On September 15, 2023, the Board of Trustees of the Trust approved a change in principal underwriter of the Fund.

Effective September 22, 2023, Ultimus Fund Distributors, LLC has replaced Vigilant Distributors, LLC as the Fund’s principal underwriter. Accordingly, all references in the Prospectus and SAI to “Vigilant Distributors, LLC” as the Fund’s principal underwriter are hereby deleted and replaced with references to “Ultimus Fund Distributors, LLC.” All references to the Fund’s “distributor” or “underwriter” are deemed to be references to Ultimus Fund Distributors, LLC (“Ultimus Fund Distributors”). The address of Ultimus Fund Distributors is 225 Pictoria Drive, Suite 450, Cincinnati, OH 45246.

**SUMMARY SECTION**

**Investment Objective**

The Sphere 500 Climate Fund (the “Fund”) seeks to track the performance, before fees and expenses, of the Sphere 500 Fossil Free Index™ (the “Index”).

**Fees and Expenses of the Fund**

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below.

<table>
<thead>
<tr>
<th>Description</th>

<td><strong>Total Annual Fund Operating Expenses</strong></td>
<td>0.07%</td>
</tr>
</tbody>
</table>

(1) Restated to reflect current fees. No shareholder servicing fees are currently being paid by the Fund, and there are no plans to impose these fees as of the date of this Prospectus.

**Expense Example**

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<table>
<thead>

<tr>
<td>Ten Years</td>
<td>$90</td>
</tr>
</tbody>
</table>

**Portfolio Turnover**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in the annual fund operating expenses or in the Example, affect the Fund’s performance. For the fiscal period October 4, 2021 (commencement of operations) through September 30, 2022, the portfolio turnover rate for the Fund was 14% of the average value of its portfolio.

**Principal Investment Strategies**

The Fund employs a “passive management” (or indexing) investment approach designed to track the total return performance, before fees and expenses, of the Index. The Index is designed to reflect the performance of large companies listed on U.S. exchanges while excluding fossil fuel, utility and other companies with material climate-related risks. More information about the Index can be found at www.bitadata.com/pages/SPFFXI.
The Index

The Index is constructed beginning with the largest 500 U.S. companies that trade on regulated U.S. exchanges by market capitalization. As of December 31, 2022, the market capitalization of companies in the Index ranged from approximately $10.2 billion to $2.1 trillion. The index administrator, BITA GmbH (the “Index Administrator”), then eliminates companies from this investable universe using data obtained from As You Sow, an unaffiliated non-profit organization that promotes environmental responsibility through shareholder advocacy. As You Sow eliminates companies from the Index based on their risk profile of being exposed to the fossil fuel industry or other exclusionary screens.

On a periodic basis, As You Sow publishes the current uninvestable lists, which are principally comprised of companies that contribute to climate change through fossil fuel activities. As You Sow designates a company as an uninvestable fossil fuel company if the company is engaged in producing, distributing, or refining fossil fuels; holding reserves of fossil fuels; is a utility that is primarily fossil fuel-powered, or is a producer of equipment for any of the above (i.e., companies that engage in oil, gas, or coal production, and downstream activities). The Index also excludes other uninvestable companies as determined from time to time by As You Sow.

If a company is included in As You Sow’s uninvestable list, that company is not eligible for inclusion in the Index. The Index Administrator then re-weights the remaining companies on a free-float market capitalization basis. A company’s free float-adjusted market capitalization is calculated by multiplying the number of shares readily available in the market by the price of such shares.

The Index is typically composed of approximately 400-450 companies and is rebalanced and reconstituted quarterly as of close on the third Friday of March, June, September, and December, based on data as of the close of business on the Friday of such reconstitution month. As of December 31, 2022 the Index was composed of 413 companies.

The Fund’s Investment Strategy

The Fund attempts to invest all, or substantially all, of its assets in the component securities that make up the Index in weightings that approximate the relative composition of the Index. By investing in component securities of the Index, under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in securities issued by companies that do not (1) derive any revenue from the sale of fossil fuels, (2) hold fossil fuel related assets or reserves, (3) use fossil fuels for power generation, or (4) produce fossil fuel-related equipment. By excluding companies that engage in these fossil fuel activities, the Index, and therefore the Fund, are not exposed to companies with material climate change risk. The Fund may invest in companies that use fossil fuel as part of their business or have used fossil fuels in the past.

Reflection Asset Management, LLC (the “Adviser”), serves as the investment adviser for the Fund and is responsible for trading on behalf of the Fund in line with the Index. Consistent with the Index, the Adviser rebalances the Fund quarterly. The Fund will generally use a “replication” strategy to achieve its investment objective, meaning it will invest in all the component securities of the Index in approximately the same weightings as in the Index. This is referred to as a passive or indexing approach to investing.

To the extent the Index concentrates (i.e., holds more than 25% of its total assets) in the securities of a particular industry or group of related industries, the Fund will concentrate its investments to approximately the same extent as the Index. As of the fiscal period ended September 30, 2022, the Index was not concentrated in any industry or group of industries; however, the Index, and therefore the Fund, had significant exposure to the information technology sector. As of the fiscal period September 30, 2022, the Fund had invested 25.5% of its net assets in the information technology sector.
Climate-Focused Investing

By investing in the Index, the Fund will invest in companies that do not contribute to climate change in a material way through their fossil fuel activities. According to the U.S. Energy Information Administration, in 2020, 73% of greenhouse gas emissions came from burning fossil fuels. The Fund also seeks to vote proxies in a climate-focused way, such as voting for proposals to reduce or eliminate greenhouse gas emissions, using voting guidelines from As You Vote, an affiliate of As You Sow.

Principal Risks

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, you could lose all or a portion of your investment in the Fund over long or even short periods of time. The principal risks of investing in the Fund are:

• Climate Investing Considerations Risk. Considerations related to climate risk, such as environmental criteria (e.g., fossil fuel screens), applied to the Index’s construction may limit the number of investment opportunities available to the Fund, and as a result, at times, the Fund may underperform funds that are not subject to similar investment considerations. For example, the Index may exclude certain securities due to climate-focused considerations when other investment considerations would suggest that investing in such securities would be advantageous. The Fund may also underperform funds that invest in the energy and utilities sectors, particularly in times of rising oil, gas and energy prices.

• General Market Risk; Recent Market Events. The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. U.S. and international markets have experienced volatility in recent months and years due to a number of economic, political and global macro factors, including rising inflation, the war between Russia and Ukraine and the impact of the coronavirus (COVID-19) global pandemic. While U.S. and global economies are recovering from the effects of COVID-19, labor shortages and the inability to meet consumer demand have restricted growth. Uncertainties regarding the level of central banks’ interest rate increases, political events, the Russia-Ukraine conflict, trade tensions and the possibility of a national or global recession have also contributed to market volatility.

Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region might adversely impact issuers in a different country or region. Continuing market volatility as a result of recent market conditions or other events may have adverse effects on the Fund’s returns. The Adviser will monitor developments and seek to manage the Fund in a manner consistent with achieving the Fund’s investment objective, but there can be no assurance that they will be successful in doing so.

