

transformative COACHING

Strategy. Curiosity. Empathy.

José Piñero is a business and career coach helping top professionals build better careers and lives. As a former corporate executive with more than 25 years of experience in Fortune 100 companies, José helps clients discover their strengths and assets, identify and manage their blind spots, and use their competencies to achieve measurable results. He supports his clients in defining “success” in their journey of discovery, exploration, and achievement.

His clients feel supported, heard, and valued. José is naturally curious, which empowers his clients to have breakthroughs and generate insights they had not experienced before. He works with professionals to achieve tangible results in their professional and personal lives, including career acceleration, improved relationships with managers, and a greater sense of accomplishment and personal satisfaction.

José Piñero
