Letter of Appreciation – CDRS help with ServePakistan Medical Missions

The Islamic Medical Association of North America (IMANA) graciously thanks Comprehensive Disaster Response Services (CDRS) for their collaboration in providing a home for its ServePakistan Medical Mission at their Mother and Child Clinic in Rahat Kot, Swat, Pakistan.

For this partnership that began in 2019, CDRS has helped with the coordination and successful facilitation of seven (7) international physician volunteer teams thus far. These IMANA-funded medical missions target the challenges of a scarcely resourced health care system and aid the local populations, primarily mothers and children, in getting much-needed healthcare to improve their well-being. Till date, an astounding 13,733 patients have benefitted from the free healthcare services in the rural community.

IMANA appreciates the efficient work of the CDRS team and looks forward to their continued support in creating a lasting impact in the lives of those in the northern regions of Pakistan.

Sincerely,

ISMAIL MEHR, MD

Chair IMANA Medical Relief Committee