• Small Fund Risk. There can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board of Trustees may determine to liquidate the Fund. Liquidation of the Fund can be initiated without shareholder approval by the Board of Trustees if it determines that liquidation is in the best interest of shareholders. As a result, the timing of the Fund's liquidation may not be favorable.

• Common Stock Risk. Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change.
• **Large-Capitalization Risk.** Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in technology and consumer tastes. Larger companies also may not be able to attain the high growth rates of successful smaller companies.

• **Sector Risk.** To the extent the Fund invests more heavily in particular sectors of the economy, its performance will be especially sensitive to developments that significantly affect those sectors.
  
  ◦ *Information Technology Sector Risk.* Market or economic factors impacting information technology companies and companies that rely heavily on technological advances could have a significant effect on the value of the Fund’s investments. The value of stocks of information technology companies and companies that rely heavily on technology is particularly vulnerable to rapid changes in technology product cycles, rapid product obsolescence, government regulation and competition, both domestically and internationally, including competition from foreign competitors with lower production costs. Stocks of information technology companies and companies that rely heavily on technology, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Information technology companies are heavily dependent on patent and intellectual property rights, the loss or impairment of which may adversely affect profitability.

• **Passive Investment Risk.** The Fund is not actively managed and the Adviser would not sell a security due to current or projected underperformance of a security, industry or sector, unless that security is removed from the Index or the selling of shares of that security is otherwise required upon a reconstitution of the Index in accordance with the Index methodology. The Fund invests in securities included in the Index, regardless of their investment merits. The Fund does not take defensive positions under any market conditions, including conditions that are adverse to the performance of the Fund.

• **Index Calculation Risk.** There is no assurance that the Index Administrator will compile the Index accurately or that the Index will be reconstituted, rebalanced, calculated or disseminated accurately. The Index relies directly or indirectly on various sources of information to assess the criteria of issuers included in the Index, including information that may be based on assumptions and estimates. Neither the Fund, the Index Administrator, or the Adviser can offer assurances that the Index’s calculation methodology or sources of information will provide an accurate assessment of included issuers or a correct valuation of securities, nor can they guarantee the availability or timeliness of the production of the Index.

• **Limited Operating History Risk.** The Fund is a recently organized investment company with a limited operating history. As a result, prospective investors have a limited track record on which to base their investment decision.

• **Cybersecurity Risk.** With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund’s ability to calculate its net asset value (“NAV”), impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs.

• **Third Party Data Risk.** The composition of the Index, and consequently the Fund’s portfolio, is heavily dependent on information and data published by independent third parties (“Third Party Data”). When Third Party Data proves to be incorrect or incomplete, any decisions made in reliance thereon may lead to the inclusion or exclusion of securities from the Index that would have been
excluded or included had the Third Party Data been correct and complete. If the composition of the Index reflects such errors, the Fund’s portfolio can also be expected to reflect the errors.

- **Tracking Error Risk.** As with all index funds, the performance of the Fund and its Index may differ from each other for a variety of reasons. For example, the Fund incurs operating expenses and portfolio transaction costs not incurred by the Index. In addition, the Fund may not be fully invested in the securities of the Index at all times or may hold securities not included in the Index.

- **Operational Risk.** Operational risks include human error, changes in personnel, system changes, faults in communication, and failures in systems, technology, or processes. Various operational events or circumstances are outside the Adviser’s control, including instances at third parties. The Fund and the Adviser seek to reduce these operational risks through controls and procedures. However, these measures do not address every possible risk and may be inadequate to address these risks.

**Performance**

The bar chart and performance table below illustrate the risks and volatility of an investment in the Fund by showing the performance of the Fund since inception and by showing changes in how the Fund’s average annual returns for the one year and since inception periods compared with those of the Index and a broad measure of market performance. The Fund’s past performance, both before and after taxes, does not necessarily indicate how the Fund will perform in the future. Updated performance information is also available on the Fund’s website at www.oursphere.org/fund.

![Calendar Year Total Return as of December 31](image)

During the period of time shown in the bar chart, the highest return for a calendar quarter was 5.40% for the quarter ended December 31, 2022, and the lowest return for a calendar quarter was -15.97% for the quarter ended June 30, 2022.

* Effective November 14, 2022, the Fund changed its name from the Sphere 500 Fossil Free Fund to the Sphere 500 Climate Fund.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who are exempt from tax or hold their Fund shares through tax-deferred or other tax-advantaged arrangements such as 401(k) plans or individual retirement accounts (“IRAs”). In certain cases, the figure representing “Return After Taxes on Distributions and Sale of Fund Shares” may be higher than the other return figures for the same period. A higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax deduction that benefits the investor.

**Management of the Fund**

**Investment Adviser**

Reflection Asset Management, LLC serves as investment adviser to the Fund.

**Portfolio Manager**

Jason Britton, Chief Executive Officer and Portfolio Manager of the Adviser, is responsible for the day-to-day management of the Fund’s portfolio and has served as portfolio manager since the Fund’s inception in October 2021.

**Purchase and Sale of Fund Shares**

You may purchase or redeem Fund shares on any business day by written request via mail to: Sphere 500 Climate Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701, by telephone at 1-844-2SPHERE, by wire transfer or through a financial intermediary. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the intermediary directly. There is no minimum initial investment in the Fund and additional investments may be made in any amount.

**Tax Information**

The Fund’s distributions will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred or other tax-advantaged arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of monies from such tax-deferred arrangements.
Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund, the Adviser, and their related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

ADDITIONAL INFORMATION ABOUT THE FUND

Additional Information about the Fund’s Investment Objective and Strategy. The Fund’s investment objective has been adopted as a non-fundamental investment policy and may be changed without shareholder approval upon Board approval and 60 days’ written notice to shareholders. However, the Fund will not make any change in its 80% investment policy regarding the exclusion of fossil fuel companies without first changing the Fund’s name and providing shareholders with at least 60 days’ prior written notice.

To the extent the Index concentrates (i.e., holds more than 25% of its total assets) in the securities of a particular industry or group of related industries, the Fund will concentrate its investments to approximately the same extent as the Index. As of the fiscal period ended September 30, 2022, the Index was not concentrated in any industry or group of industries; however, the Index, and therefore the Fund, had significant exposure to the information technology sector. The Fund may invest in companies that use fossil fuel as part of their business or have used fossil fuels in the past.

Index/Trademark Licenses/Disclaimers

The Index is calculated, administered and disseminated by BITA GmbH, which is a Germany-based financial technology company and Index Administrator. Neither the Adviser, the Fund’s sponsor (Our Sphere, Inc.™ (“Sphere” or the “Fund Sponsor”), nor any of their affiliates has any rights to influence the selection of the securities in the Index. The Index Administrator is not affiliated with the Trust, the Adviser, Sphere, or the Distributor.

The Index is owned by Sphere, and is calculated, administered, and disseminated by the Index Administrator via license. The Adviser licenses use of the Index from Sphere. Sphere licenses use of the data from As You Sow. Sphere is a registered Delaware Public Benefit Corporation whose mission is to educate the public about climate change. More information about Sphere is included in the “Fund Sponsor” section below. The Adviser has a minority economic ownership interest in the Fund Sponsor.

