DESIGN LIGHTING MUSIC

French creator of connected and musical lighting, Jaune Fabrique imagines lamps that are creative in their design and innovative in the wealth of uses they offer.

Through our creations, we seek harmony between design, light and music. We celebrate craftsmanship, color, attention to detail and the timelessness of curves.

Our objects are made to spaces and experiences builders, to those who love music, beautiful objects and innovation. To everyone looking for well-being and comfort in everyday objects, without compromising the aesthetics of their decor.

As a young brand, manufacturer and creator, we combine our technological know-how with the sensibility and expertise of French designers, architects and craftsmen.

TABLE LAMPS

FIRST COLLECTION

Connected lamps with minimalist and elegant design.

They illuminate from a warm, soft white at low intensity to a neutral white at high intensity.

In their musical edition, they discreetly integrate a connected loud-speaker to play music and enrich the atmosphere in sound and light.

Ideal in bedrooms, office spaces, and living rooms.

Light at variable intensities
Connected speaker in option
Synchronization of lighting and sound

ALTO

DESIGNER **PAUL LOUDA**

It's minimalist forms are the result of multiple metal shapings and hand finishings. Alto carries two rotating brushed cylinders that harmonize with its base. A touch of brilliance when illuminated, slightly veiled by it's high perched hat.

DESIGN

H 36cm, ø lampshade 25 cm
Aluminum body, lacquered painting, brushed gold or nickel-tinted cylinders and stem.
Diffuser in opaline white PMMA.

LIGHT

Variable Dim to Warm LED lighting:
0 to 1000 lm - 1800K to 2700K, CRI 90

USAGE

The rotation of its cylinders and the tactile zone at the top of its base offer a precise control of light intensity, and sound volume.

Remote control with the app.

SOUND (OPTIONAL)

25 Watts, up to ~35 m²
1 speaker 3"
2 bass passive radiators 2"
Wifi, Bluetooth, Multiroom
Power plug 110V / 230V

PUBLIC PRICE

Connected lamp : 408€ excl. tax
Connected speaker version : 575€ excl. tax

PICCOLO

DESIGNER **THIBAUT LERAILLER**

It's metal cylindrical base seems to glide through it's slightly floating tilted blown glass lampshade. A soft and neutral white when dimmed that illuminates to a warm and cozy light.

DESIGN

H 30 cm, ø lampshade 23 cm
Aluminum body, brass rotative knobs, lacquered painting
Opal hand blown glass lampshade

LIGHT

Variable Dim to Warm LED lighting:
0 to 1000 lm - 1800K to 2700K, CRI 90

USAGE

The rotation of its buttons and the tactile zone located on it's dome offer a precise control of light intensity, and sound volume.

Remote control with the app.

SOUND (OPTIONAL)

20W, up to ~25 m²
1 speaker 2.5"
2 bass passive radiators 2"
Wifi, Bluetooth, Multiroom

PUBLIC PRICE

Connected lamp : 325€ excl. tax
Connected speaker version : 457€ excl. tax

GRANDE ALTO

DESIGNER **PAUL LOUDA**

Grande Alto is an iconic HiFi lamp designed for large spaces. A minimalist object recognized by its tilted hat and massive rotating cylinders. A french made technological gem that features a breathtaking high-fidelity connected sound system.

DESIGN

H 70cm, ø lampshade 50 cm
Aluminum body, lacquered painting, brushed gold or nickel-tinted cylinders and stem.
Diffuser in opaline white PMMA.

LIGHT

Variable Dim to Warm LED lighting:
0 to 1200 lm - 1800K to 2700K, CRI 90

USAGE

The rotation of its cylinders and the tactile zone at the top of its base offer a precise control of light intensity, and sound volume.

Remote control with the app.

SOUND

150 Watts, up to ~100 m² with 360 resonance
1 Woofer 5", 2 Middles 3", 2 Tweeters 1"
WiFi, Bluetooth, Multiroom, Jack IN

PUBLIC PRICE

2.158€ excl. tax

INNOVATIVE LIGHTING

An customizable LED lighting created for all of our lamps. A Warm and soft white at low intensity for decoration, it becomes neutral at high intensity for reading, working and lighting.

1800 -2700 Kelvin, 0 to 1200 lumens, CRI 90

USAGE

- Rotating button to control intensity
- Remote control via our application, and main smart home apps
- Synchronization possible between groups of lamps

CONNECTED SPEAKER

In the sound edition, our lamps integrate a compact connected loudspeaker with fine and powerful acoustics, developed by an expert acoustician.

Impeccable sound quality balanced at every frequency and powerful bass, thanks to multiple, well-concealed drivers.

USAGE

- Tactile Play / Pause function, rotating button for volume
- Bluetooth streaming from any app on your phone
- WiFi streaming with spotify connect and airplay II
- Multiroom : Synchronisation possible between groups of lamps

PROFES- SIONALS

IN HOTEL ROOMS

- A QR Code for easy bluetooth audio connection for guests
- Finely curated playlist suggestions
- Possibility of limiting in-room sound volume

IN COMMON SPACES

(Lobbies, SPA, offices...)

- Dedicated app to control lighting and music remotely for all of your lamps
- Synchronization by lamp group

SUR-MESURE

For your projects, we combine our know-how with your creativity to enrich the client experience. Installation adapted to your needs, personalized design and finishes available, functions tailored for you...

THEY TRUST US

MOLITOR

WELLNESS & ART DE VIVRE

RIVE GAUCHE

SAVOIR-FAIRE

FABRICATION FRANÇAISE

The manufacture of our lamps is entirely controlled and carried out mainly in France: from design to electronics and assembly. We are committed to working with sustainable materials and to innovating in a reasoned way: all our parts are replaceable, 100% reparability.

CONNECTIVITY

All of our lamps offer a physical and digital usage. A simple and fun control at your fingertips, to functions moderns and connected, thanks to our application and compatibility with principal actors of a connected home (Apple homekit, Google Home, Alexa).

POWERFUL ACOUSTICS

In collaborating with an acoustician engineer doted for his work in major acoustic companies coupled with the creation of tailor made speakers, each lamp is conceived and tuned to sound right and astound it's audience

THE DESIGNERS

PAUL LOUDA

A young designer brimming with curiosity. Paul studied product and space design before moving on industrial design projects. He now works for the prestigious french designer Noé Duchaufour Lawrance where he has found a taste for craftsmanship and exceptional pieces.

THIBAUT LERAILLER

Thibault Lerailier is an award-winning French designer, founder and artistic director of Punctuate Design. He has worked in Paris, Hong Kong, New York and now Montreal where he owns his studio. Thibault specializes in designing products with a positive impact on our planet.

NEIL POULTON

Settled in Paris since the last century, Neil Poulton is a designer from Scotland. He is known for his many designs for Italian lighting company Artemide - and for the bright orange Lacle Rugged hard drive, which has sold over 6 million copies to date.

THE ACOUSTICIAN

FLORENT GATIN

Florent Gatin is a graduate engineer from INSA, an expert and passionate about industrial and acoustic design. He was trained by Bang & Olufsen before working as a consultant for various HiFi brands, and then setting up his own. Florent uses the volume of air sealed in our tubes as a resonance chamber for our custom speakers, driven by digital amplification.

EXPRESSIVE AND INTEMPORAL FINISHES

We have conceived four lacquered paint colors in matte or glossy and two shades of brushed metal finishes in Île-de-France. In customizable projects, custom finishes can be created endlessly.
