

WORK HISTORY

Senior UX/ UI designer (Senior Design Analyst)

Scale Facilitation / 2023

As a UX/UI designer, I am responsible for developing UI systems and design libraries to support internal and portfolio companies on a large scale.

- I took the initiative to establish a comprehensive UX framework, design libraries and introduced a fresh perspective on the importance of UI design in the financial industry.
- Designed the user interface for the most extensive Battery storage in the world.

Founder / Os. studio / 2019-2022

Worked with a wide range of clients and products, from the European Commission to Startups, gaining valuable experience from different fields from product and brand management to design.

- Designed, tested, and shipped user interfaces for two startups and participated in their product development.
- Conducted multiple levels of user experience research and UI development.
- Successfully created and scaled 10+ brand visual identities.
- Designed complex information systems for a university.

Design Lead - UI/UX design / WannaWork / 2019-2021

2020 startup campus winner

As lead of design at Wannawork, my primary focus was to design critical features, define User flows, wireframes, create the company's visual brand and user interface, and supervise the development process.

- Created the pitch presentation and led the UX research and UI development for iOS and Android apps.
- Designed a reusable design system/style guide for a design framework, and the brand identity of WannaWork.

Graphic designer / Whiterabbit - Advertising agency / 2017-2018

Starting as a junior graphic designer, I was responsible for creating visual identities and participating in creating advertising campaigns.

- Worked closely with the marketing and creative team to develop concepts and key visuals for advertising campaigns..
- Created seasonal campaigns for clients around Hungary.
- Contributed to the team that won 2nd place in the M-List with the "We are all connected" ad campaign.

EDUCATION