Additional Principal Risk Information

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, you could lose all or a portion of your investment in the Fund. The following principal risks are applicable to investments in the Fund:

- **Climate Investing Considerations Risk.** Considerations related to climate risk, such as environmental criteria (e.g., fossil fuel screens), applied to the Index’s construction may limit the number of investment opportunities available to the Fund, and as a result, at times, the Fund may underperform funds that are not subject to similar investment considerations. For example, the Index may exclude certain securities due to climate-focused considerations when other investment considerations would suggest that investing in such securities would be advantageous. The Fund may also underperform funds that invest in the energy and utilities sectors, particularly in times of rising oil, gas and energy prices.
• **General Market Risk; Recent Market Events.** The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. U.S. and international markets have experienced volatility in recent months and years due to a number of economic, political and global macro factors, including rising inflation, the war between Russia and Ukraine and the impact of COVID-19. While U.S. and global economies are recovering from the effects of COVID-19, labor shortages and the inability to meet consumer demand have restricted growth. Uncertainties regarding the level of central banks’ interest rate increases, political events, the Russia-Ukraine conflict, trade tensions and the possibility of a national or global recession have also contributed to market volatility.

Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region might adversely impact issuers in a different country or region. In particular, a rise in protectionist trade policies, slowing global economic growth, risks associated with epidemic and pandemic diseases, risks surrounding the uncertainty of the UK’s economy, the risk of trade disputes, and the possibility of changes to some international trade agreements, could affect the economies of many nations, including the United States, in ways that cannot necessarily be foreseen at the present time. Continuing market volatility as a result of recent market conditions or other events may have adverse effects on your account. The Adviser will monitor developments and seek to manage the Fund in a manner consistent with achieving the Fund’s investment objective, but there can be no assurance that it will be successful in doing so.

• **Small Fund Risk.** There can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board of Trustees may determine to liquidate the Fund. Liquidation of the Fund can be initiated without shareholder approval by the Board of Trustees if it determines that liquidation is in the best interest of shareholders. As a result, the timing of the Fund's liquidation may not be favorable. In addition, should the Fund not grow to an economically viable size, it may experience greater tracking error to the Index than it otherwise would at higher asset levels.

• **Common Stock Risk.** As with all equity securities, common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and investor perceptions of their issuers change. These investor perceptions are based on various and unpredictable factors including: expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises. If you held common stock, or common stock equivalents, of any given issuer, you would generally be exposed to greater risk than if you held preferred stocks and debt obligations of the issuer because common stockholders, or holders of equivalent interests, generally have inferior rights to receive payments from issuers in comparison with the rights of preferred stockholders, bondholders and other creditors of such issuers.

• **Large-Capitalization Risk.** Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in technology and consumer tastes. Larger companies also may not be able to attain the high growth rates of successful smaller companies. If valuations of large-capitalization companies appear to be greatly out of proportion to the valuations of small- or medium-capitalization companies, investors may migrate to the stocks of small- and medium-sized companies.
• **Sector Risk.** To the extent the Fund invests more heavily in particular sectors of the economy, its performance will be especially sensitive to developments that significantly affect those sectors.

  ◦ **Information Technology Sector Risk.** The Fund may invest in companies in the information technology sector, and therefore the performance of the Fund could be negatively impacted by events affecting this sector. Market or economic factors impacting information technology companies and companies that rely heavily on technological advances could have a significant effect on the value of the Fund’s investments. The value of stocks of information technology companies and companies that rely heavily on technology is particularly vulnerable to rapid changes in technology product cycles, rapid product obsolescence, government regulation and competition, both domestically and internationally, including competition from foreign competitors with lower production costs. Stocks of information technology companies and companies that rely heavily on technology, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Information technology companies are heavily dependent on patent and intellectual property rights, the loss or impairment of which may adversely affect profitability. Additionally, companies in the information technology sector may face dramatic and often unpredictable changes in growth rates and competition for the services of qualified personnel.

• **Passive Investment Risk.** The Fund is not actively managed and the Adviser would not sell a security due to current or projected underperformance of a security, industry or sector, unless that security is removed from the Index or the selling of shares of that security is otherwise required upon a reconstitution of the Index in accordance with the Index methodology. Other than in response to a trigger if set forth in the Fund’s applicable Index methodology, the Fund invests in securities included in, or representative of securities included in the Index regardless of their investment merits. The Fund does not take defensive positions under any market conditions, including conditions that are adverse to the performance of the Fund. The returns from the types of securities in which the Fund invests may underperform returns from the various general securities markets or different asset classes. Different types of securities (for example, large-, mid- and small-capitalization stocks) tend to go through cycles of doing better – or worse – than the general securities markets. In the past, these periods have lasted for as long as several years.

• **Index Calculation Risk.** There is no assurance that the Index Administrator will compile the Index accurately or that the Index will be reconstituted, rebalanced, calculated or disseminated accurately. The Index relies directly or indirectly on various sources of information to assess the criteria of issuers included in the Index, including information that may be based on assumptions and estimates. Neither the Fund, the Index Administrator, or the Adviser can offer assurances that the Index’s calculation methodology or sources of information will provide an accurate assessment of included issuers or a correct valuation of securities, nor can they guarantee the availability or timeliness of the production of the Index.

• **Limited Operating History Risk.** The Fund is a recently organized investment company with a limited operating history. As a result, prospective investors have a limited track record or history on which to base their investment decision.

• **Cybersecurity Risk.** With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through “hacking” or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber attacks may also be carried out in a manner that does not
require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund’s ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. Similar adverse consequences could result from cyber incidents affecting issuers of securities in which the Fund invests, counterparties with which the Fund engages in transactions, governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers, insurance companies and other financial institutions (including financial intermediaries and service providers for shareholders) and other parties. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Fund’s service providers have established business continuity plans in the event of, and risk management systems to prevent, such cyber incidents, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders. As a result, the Fund and its shareholders could be negatively impacted.

- **Third Party Data Risk.** The composition of the Index, and consequently the Fund’s portfolio, is heavily dependent on proprietary Third Party Data. When Third Party Data proves to be incorrect or incomplete, any decisions made in reliance thereon may lead to the inclusion or exclusion of securities from the Index that would have been excluded or included had the Third Party Data been correct and complete. If the composition of the Index reflects such errors, the Fund’s portfolio can also be expected to reflect the errors.

- **Tracking Error Risk.** As with all index funds, the performance of the Fund and the Index may vary somewhat for a variety of reasons. For example, the Fund incurs operating expenses and portfolio transaction costs not incurred by the Index. In addition, the Fund may not be fully invested in the securities of the Index at all times or may hold securities not included in the Index. The use of sampling techniques may affect the Fund’s ability to achieve close correlation with the Index. The Fund may use a representative sampling strategy to achieve its investment objective, if the Adviser believes it is in the best interest of the Fund, which generally can be expected to produce a greater non-correlation risk.

