Transformational Trainer

Transforming Good Instructors into Great Ones

Regardless of subject matter expertise, the role of the trainer is to enhance the performance of their students. The Transformational Trainer is an instructor enhancement program designed to help you focus on the "how to train" not just the "what to train". This program is designed to challenge instructors to think differently about law enforcement training to improve the quality of learning transfer so that work performance improves. Through guided discussions, case studies, video analysis, self-assessments and small group exercises, participants will explore:

Characteristics of the Transformational Trainer

The Science of Learning: Making it "Stick"

Generational Differences and Communication Styles

Human Performance Factors that Affect Decision Making

A New Look at Student Feedback
Storytelling as a Trainer's Tool

Eliminating Death by PowerPoint
Continuous Self-Improvement

Who Should Attend?

- Course Developers
- Trainers
- FTOs/CTOs
- Training Supervisors
- Human Resources
- Administrators

What Others Are Saying

I expected a lecture on how to make the training environment more conducive to "adult learning", based on the command's philosophy. This course was anything but that. It was relevant and valuable and hopefully influenced our decision makers in a positive, common-sense way. - Texas officer

First of all, I just want to say that was a fantastic class, and I believe it is a game changer for any FTO program and any training division, and I have certainly passed my strong support for your program to our training division. - Michigan officer
