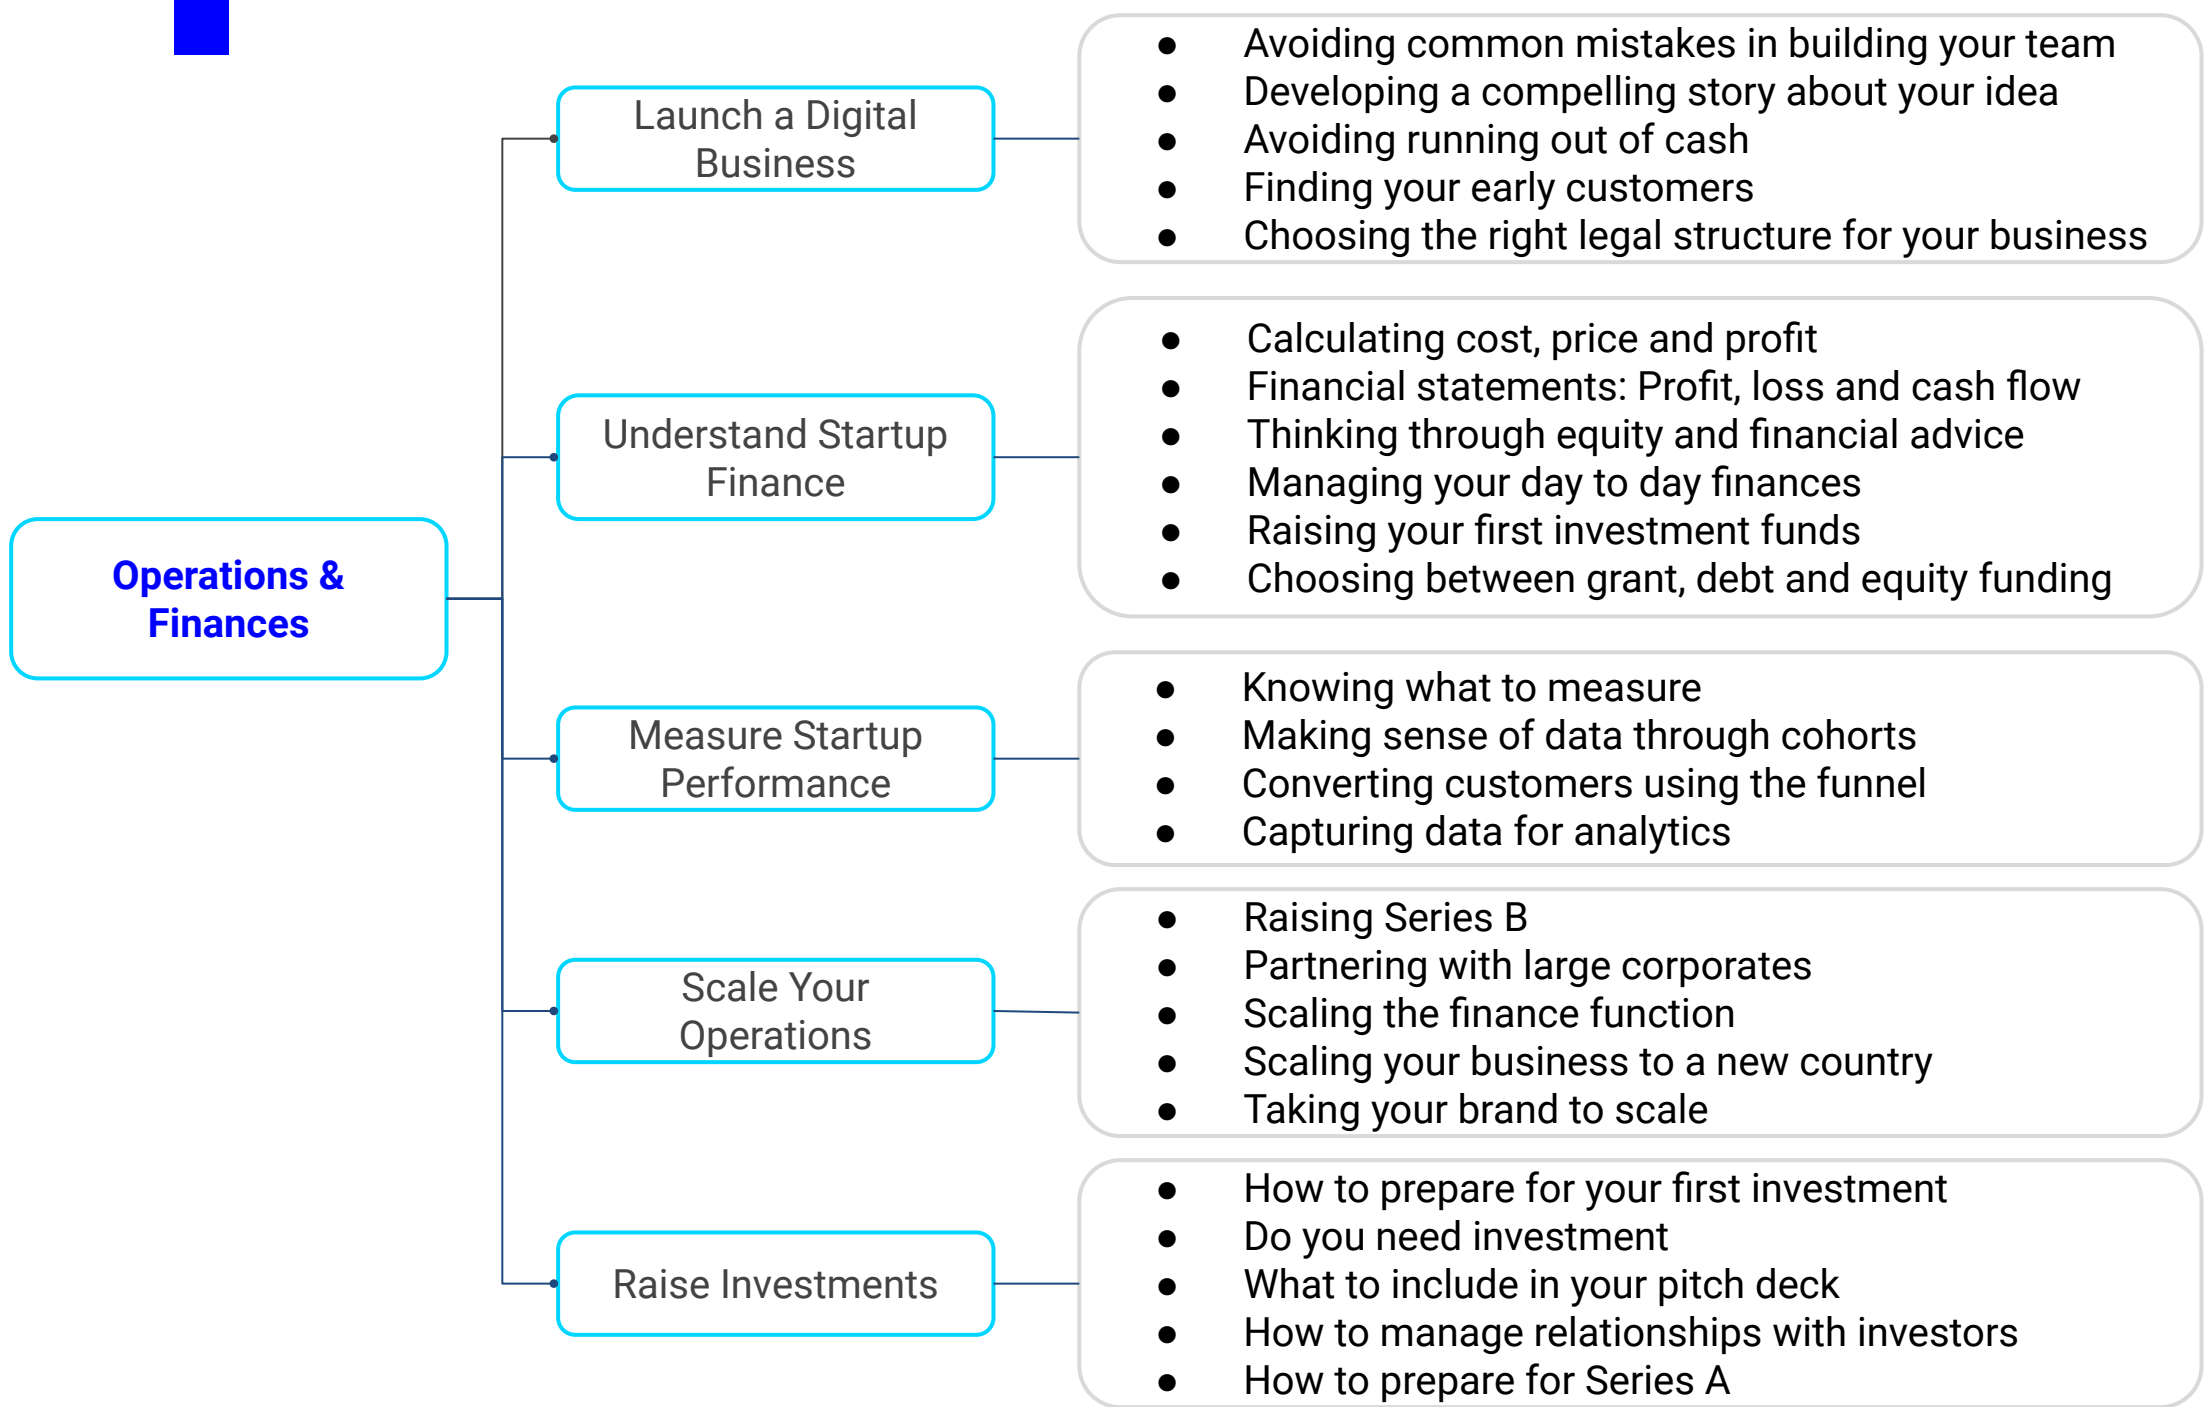

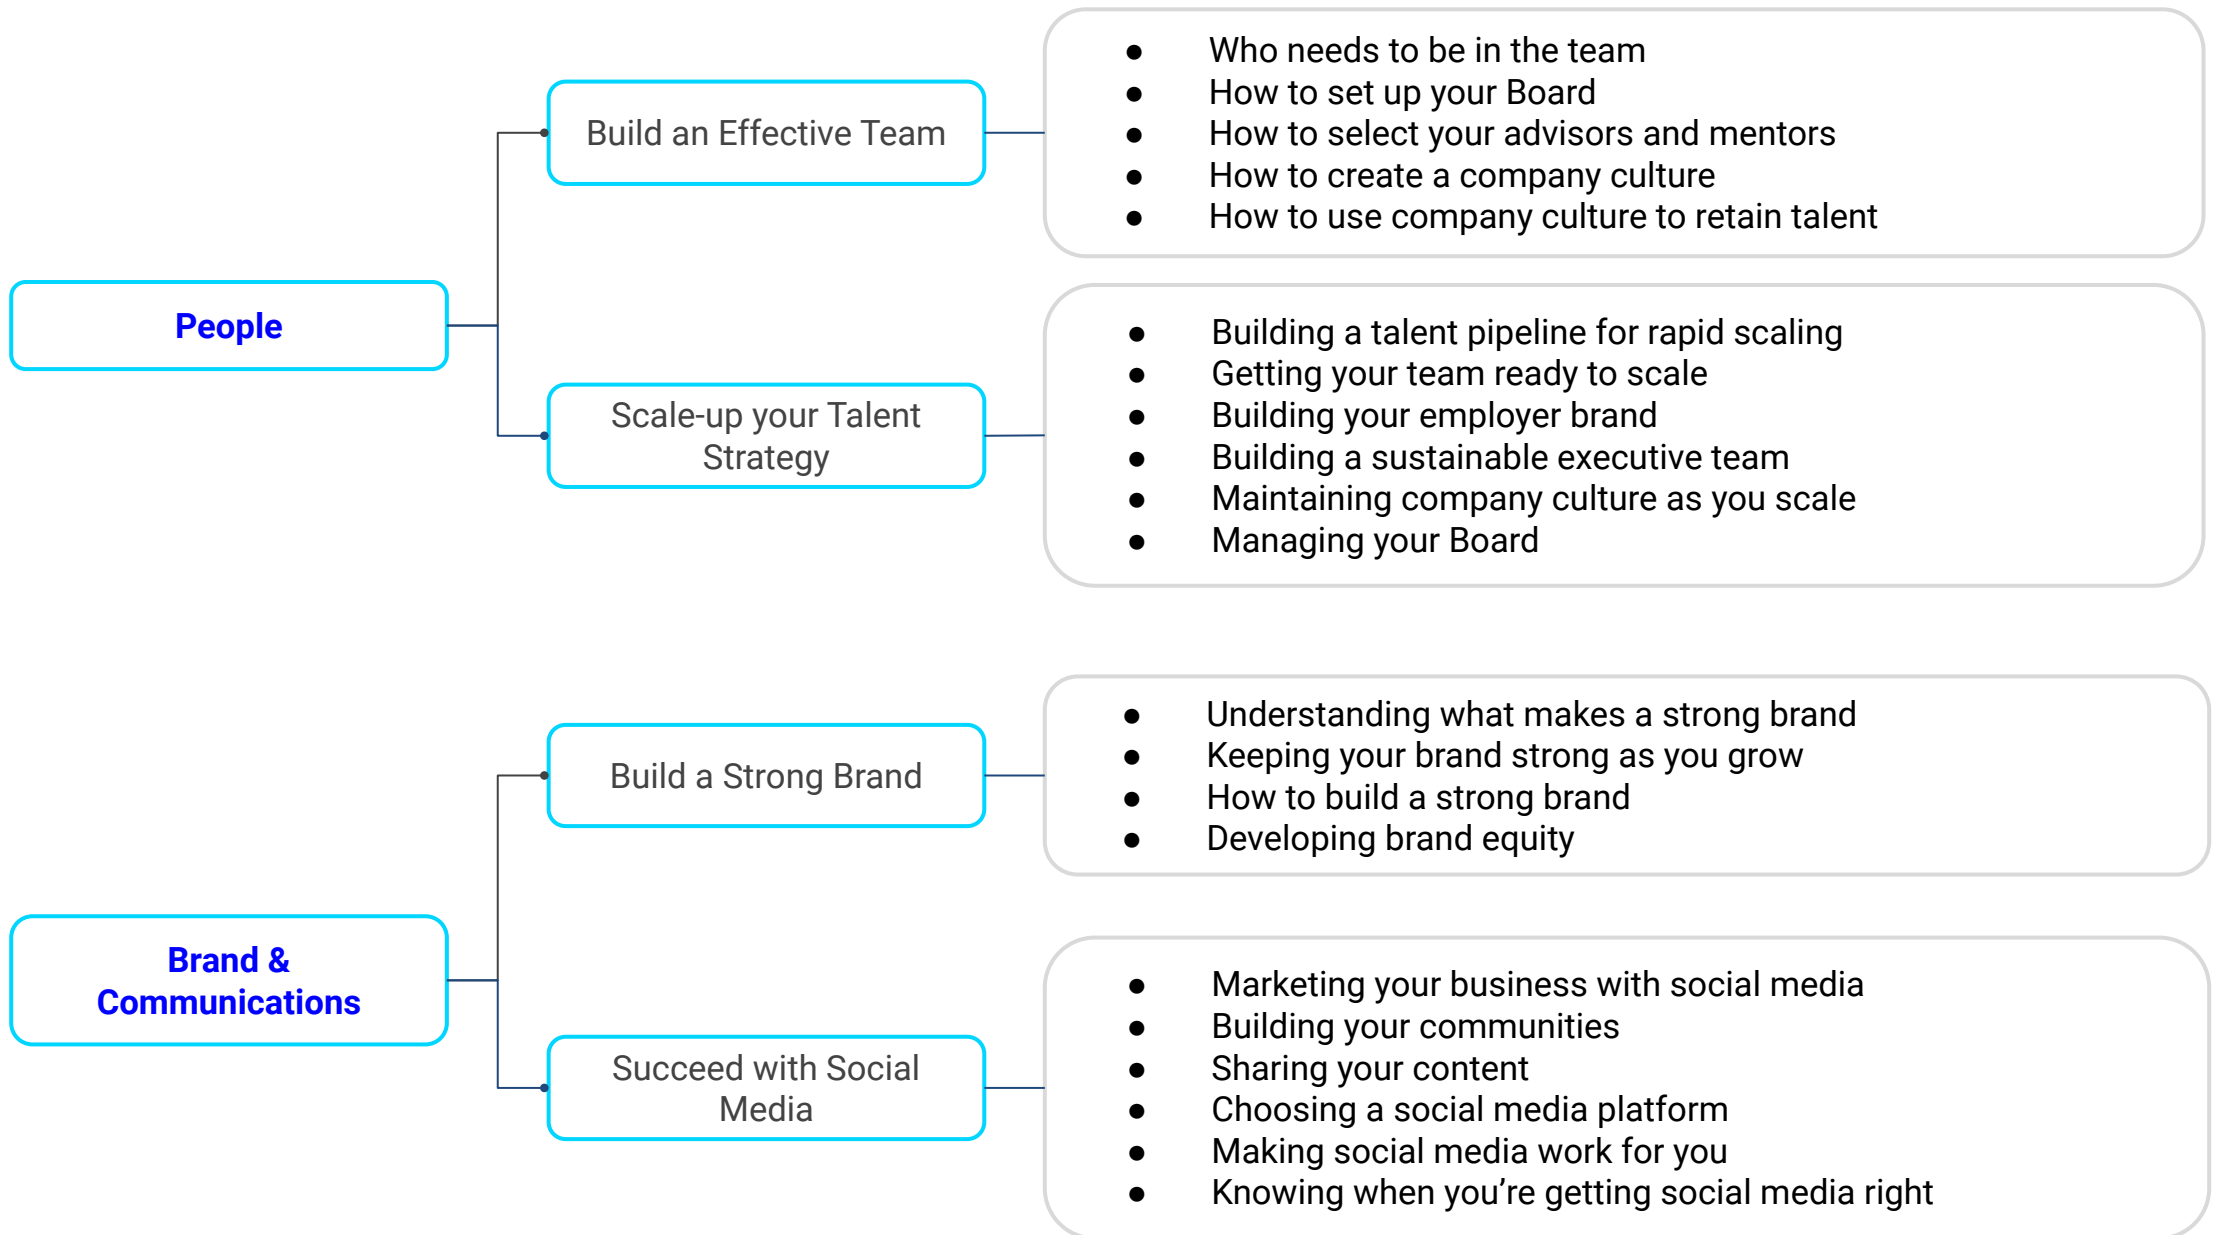

# DBA Content Details

# Actionable Strategy Coaching & Tools

- Visual toolbox and cloud-based platform for **strategy** and **decision-making** in startups and growth companies.
- A **collaborative platform** for business owners and business advisors to **attain focus, set agenda, make decisions** and **take actions**.
- Paid programme with complimentary introductory package.

## Address 4 main **business challenges**

- Business Concept
- Customer Relations
- Organisation
- Operations

## **Make decision** and **take action** in **5 focus areas of each challenge**

Status Assessment

Opportunities Assessment

Skills Assessment

# Thank You