- **Operational Risk.** Operational risks include human error, changes in personnel, system changes, faults in communication, and failures in systems, technology, or processes. Various operational events or circumstances are outside the Adviser’s control, including instances at third parties. The Fund and the Adviser seek to reduce these operational risks through controls and procedures. However, these measures do not address every possible risk and may be inadequate to address these risks.

**Portfolio Holdings Information**

A description of the Fund’s policies and procedures with respect to the disclosure of the Fund’s portfolio holdings is available in the SAI. Disclosure of the Fund’s holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the annual and semi-annual reports to Fund shareholders and in other regulatory filings. The annual and semi-annual reports to Fund shareholders are available free of charge by contacting the Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701 or calling 1-844-2SPHERE.
MANAGEMENT

The Board supervises the management, activities and affairs of the Fund and has approved contracts with various organizations to provide, among other services, the day-to-day management required by the Fund and its shareholders.

Investment Adviser

Reflection Asset Management, LLC, a South Carolina limited liability company organized in 2019, serves as the investment adviser to the Fund as well as other advisory clients, including another registered investment company. The Adviser’s principal place of business is 1000 Palm Boulevard, Isle of Palms, South Carolina 29451. The Adviser has overall responsibility for the general management and administration of the Fund. The Adviser, subject to the general oversight of the Board, has overall responsibility for directing the investments of the Fund in accordance with its investment objective, policies and limitations and overseeing investment activities. The Adviser also furnishes the Fund with office space and certain administrative services and provides personnel needed to fulfill its obligations under the investment advisory agreement. For its services to the Fund, under the Investment Advisory Agreement between the Adviser and the Trust on behalf of the Fund (the “Investment Advisory Agreement”), the Fund pays the Adviser a unified management fee, which is calculated daily and paid monthly, at an annual rate of 0.07% of the Fund’s average daily net assets. As of September 30, 2022, the Adviser had approximately $62 million in assets under management.

The Adviser has agreed to pay all expenses of the Fund, except for: the unified management fee payable to the Adviser pursuant to the Investment Advisory Agreement, interest charges on any borrowings, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, distribution (12b-1) fees and expenses, and shareholder service fees and expenses pursuant to the Shareholder Servicing Plan (collectively, “Excluded Expenses”). Under the Licensing Agreement with Sphere, Sphere has agreed to reimburse the Adviser for the Fund’s operating expenses until such time as the Fund becomes profitable.

The basis for the Board of Trustees’ approval of the Investment Advisory Agreement is available in the Fund’s semi-annual report to shareholders for the fiscal period ended March 31, 2022.

Portfolio Manager

Jason T. Britton, Chief Executive Officer and Founder of the Adviser, serves as the Portfolio Manager of the Fund. Mr. Britton also serves as a portfolio manager of an exchange-traded fund offered in a separate investment company. Mr. Britton has served as the CEO and head portfolio manager of the Adviser since its inception in 2019. From 2016 to 2019, Mr. Britton served as a consulting portfolio manager for two different SEC registered investment advisers: Sciens Capital Management and AlphaOne Capital. From 2009 to 2016, Mr. Britton served as Managing Director and Head Portfolio Manager for thematic/ESG equities for U.S. Trust, a division of Bank of America. Additionally, Mr. Britton is a Professor of Impact Investing in the business school of the College of Charleston. Mr. Britton received his B.S. in Business from Georgetown University and holds an MBA from the Yale School of Management.

The SAI provides additional information about the Portfolio Manager’s compensation, other accounts managed, and ownership of the Fund.

Fund Sponsor

The Fund Sponsor has licensed the Index to the Adviser and has entered a services agreement with the Adviser, pursuant to which the Fund Sponsor agrees to (i) provide marketing support for the Fund; (ii) assist with the development of and provide other support to the Fund; and (iii) assume the obligation of
the Adviser to pay all expenses of the Fund, except Excluded Expenses. Once the Fund becomes profitable, the Adviser will compensate Sphere from a portion of its unified management fee. The Fund Sponsor also supports the Fund as the Fund Sponsor conducts its campaign to raise awareness around climate change. As noted above, the Adviser has a minority economic ownership interest in the Fund Sponsor. The Fund Sponsor does not act as an investment adviser or otherwise provide investment advice to the Fund.

**DISTRIBUTION AND SERVICING OF FUND SHARES**

**Distributor**

The Trust has entered into a Distribution Agreement with Vigilant Distributors, LLC (the “Distributor”), located at Gateway Corporate Center Suite 216, 223 Wilmington West Chester Pike, Chadds Ford, PA 19317, pursuant to which the Distributor acts as the Fund’s principal underwriter, provides certain administration services and promotes and arranges for the sale of Fund shares. The offering of Fund shares is continuous, and the Distributor distributes Fund shares on a best efforts basis. The Distributor is not obligated to sell any certain number of shares of the Fund. The Distributor is a registered broker-dealer and member of FINRA.

**Shareholder Servicing Plan**

The Fund has adopted a Shareholder Servicing Plan (the “Shareholder Servicing Plan”) that allows the Fund to make payments to financial intermediaries and other service providers for shareholders in return for shareholder servicing and maintenance of shareholder accounts. These shareholder servicing and maintenance fees may not exceed 0.10% per year of the Fund’s average daily net assets and may not be used to pay for any services in connection with the distribution and sale of the Fund. However, no shareholder servicing fees are currently being paid by the Fund, and there are no plans to impose these fees as of the date of this Prospectus. In the event shareholder servicing fees are charged in the future, because the fees are paid out of Fund assets, over time these fees will increase the cost of your investment and may cost you more than certain other types of sales charges.

**Payments to Financial Intermediaries**

The Adviser, out of its own resources and legitimate profits and without additional cost to the Fund or its shareholders, may provide cash payments to certain intermediaries, sometimes referred to as revenue sharing, for distribution and shareholder services. The Adviser may make revenue sharing payments to intermediaries for shareholder services or distribution-related services, such as: marketing support; access to third party platforms; access to sales meetings, sales representatives and management representatives of the intermediary; and inclusion of the Fund on a sales list, including a preferred or select sales list, and in other sales programs. The Adviser may also pay cash compensation in the form of finder’s fees that vary depending on the dollar amount of the shares sold. From time to time, and in accordance with applicable rules and regulations, the Adviser may also provide non-cash compensation to representatives of various intermediaries who sell Fund shares or provide services to Fund shareholders. These payments may create a conflict of interest by influencing the representative to recommend the Fund over another investment. Amounts paid by the Adviser to shareholder services are in addition to or in lieu of amounts paid by the Fund under the Shareholder Servicing Plan.

**SHAREHOLDER INFORMATION**

**Pricing of Shares**

The price of the Fund’s shares is based on its NAV. The NAV per share of the Fund is determined as of the close of regular trading on the New York Stock Exchange (“Exchange”) (generally 4:00 p.m. Eastern Time) (“Market Close”) on each day that the Exchange is open for business (each, a “Business Day”).

