

A new standard of Payroll

PayCaptain brings together Payroll, Banking and Financial Wellness, replacing (or enhancing) a company's legacy payroll and payment processing systems.

PayCaptain improves the 'getting paid' experience where employees can take control of their pay and improve their financial wellbeing.

With PayCaptain the payroll function is optimised and can be more innovative to deliver greater value to a company and their employees.

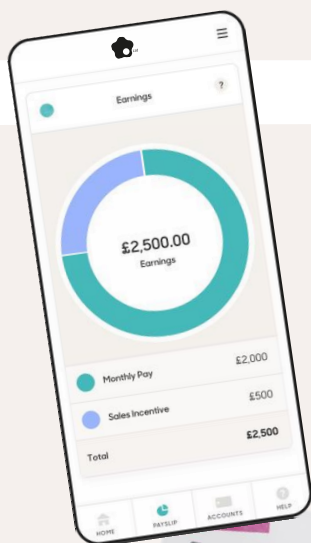

PayCaptain embraces the latest technologies and banking capabilities to enable a highly efficient automated payroll process and outsourced payroll bureau service. Unlocking Innovation for pay & reward.

Employees have greater choice for how, when and where they receive their pay – including the options to access emergency cash and automated weekly wage advances funded by PayCaptain at no charge to employees.

Financial Wellbeing Tools and personalised guidance to help employees to manage their money well are built into the multi-language mobile app.

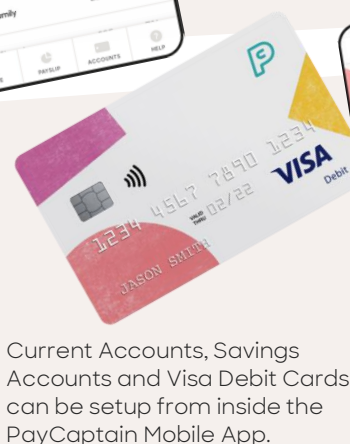

Making payroll more inclusive and accessible.

PayCaptain allows the complete payroll process to be on brand and aligned with company values.

Tax Free Payroll Giving is built into the app with options for employer matching.

The experience of getting paid is radically improved.

Current Accounts, Savings Accounts and Visa Debit Cards can be setup from inside the PayCaptain Mobile App.

This extra flexibility allows a more effective way to manage personal finances.

PayCaptain replaces the slow legacy BACS processing with Faster Payments.

Designed to seamlessly integrate with existing HR, T&A and Finance applications.

PayCaptain went live in Summer 2020, founded by Simon Bocca (former COO and founding team member of global Hospitality HR & Payroll Technology company, Fourth).

PayCaptain is registered with the Financial Conduct Authority, operates as a B Corporation and is listed on The Crown Commercial Service Digital Marketplace.

PayCaptain is for innovative organisations with strong employer brands that recognise the importance of good financial wellbeing in their workforce.