12
The NAV is calculated by adding the value of all securities and other assets in the Fund, deducting its liabilities, and dividing the balance by the number of outstanding shares in the Fund. The price at which a purchase or redemption is effected is based on the next calculation of NAV after the order is received by an authorized financial institution or U.S. Bancorp Fund Services, LLC, the Fund’s transfer agent (the “Transfer Agent”), and under no circumstances will any order be accepted for purchase or redemption after the NAV calculation. Shares will only be priced on Business Days. In addition, foreign securities held by the Fund may trade on weekends or other days when the Fund does not calculate NAV. As a result, the market value of these investments may change on days when shares of the Fund cannot be bought or sold. Any order received after the close of trading on the Exchange will be processed at the NAV as determined as of the close of trading on the next day the Exchange is open.

The Fund values its assets based on current market values when such values are available. These prices normally are supplied by an independent pricing service. Equity securities held by the Fund which are listed on a national securities exchange, except those traded on the NASDAQ Stock Market, Inc. (“NASDAQ”), and for which market quotations are available, are valued at the last quoted sale price on the exchange on which the security is principally traded. Securities traded on NASDAQ are valued in accordance with the NASDAQ Official Closing Price, which may not be the last sale price. Pricing services may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. The Board has appointed the Adviser as its designee (the “Valuation Designee”) for all fair value determinations and responsibilities for the Fund. Assets and securities for which market quotations are not readily available are valued in good faith in accordance with the Valuation Designee’s procedures.

When the Fund uses fair value pricing to determine its NAV, securities will not be priced on the basis of quotations from the primary market in which they are traded, but rather may be priced by another method that the Valuation Designee believes accurately reflects fair value. The Fund’s policy is intended to result in a calculation of the Fund’s NAV that fairly reflects security values as of the time of pricing. However, fair values determined pursuant to the Valuation Designee’s procedures may not accurately reflect the price that the Fund could obtain for a security if it were to dispose of that security as of the time of pricing.

**Purchase of Shares**

The Fund’s shares are offered on a continuous basis and are sold without any sales charges. There is no minimum initial investment in the Fund and additional investments may be made in any amount. The Fund does not charge any sales loads, deferred sales loads, or 12b-1 fees, in connection with the purchase of shares. You may purchase shares as specified below.

Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

**By Mail:** You may purchase shares by sending a check in U.S. dollars drawn on a U.S. bank payable to the Sphere 500 Climate Fund, indicating the name of the Fund and the dollar amount to be purchased, along with a completed application. If a subsequent investment is being made, write your account number on the check and send it together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If you do not have the Invest by Mail form, include the Fund name, your name, address, and account number on a separate piece of paper along with your check. The Fund will not accept payment in cash or money orders. The Fund does not accept post-dated checks or any conditional order or payment. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler’s checks or starter checks for the purchase of shares.
Send the check and account application to:

**Regular mail:**
Sphere 500 Climate Fund  
c/o U.S. Bank Global Fund Services  
P. O. Box 701  
Milwaukee, WI 53201-0701

**Overnight mail:**
Sphere 500 Climate Fund  
c/o U.S. Bank Global Fund Services  
615 East Michigan Street, 3rd Floor  
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agent. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent’s post office box, of purchase orders does not constitute receipt by the Transfer Agent. Receipt of purchase orders is based on when the order is received at the Transfer Agent’s offices.

Purchase orders must be received prior to Market Close (generally, 4:00 p.m. Eastern Time) to be eligible for same day pricing.

**By Wire:** If you are making your first investment in the Fund by wire, before you wire funds the Transfer Agent must have a completed account application. You may mail or deliver overnight your account application to the Transfer Agent at the addresses provided under “By Mail” above. Upon receipt of your completed account application, the Transfer Agent will establish an account for you. The account number assigned will be required as part of the instruction that should be provided to your bank to send the wire. Your bank must include the name of the Fund, the account number, and your name so that monies can be correctly applied.

Before sending funds for initial or subsequent investment by wire, please contact the Transfer Agent to advise them of your intent to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. Wired funds must be received prior to Market Close (generally, 4:00 p.m. Eastern Time) to be eligible for same day pricing. The Fund and U.S. Bank N.A. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions. Your bank should transmit funds by wire to:

**Wire to:**
U.S. Bank National Association  
777 East Wisconsin Avenue  
Milwaukee, WI 53202

**ABA Number:**
075000022

**Credit:**
U.S. Bancorp Fund Services, LLC

**Account:**
112-952-137

**Further Credit:**
Sphere 500 Climate Fund  
(Shareholder Name/Account Registration  
(Shareholder Account Number)

**By Telephone:** Investors may purchase additional shares of the Fund by calling 1-844-2SPHERE. If you did not decline this option on your account application, and your account has been open for at least 7 business days, telephone orders in any amount will be accepted via electronic funds transfer from your bank account through the Automated Clearing House (“ACH”) network. You must have banking
information established on your account prior to making a purchase. If your order is received prior to Market Close (generally, 4:00 p.m. Eastern Time), your shares will be purchased at the NAV calculated on the day your order is placed.

Purchase orders by telephone must be received by or prior to Market Close (generally, 4:00 p.m. Eastern Time). During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction.

**Automatic Investment Plan:** For your convenience, the Fund offers an Automatic Investment Plan (“AIP”). Under the AIP, after your initial investment, you may authorize the Fund to withdraw automatically from your personal checking or savings account an amount that you wish to invest on a monthly basis. In order to participate in the AIP, your bank must be a member of the ACH network. If you wish to enroll in the AIP, complete the appropriate section in the Account Application. The Fund may terminate or modify this privilege at any time. You may terminate your participation in the AIP at any time by notifying the Transfer Agent five days prior to the effective date. A fee will be charged if your bank does not honor the AIP draft for any reason.

**Additional Information Regarding Purchases:** Purchase orders received by the Transfer Agent in good order before Market Close will be priced at the NAV that is determined as of Market Close. “Good order” means your purchase request includes: (1) the name of the Fund, (2) the number of shares or dollar amount to be purchased, (3) the account number, and (4) a check payable to “Sphere 500 Climate Fund”. Purchase orders received in good order after Market Close will be priced as of the close of regular trading on the following Business Day. Purchase requests not in good order may be rejected.

Any purchase order may be rejected if the Fund determines that accepting the order would not be in the best interest of the Fund or its shareholders. The Transfer Agent will charge a $25 fee against a shareholder’s account, in addition to any loss sustained by the Fund, for any check or other method of payment that is returned. The Fund reserves the right to reject any application. It is the policy of the Fund not to accept applications under certain circumstances or in amounts considered disadvantageous to shareholders. The Fund reserves the right to suspend the offering of shares.

**Redemption of Shares**

You may sell (redeem) your shares on any Business Day. Redemptions are effected at the NAV next determined after the Transfer Agent or authorized financial intermediary has received your redemption request. The Fund’s name, your account number, the number of shares or dollar amount you would like redeemed and the signatures by all of the shareholders whose names appear on the account registration should accompany any redemption requests. You may elect to have redemption proceeds paid by check, by wire or by electronic funds transfer via ACH. Proceeds will be sent to the address or bank account on record. For payment through the ACH network, your bank must be an ACH member and your bank account information must be maintained on your Fund account. If you purchased your shares through a financial intermediary (as discussed under “Purchasing and Selling Shares Through a Financial Intermediary,” below) you should contact the financial intermediary for information relating to redemptions.

The Fund typically expects to pay redemption proceeds on the next Business Day after the redemption request is received in good order and prior to Market Close (generally, 4:00 p.m. Eastern Time), regardless of whether the redemption proceeds are sent via check, wire, or ACH transfer. If the Fund has sold securities to generate cash to meet your redemption request, the redemption proceeds may be postponed until the first Business Day after the Fund receives the sales proceeds. Under unusual circumstances, the Fund may suspend redemptions, or postpone payment for up to seven days, as permitted by federal securities law. The Fund typically expects to meet redemption requests by paying out proceeds from cash or cash equivalent portfolio holdings, or by selling portfolio holdings if consistent
with the management of the Fund. The Fund reserves the right to redeem in-kind as described under “In-
Kind Redemptions,” below. Redemptions in-kind are typically used to meet redemption requests that
represent a large percentage of the Fund’s net assets in order to minimize the effect of large redemptions
on the Fund and its remaining shareholders. Redemptions in-kind may be used regularly in circumstances
as described above, and may also be used in stressed market conditions. If shares to be redeemed
represent a recent investment made by check or ACH transfer, the Fund reserves the right to not make the
redemption proceeds available until it has reasonable grounds to believe that the check or ACH transfer
has been collected (which may take up to 10 calendar days). Shareholders can avoid this delay by
utilizing the wire purchase option.

**By Mail:** If you redeem your shares by mail, you must submit written instructions which indicate the
Fund’s name, your account number, the number of shares or dollar amount you would like redeemed and
the signatures by all of the shareholders whose names appear on the account registration along with a
signature guarantee, if applicable. Your redemption request should be sent to:

**Regular mail:**
Sphere 500 Climate Fund
c/o U.S. Bank Global Fund Services
P. O. Box 701
Milwaukee, WI 53201-0701

**Overnight mail:**
Sphere 500 Climate Fund
c/o U.S. Bank Global Fund Services
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agent.
Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent’s post office box, of
redemption requests does not constitute receipt by the Transfer Agent. Receipt of redemption requests is
based on when the order is received at the Transfer Agent’s offices. Redemption requests must be
received prior to Market Close (generally, 4:00 p.m. Eastern Time) to be eligible for same day pricing.

**By Wire:** Wires are subject to a $15 fee paid by you, but you do not incur any charge when proceeds are
sent via the ACH system.

**By Telephone:** If you prefer to redeem your shares by telephone and you did not decline telephone
options on your account application, you may then initiate a redemption of shares up to the amount of
$50,000 by calling the Transfer Agent at 1-844-2SPHERE. Adding telephone options to an existing
account may require a signature guarantee or other acceptable form of authentication from a financial
instituition source.

Investors may have a check sent to the address of record, may wire proceeds to a shareholder’s bank
account of record, or proceeds may be sent via electronic funds transfer through the ACH network, also to
the bank account of record.

Redemption requests by telephone must be received by or before the close of regular trading on the
Exchange on any Business Day. During periods of high market activity, shareholders may encounter
higher than usual call waits. Please allow sufficient time to place your telephone transaction. If you are
unable to contact the Fund by telephone, you may mail your redemption request in writing to the address
noted above. Once a telephone transaction has been accepted, it may not be canceled or modified after
Market Close (generally, 4:00 p.m. Eastern Time).
Before executing an instruction received by telephone, the Transfer Agent will use reasonable procedures to confirm that the telephone instructions are genuine. The telephone call may be recorded and the caller may be asked to verify certain personal identification information. If the Fund or its agents follow these procedures, they cannot be held liable for any loss, expense or cost arising out of any telephone redemption request that is reasonably believed to be genuine. This includes fraudulent or unauthorized requests. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person.

**Systematic Redemption Plan:** You may specify a dollar amount ($100 minimum) to be withdrawn quarterly or have your shares redeemed at a rate calculated to exhaust the account at the end of a specified period. You must own shares in an open account valued at $10,000 when you first authorize the systematic redemption plan. The Fund will send a check to your address of record or will send the payment via electronic funds transfer through the ACH network directly to your bank account. You may cancel or change your plan at least five days prior to the next scheduled withdrawal or redeem all your shares at any time. The Fund will continue withdrawals until your shares are gone or until the Fund or you cancel the plan. IRA accounts establishing a Systematic Redemption Plan to satisfy a Required Minimum Distribution are exempt from the minimum withdrawal amount and minimum account size requirements.

**In-Kind Redemptions:** The Fund reserves the right to honor redemption requests by making payment in whole or in part by a distribution of securities from the Fund’s portfolio (a “redemption-in-kind”) and may do so in the form of pro-rata slices of the Fund’s portfolio, individual securities or a representative basket of securities. Redemptions in-kind are taxable in the same manner to a redeeming shareholder as redemptions paid in cash for federal income tax purposes. Securities redeemed in-kind will be subject to market risk until they are sold. In addition, the sale of securities received in-kind may be subject to brokerage fees, and may give rise to taxable gains or losses.

**Retirement Accounts:** Shareholders who have an IRA or other retirement plan must indicate on their written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding. Shares held in IRA and other retirement accounts may be redeemed by telephone at 1-844-2SPHERE. You will be asked whether or not to withhold taxes from any distribution.

**Signature Guarantees:** A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption is received by the Transfer Agent and the account address has been changed within the last 30 calendar days; or
- For all redemptions in excess of $50,000 from any shareholder account.

The Fund may waive any of the above requirements in certain instances. In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program.
and the Securities Transfer Agents Medallion Program ("STAMP"). A notary public is not an acceptable signature guarantor.

**Purchasing and Redeeming Shares Through a Financial Intermediary**

You may purchase and redeem shares of the Fund through certain financial intermediaries (and their agents) that have made arrangements with the Fund to sell their shares and receive purchase and redemption orders on behalf of the Fund. When you place your purchase or redemption order with such a financial intermediary, your order is treated as if you had placed it directly with the Transfer Agent, and you will pay or receive the next NAV calculated by the Fund. Financial intermediaries may be authorized by the Distributor, to designate other financial intermediaries to accept orders on the Fund’s behalf. An order is deemed to be received when the Fund, a financial intermediary or, if applicable, a financial intermediary’s authorized designee accepts the order. The financial intermediary holds your shares in an omnibus account in the financial intermediary’s name, and the financial intermediary maintains your individual ownership records. Your financial intermediary may charge you a fee for handling your purchase and redemption orders. The financial intermediary is responsible for processing your order correctly and promptly, keeping you advised regarding the status of your individual account, confirming your transactions and ensuring that you receive copies of the Fund’s Prospectus.

Financial intermediaries, such as banks, custodians, investment advisers and broker-dealers, hold shares of the Funds for their clients through omnibus or networked accounts. The Fund, and/or the Distributor, on behalf of the Fund, may enter into agreements with financial intermediaries that provide recordkeeping, transaction processing and other administrative services for customers who own Fund shares. The Fund, the Adviser, and the Fund Sponsor, or their affiliates, may pay financial intermediaries for such services. The fee charged by financial intermediaries may be based on the number of accounts or may be a percentage of the average value of accounts for which the financial intermediary provides services.

**Frequent Purchases and Redemptions**

The Fund is intended to be a long-term investment vehicle and is not designed to provide investors with a means of speculating on short-term market movements (market timing). “Market timing” generally refers to frequent or excessive trades into or out of a mutual fund in an effort to anticipate changes in market prices of its investment portfolio. Frequent purchases and redemptions of Fund shares can disrupt the management of the Fund, negatively affect the Fund’s performance, and increase expenses for all of the Fund’s shareholders. In particular, frequent trading can: (i) force the Fund’s portfolio managers to hold larger cash positions than desired instead of fully investing the Fund, which can result in lost investment opportunities; (ii) cause unplanned and inopportune portfolio turnover in order to meet redemption requests; (iii) increase broker-dealer commissions and other transaction costs as well as administrative costs for the Fund; and (iv) trigger taxable gains for other shareholders. Also, some frequent traders engage in arbitrage strategies, by which these traders seek to exploit pricing anomalies that can occur when the Fund invests in securities that are thinly traded (some small-cap stocks, for example) or are traded primarily in markets outside of the U.S. Frequent traders using arbitrage strategies can dilute the Fund’s NAV for long-term shareholders.

If you intend to trade frequently or use market timing investment strategies, you should not purchase shares of the Fund.

The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares. The policy is intended to discourage excessive trading in the Fund’s shares that may harm long-term investors and to make reasonable efforts to detect and deter excessive trading. The Fund reserves the right to reject any purchase request order at any time and for any reason, without prior written notice. The Fund may, in certain circumstances, reverse a transaction determined to be abusive.
The Fund will generally monitor trading activity within a 90 day period. The Fund may consider trading activity over a longer period than 90 days and may take into account market conditions, the number of trades, and the amount of the trades in making such determinations. The Fund may modify its procedures from time to time without prior notice regarding the detection of excessive trading or to address specific circumstances. In applying these policies, the Fund considers the information available at the time and may consider trading activity in multiple accounts under common ownership, control, or influence.

When excessive or short-term trading is detected, the party involved may be banned from future trading in the Fund. Judgments related to the rejection of purchase and the banning of future trades are inherently subjective and involve some selectivity. The Fund will seek to make judgments and applications that are consistent with the interests of the Fund’s shareholders.

There is no guarantee that the Fund or its agents will be able to detect market timing or abusive trading activity or the shareholders engaged in such activity, or, if it is detected, to prevent its recurrence.

In order for a financial intermediary to purchase shares of the Fund for an “omnibus” account, in nominee name or on behalf of another person, the Trust will enter into shareholder information agreements with such financial intermediary or its agent. These agreements require each financial intermediary to provide the Fund access, upon request, to information about underlying shareholder transaction activity in these accounts. If a shareholder information agreement has not been entered into by a financial intermediary, such financial intermediary will be prohibited from purchasing Fund shares for an “omnibus” account, in nominee name or on behalf of another person.

The Fund’s policies for deterring excessive trading in Fund shares are intended to be applied uniformly to all Fund shareholders to the extent practicable. Some intermediaries, however, maintain omnibus accounts in which they aggregate orders of multiple investors and forward the aggregated orders to the Fund. Because the Fund receives these orders on an aggregated basis and because these omnibus accounts may trade with numerous fund families with differing market timing policies, the Fund is substantially limited in its ability to identify or deter excessive traders or other abusive traders. The Fund will use its best efforts to obtain the cooperation of intermediaries to identify excessive traders and to prevent or limit abusive trading activity to the extent practicable. Nonetheless, the Fund’s ability to identify and deter frequent purchases and redemptions of Fund shares through omnibus accounts is limited. The Fund’s success in accomplishing the objectives of the policies concerning excessive trading in Fund shares in this context depends significantly upon the cooperation of the intermediaries, which may have adopted their own policies regarding excessive trading which are different than those of the Fund. In some cases, the Fund may rely on the excessive trading policies of the financial intermediaries in lieu of applying the Fund’s policies when the Fund believes that the policies are reasonably designed to prevent excessive trading practices that are detrimental to the Fund. If a financial intermediary fails to enforce the Fund’s policies with respect to market timing and other abusive trading activity, the Fund may take other actions, including terminating its relationship with such financial intermediary.

Other Fund Policies

Customer Identification Program: In compliance with the USA PATRIOT Act, please note that the Transfer Agent will verify certain information on your Account Application as part of the Fund’s Anti-Money Laundering Program. As requested on the Application, you must supply your full name, date of birth, social security number and permanent street address. Permanent addresses containing only a P.O. Box will not be accepted. If you are opening an account in the name of a legal entity (e.g., a partnership, business trust, limited liability company, corporation, etc.), you will be required to supply the identity of the beneficial owner or controlling person(s) of the legal entity prior to the opening of your account. Additional information may be required in certain circumstances. Applications without such information may not be accepted. To the extent permitted by applicable law, the Fund reserves the right to: (i) place
limits on transactions in an investor’s account until the investor’s identity is verified; (ii) refuse an investment in the Fund; or (iii) involuntarily redeem an investor’s shares and close an account in the event that an investor’s identity is not verified.

**Householding:** You may occasionally receive proxy statements and other regulatory documents for the Fund. In an effort to decrease costs and to reduce the volume of mail you receive, when possible, only one copy of these documents will be sent to shareholders who are part of the same family and share the same address. If you would like to discontinue householding for your accounts please call, toll-free, 1-844-2SPHERE to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

**Lost Shareholders:** It is important that the Fund maintains a correct address for each shareholder. An incorrect address may cause a shareholder’s account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the shareholder or rightful owner of the account. If the Fund is unable to locate the shareholder, then it will determine whether the shareholder’s account can legally be considered abandoned. Your mutual fund account may be transferred to your state of residence if no activity occurs within your account during the “inactivity period” specified in your state’s abandoned property laws. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state’s unclaimed property administrator in accordance with statutory requirements. The shareholder’s last known address of record determines which state has jurisdiction. Shareholders with a state of residence in Texas have the ability to designate a representative to receive legislatively required unclaimed property due diligence notifications. Please contact the Texas Comptroller of Public Accounts for further information.

**Distributions**

Distributions from the Fund’s net investment income, if any, are declared and paid annually. Any net capital gain realized by the Fund also will be distributed annually.

Distributions are payable to shareholders as of the record date (including holders of shares being redeemed, but excluding holders of shares being purchased). All distributions will be reinvested in additional Fund shares, unless you choose one of the following options: (1) receive distributions of net capital gain in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional Fund shares, while receiving distributions of net investment income in cash. The Fund’s distributions, whether received in cash or reinvested in additional shares of the Fund, may be subject to federal, state and local income tax.

If you wish to change your distribution option, write to or call the Transfer Agent in advance of the payment date of the distribution. However, any such change will be effective only as to distributions for which the record date is five or more calendar days after the Transfer Agent has received the request.

If you elect to receive distributions in cash and the U.S. Postal Service is unable to deliver your check, or if a check remains uncashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund’s then current NAV per share and to reinvest all subsequent distributions.

**Federal Income Taxes**

Changes in income tax laws, potentially with retroactive effect, could impact the Fund’s investments or the tax consequences to you of investing in the Fund.

Distributions of the Fund’s investment company taxable income (which includes, but is not limited to, interest, dividends, net short-term capital gain and net gain from foreign currency transactions), if any, are
generally taxable to the Fund’s shareholders as ordinary income. Although the Fund expects that most or all of its distributions of investment company taxable income will be taxed at the federal income tax rates applicable to ordinary income, for a non-corporate shareholder, to the extent that the Fund’s distributions of investment company taxable income are attributable to and reported as “qualified dividend” income (generally, dividends received by the Fund from U.S. corporations, corporations incorporated in a possession of the U.S., and certain foreign corporations that are eligible for the benefits of a comprehensive tax treaty with the U.S.), such income may be subject to tax at the reduced federal income tax rates applicable to long-term capital gain, if certain holding period requirements have been satisfied by the shareholder. For a corporate shareholder, a portion of the Fund’s distributions of investment company taxable income may qualify for the intercorporate dividends-received deduction to the extent the Fund receives dividends directly or indirectly from U.S. corporations, reports the amount distributed as eligible for the deduction and the corporate shareholder meets certain holding period requirements with respect to its shares. To the extent that the Fund’s distributions of investment company taxable income are attributable to net short-term capital gain, such distributions will be treated as ordinary income and generally cannot be offset by a shareholder’s capital losses from other investments.

Except in the case of certain exempt shareholders, if a shareholder does not furnish the Fund with its correct Taxpayer Identification Number and certain certifications or the Fund receives notification from the Internal Revenue Service (“IRS”) requiring back-up withholding, the Fund is required by federal law to withhold federal income tax from the shareholder’s distributions and redemption proceeds at a rate set under Section 3406 of the Internal Revenue Code of 1986, as amended, for United States residents.

Distributions of the Fund’s net capital gain (net long-term capital gain less net short-term capital loss) are generally taxable to the Fund’s shareholders as long-term capital gain regardless of the length of time that a shareholder has owned Fund shares. Distributions of net capital gain are not eligible for qualified dividend income treatment or the dividends-received deduction referenced above.

You will be taxed in the same manner whether you receive your distributions (of investment company taxable income or net capital gain) in cash or reinvest them in additional Fund shares. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record and paid the following January are taxable as if received on December 31.

In addition to the federal income tax, certain individuals, trusts and estates may be subject to a Net Investment Income (“NII”) tax of 3.8%. The NII tax is imposed on the lesser of: (i) the taxpayer’s investment income, net of deductions properly allocable to such income; or (ii) the amount by which the taxpayer’s modified adjusted gross income exceeds certain thresholds ($250,000 for married individuals filing jointly, $200,000 for unmarried individuals and $125,000 for married individuals filing separately). The Fund’s distributions are includable in a shareholder’s investment income for purposes of this NII tax. In addition, any capital gain realized by a shareholder upon a sale or redemption of Fund shares is includable in such shareholder’s investment income for purposes of this NII tax.

Shareholders that sell or redeem shares generally will have a capital gain or loss from the sale or redemption. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount received from the sale or redemption (including in-kind redemptions) and how long the shares were held by a shareholder. Gain or loss realized upon a sale or redemption of Fund shares will generally be treated as a long-term capital gain or loss if the shares have been held for more than one year and, if held for one year or less, as short-term capital gain or loss. Any loss arising from the sale or redemption of shares held for six months or less, however, is treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales or similar transactions is not counted. If you purchase Fund shares (through reinvestment of distributions or
otherwise) within 30 days before or after selling or redeeming other Fund shares at a loss, all or part of that loss will not be deductible and will instead increase the basis of the new shares.

Some foreign governments levy withholding taxes against dividends and interest income. Although in some countries a portion of these taxes is recoverable, the non-recovered portion will reduce the return on the Fund’s securities.

The Fund is required to report to certain shareholders and the IRS the adjusted cost basis of Fund shares acquired on or after January 1, 2012 when those shareholders subsequently sell or redeem those shares. The Fund will determine adjusted cost basis using the average cost method unless you elect in writing any alternate IRS-approved cost basis method. Please see the SAI for more information regarding cost basis reporting.

The federal income tax status of all distributions made by the Fund for the preceding year will be annually reported to shareholders. Distributions made by the Fund may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax advisor.
FINANCIAL HIGHLIGHTS

The following financial highlights table is intended to help you understand the financial performance of the Fund for the fiscal period shown. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that you would have earned (or lost) on an investment in the Fund (assuming investment of all dividends and other distributions). Information in the table has been audited by BBD, LLP, the independent registered public accounting firm of the Fund, whose report, along with the Fund’s financial statements, is included in the Fund’s 2022 annual report to shareholders, which is available, without charge, upon request.

* Commencement of operations for the Fund was October 4, 2021

^ Annualized

^ Not Annualized

† The net investment income per share was calculated using the average shares outstanding method.

♦ Effective November 14, 2022, the Fund changed its name from the Sphere 500 Fossil Free Fund to the Sphere 500 Climate Fund.
Notice of Privacy Policy & Practices

Protecting the privacy of Fund shareholders is important to us. The following is a description of the practices and policies through which we protect the privacy and security of your non-public personal information.

We collect non-public personal information about you from the following sources:
• information we receive about you on applications or other forms;
• information you give us orally; and
• information about your transactions with us or others.

The types of non-public personal information we collect and share can include:
• social security number;
• account balances;
• account transactions;
• transaction history;
• wire transfer instructions; and
• checking account information.

What Information We Disclose

We do not disclose any non-public personal information about our shareholders or former shareholders without the shareholder’s authorization, except as permitted by law or in response to inquiries from governmental authorities. We may share information with affiliated parties and unaffiliated third parties with whom we have contracts for servicing the Fund. We will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibility.

How We Protect Your Information

All shareholder records will be disposed of in accordance with applicable law. We maintain physical, electronic and procedural safeguards to protect your non-public personal information and require third parties to treat your non-public personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary would govern how your non-public personal information would be shared with unaffiliated third parties.

If you have any questions or concerns regarding this notice or our Privacy Policy, please contact us at 1-844-2SPHERE.

You can find more information about the Fund in the following documents:

**Statement of Additional Information**
The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

**Annual and Semi-Annual Reports**
Additional information about the Fund’s investments is available in the Fund’s annual and semiannual reports to shareholders. The annual report contains a discussion of the market conditions and investment strategies that affected the Fund’s performance during the Fund’s prior fiscal period.

The Fund’s shareholder reports are made available on the website www.oursphere.org/fund, and you will be notified and provided with a link each time a report is posted to the website. You may request to receive paper reports from the Fund or from your financial intermediary, free of charge, at any time. You may also request to receive documents through e-delivery.

Copies of these documents, and answers to questions about the Fund, may be obtained without charge, upon request, by contacting:
